Who but he this convention. would mrge that "loyalty" to Grant is fidelity to the government, and that to criticise a wicked, corrupt and unpatriotic administration, is disloyalty to the government of the state or the United States ?

Before this campaign is over, the radical nominee will have to strike on a higher key, if he can, and answer for the sloeds, the fraud, corruption and imbeellity of his party friends, both in the state and national governments, which he has endorsed as deserving of his confidence and support. He will have to get beyond the question of per diem and self to the task of defonding his party from the plunder and theft of millions from the plender and theft of millions from the treasury, while he sat by and looked on either compiying at the cor-ruption of his party, or too weak and timild or too much devoted to mere party. For the Sen'lust. IMPOSTANT DOCUMENT. Me are Editore -- We are approx of the most important elections ever held in our state, in which all the state efficers are to be chosen, except these canacted with the judiciary, who hold over inder a docision of the supreme court made in their own favor, which keeps them in office two years longer than the people intended when they were elected. The election of an U.S. senator, to fill

the place of one who has held that office ouly to misrepresent and abuse the people of his native state, also depende upon this contest; as the legislature chosen this numer must elect a successor to one of the present incumbents. There will also soon he upon us a presi-

dential election in which the life of the whole nation is at stake. Such being the case, is it not well enough to arraign the two political parties of the state before the people upon the records which they have numbe; for each has now had its term in the legislative department, at least : and let the people decide which has worked for their best interest? This I propose briefly to do, so far as the finances

of the state are concerned. By chapter 46, laws of special session 1868, ratified on the 28th day of August, 1868, the salaries of the different state

officers were fixed at the radical standard of high prices, rapine and plunder. The democratic conservative legislat

of 1870-71, by chapter 81, laws of 1870-71, ratified on the the 18th day of February, 1871, Thanged those salaries so far as they were able and reduced them to their standard of retrenchment and re-Now let us see the difference as shown

by the above mentioned acts and the Auditor's reports for the years 1869-'70 and 1870-'71. IN THE EXECUTIVE DEPARTMENT.

I think that we may safely say that that of 1079-70 includes the fine lounges, di-vans, velvet rugs, looking glasses, burcaus, wash-standa, &c., purchased for the de-partments mentioned on pages 78, 91, 9118, &c., of Auditor's Report for that year, as they are put under no other head in his summing up; also the \$654 69 courth of ice

JOHNSON'S AMNESTY PROCLAMA TIONS. The supreme court of the United States has once more decided that the amnesty proclamations of President Johnson have, and have had, full force and effect. One Pargond brought suit in the court of claims for the proceeds of cotton sciz-d and sold under the ensured and shaw-doned property act-of 1863. The court held that he did not show that he had never given aid or comfort to the rebelst beyond a few bars,

lion, and on Pargond's appeal the supreme court decides that President Johnson's emesty proclamation of December 25, 1868, refered him from the necessity of proving that he adhered to the United

States during the war. The parton in other words washed out his participation in rebellion, and made him in law a new man, so that the court of claims could count go into the question of his "loyalty." If As Pargond's case is the case of every man participating in the rebellion, the sumesty of December, 25, 1868, being absolute and
