HOME AFFAIRS.

HENDERSON FAIR.—The Fair grounds at Henderson are now ready for the reception of stock, &c., for exhibition. The grounds are in perfect order, and the large new Floral Hall has just been completed. Everything, we are glad to learn, bids fair to make the exhibition a success. Great credit is due to the officers of the Society for the energy and perseverance they have displayed. The President, Col B. H. Capehart, and Dr. W. W. Young Chairman of the Executive Committee have been untiring in their efforts to make the approaching Fair the best ever held, and the zeal and fidelity with which they discharge the duties of their offices merit the highest encomiums.

The race track is one of the best in the South, being nearly a mile around. The grounds have the advantage of a number of noble oaks. We are glad to learn that large numbers of entries are being made daily, and when the Fair opens to-morrow (Tuesday) we hope it will prove that the expectations of the most sanguine are more than realized.

MURDER IN DAVIDSON COUNTY.—On Tuesday last a murder took place ten miles southeast of Lexington, which creates no little excitement in the community. Mr. Franklin Harris a highly respectable citizen was the victim, and one Elliott the perpetrator of the deed. The following are the particulars as we learned them from a friend: Sometime during the afternoon in question, Mr. H. started out to search for some stray sheep, and in the search passed by Elliott's corn field when he saw E's dogs running down his hogs which had strayed into the field. He picked up a stone and struck one of the dogs. Elliot came up and told him to strike again, when Harris stooped down as if to procure another rock, whereupon Elliott seized a piece of fence rail and struck him with such force upon the head as to crush the skull and cause instantaneous death.

Mr. H., is a young man, about 24 years of age, and leaves a wife and two young children. Elliott is now in the county jail of Lexington.

For the Sentinel.

A CARD.

We desire to make a few statements to set aside some misrepresentations that have been made concerning us.

The facts are these:—Previous to the assembling of the Legislature of 1870, Mr. Edward Stevenson, of Pleasant Grove Township, requested us to present his name before the House of Representatives as a candidate for Doorkeeper. This we consented to do. When the Legislature convened both parties met in caucus to select their candidates to be voted for (as is usually the case in all such bodies,) when we presented Mr. Stevenson's name accompanied with some earnest remarks in advocacy of his claims. On the count of the votes Mr. Stevenson received a very respectable vote, but was defeated. We did all for him that was honorable. Mr. Stevenson was informed of the result and acknowledged that we had discharged our duty toward him. He stated the same thing to his neighbors on his return home. Now in the last election it was charged that we had proved false to Mr. Stephenson, and did not present his name for Doorkeeper.

These are the facts in the case. They can be verified by any Conservative member of the House.

Now if you should again hear that we have proven false to one of our constituents, we hope you will require proof from a reliable source, and not be influenced from doing your duty at the ballot box by a a party that is an enemy to your best interest. You know the party that practice this deception on you, so keep an eye on them always when politics are at stake.

W. H. JOYNER,
JESSE BINNANT.

LOCAL DOTS

The Raleigh Brass Band has been engaged for the Henderson Fair.

Attention is called to the new advertisements.

We have received the report of the Mount Vernon Ladies' Association for 1872.

J. A. Leach, Vice-Principal of the Deaf and Dumb and the Blind Institution, has just returned from a visit to New York.

A small colored boy, on Saturday, had his hand badly crushed by a cotton gin near this place.

This office has a curiosity in the shape of a flexible stone, whilst the *News* office has a gay and festive Stone.

Why is it that the Crosley and Brown club has ceased its meetings? Come, gentlemen, wake up and lets have a live club.

Cotton seems to be coming freely into this market. Every day our streets are crowded with wagons bringing it in from the surrounding country.

Work upon the new buildings at the corner of Wilmington and Hargett streets is being pushed rapidly forward.

For the first time in many months all of the heads of the various executive departments of the State government are present in the city and attending to their duties.

The question of moving the depot at Forestville, on the R. & G. R. R., to some point nearer the college, is creating a good deal of discussion amongst the people in that vicinity.

We regret to learn that J. D. Brooks, Esq., the popular General Agent of the Wilmington N. C. Insurance Company is at the Yarbrough House quite sick.

We return thanks for an invitation to attend a Grand Coronation ball, to be given by the Western N. C. Agricultural and Mechanical Fair Association, at the Boyden House, Salisbury, on the evening of the 11th inst.

A small sized fisticuff between two white men enlivened things for a little while Saturday morning on McDowell Street. Nobody parted them and the fight was of short duration.

Mayor Whitaker continues indisposed, and in consequence no court was held on Saturday morning. If court had been opened no cases would have been on hand. The police report the city as very quiet and orderly.

OXFORD ITEM.—A friend sends us the following item:

An accident occurred to an agent here of the Wheeler & Wilson Sewing Machine last week, which was at first thought to be quite a severe one. His horse ran away throwing him and his machine against a large peach tree, bruising him, and smashing the machine. And now for the strange freak of nature, the peaches were all killed but the tree is now bearing young machines somewhat resembling a "Common Sense" in size, but each one has on it in "letters distinct,"—"Wheeler and Wilson."

WAIFS AFLOAT.

What is the difference between fixed stars and shooting stars? The one are suns, the others darters.

A gushing poet asks in the first lines of a recent effusion, "How many weary pilgrims be?" We give it up, but experience has taught us that there are a good many.

Of the many Poles immigrating to this country, it is remarked that a very large percentage are journeymen tailors. This is doubtless owing to the mutual attraction between the needle and the Pole.

An afflicted husband was returning from the funeral of his wife, when a friend asked him how he was. "Well," said he pathetically, "I think I feel the better for that little walk."

A wife asked her husband for a new dress. He replied, "Times are hard, my dear—so hard I can hardly keep my nose above water," whereupon she retorted. "You can keep your nose above water easy enough if you'd a mind to, but the trouble is you keep it too much above brandy."

There is a man in Portland, Maine, who supports his family in handsome style by simply tying an able-bodied cat by the tail to a clothes-line every night, and then going out in the morning to collect the soap, shaving cups, brushes, etc., thrown into the yard by angry boarders in adjoining houses.

The Detroit *Free Press* says that "yesterday afternoon a farmer named Palmer was thrown from his wagon about two miles beyond the toll-gate." A Union reporter has inquired into this case and finds that instead of being thrown two miles Palmer was simply thrown out upon the road beside his wagon. It is one of the Free Press exagerations.—[Detroit Union.

The Denver *Tribune* has found a pleasant variation for the oft-repeated announcement. It says: "All communics intended for publication in this Journal should be authenticated by the signature of the writer's nearest relations, when any exist; in other cases the autograph of the resident physician of the asylum where the writer tarries will be quite sufficient.

A drunkard, on being told that the earth is round and turns on its axis all the time, said: "I believe that, for I've never been able to stand on the darned thing."

GOOD TEMPLARS.—Theo. N. Ramsay, Grand Worthy Secretary of I. O. of G. T. organized Morning Star Lodge No. 15, at Smithfield, Monday night, with the Sheriff of the county, E. J. Holt Esq., as Worthy Chief Templar. Also Ramsay Lodge No. 16 at Goldsboro, on Tuesday, with Rev. J. R. Griffith as Worthy Chief Templar. Also St. Elmore Lodge No. 17, at Kinston, on Thursday, with W. C. Monroe as Worthy Chief Templar. Mr. R. is zealously at work and the order is prospering. The order has only been in existence in this State about two months and now numbers upwards of *one thousand members*.

CATTLE THIEF.—Saturday morning the authorities were hard after Bill Jones *alias* Bill Baker, col., a somewhat noted cattle thief in this county, and whose depredations in this direction have been very numerous during the past few months. His last exploits were the stealing of a steer from Mr. J. L. Atkins, who resides about 10 miles southwest of this city, and a cow from Dr. C. W. Dowd, who resides near Apex. The first was sold to Mr. Louis Schwartz, and the other to Mr. J. N. Rogers, butchers of this city. The Doctor arrived here just in time to save his cow from the knife, and carried her back home. Mr. Atkins was not so fortunate. His steer had been killed and cut up before his arrival. Mr. S. traded an old horse for the steer, upon which the rogue made his escape when pursued. Warrants, in both cases, for his arrest were issued yesterday, by Justice of the Peace Wicker and it is hoped that the rogue will be soon be overhauled and properly dealt with.

LATE REV. J. B. SMITH.—Although nothing has been heard from the analysis at Philadelphia and consequently no verdict has been returned by the jury of inquest, yet it is universally believed in this community that this good man and unfortunate gentleman met his death by arsenic, and the poisoning was the result of design. The generally accepted theory is that the sugar with which the seditz powder was sweetened on the fatal Tuesday morning, contained arsenic. "Murder will out," is an old adage well entitled to be called a truism, and we feel assured that ere long the cloud of mystery which overhangs this foul deed will be rolled back and the fiend who perpetrated it brought to justice. The motive which prompted the crime is believed to be political malignity. Dr. Smith had incurred the displeasure of the ultra wing of the republican party hereabouts as he had on divers occasions expressed his condemnation of their policy, and the influence he exerted over a number of intelligent colored men also made him disliked by this bitter and vindictive class. We have no charge to make against any particular individual, but we do say that grave suspicions that political hate prompted the commission of this diabolical murder are entertained by many clear thinking and cautious men.

Remember the sale of the beautiful property, "Idlewild," takes place at 12 M. in front of the Court House on the 16th inst.

FROM WASHINGTON.

WASHINGTON, Oct. 4.—The American and British mixed commission were in continuous session to-day from 11 a. m. to 6 p. m., and transacted a large amount of business. After closing the proofs in a large number of cases on the part of the claimants and extending the time in others, the following cases were disposed of:

In the case of Charles Mayhew *vs.* United States No. 172, on motion of the U. S. counsel to dismiss, a decision was rendered as follows:

The acts complained of not having been committed between April 13, 1861 and April 9, 1865; the memorial is dismissed for want of jurisdiction.

The following claims, on demurrer by the agent and counsel of the United States, were disallowed:

Thomas Grant *vs* United States, No. 311; Samuel and Richard Roberts *vs* United States, No. 344; Thomas N. Crosse *vs* United States, No. 350; Elizabeth G. Warrenford *vs* United States, No. 351; Thomas H Rollason *vs* United States, No. 358; Robert Atkins *vs* United States, No. 475. The commission then adjourned to meet to-morrow at 10 a. m. being an hour earlier than heretofore, in order to still further expedite the business.

FROM NEW YORK.

NEW YORK, September 4.—The Conscience Fund has recieved two thousand dollars from a person in Hamburg.

The Secretary of State, Secretary of War and the Postmaster General were only at the Cabinet meeting to-day.—Ordinary routine of business was transacted. The *Star* says the total amount of legal tender outstanding amounts to three hundred and fifty six million dollars. The law authorizes the issue of four hundred million; thus leaving forty-four millions reserve in the Treasury which the Secretary can issue at his discretion. It will thus be seen that the Secretary is not at the mercy of the New York stock gamblers as might be supposed from the small currency balance which appears in the daily cash statement. The Secretary does not anticipate an emergency which will render it necessary for him to draw on this reserve. But should one arise he will do so to the fullest extent necessary.

John B. Thompson has sued General Siegel for recovery of six thousand dollars for writing up his war record. Siegel denies indebtedness.

James Dugar, who arrived here yesterday from Sydney, Cape Breton, reports that on the 19th of September the schooner Lancaster, on which he was a passenger, fell in with an abandoned vessel on which were found a skeleton crushed in by the falling rigging; also five other skeletons, four of which appeared to have been more recent than the other two. Enquiry seemed to show that all on board perished from hunger.

The bow sprit bore the name of Glanuetoon. Two decomposed corpses were found in the forecastle. Another corpse was found in the state room, making nine found altogether. Papers found on board were to be given to the authorities at Sydney with a view to learning the history of the vessel.

At 1 o'clock this morning a fire broke out in Watson's Machine Shop and Silk Foundry in Patterson, and by five o'clock, only the walls were left standing. It is not known why the fire was allowed to gain such headway. The total loss is estimated at $150,000. Loss on the Foundry was $110,000, and on the Silk Mill $40,000.

FROM LOUISIANA.

NEW ORLEANS, Oct. 4.—A San Antonio special reports that a party of Texans followed a band of Mexican cattle thieves into Mexico, and attacked them at Newton. Two Texans and several Mexicans were killed. The Texans burned Alcaldes' house, with him in it. On Monday, two hundred armed Mexicans appeared on the Mexican side of the river, opposite San Felipe. Lieutenant Davidson, with a company of troops from Fort Clark, was ordered to watch their movements.

FROM PHILADELPHIA.

PHILADELPHIA, October 4.—President Grant has addressed a letter to the manufacturers of Philadelphia, in reply to an invitation to visit their establishments, saying he cannot at present, but at a later day when the excitement of the political campaign has passed, he will take great pleasure in making visits.

Cooney, Chattanooga, slightly injured in leg and arm; H. R. Anderson, London, ankle badly injured; David Bryant, Ramseytown, N. C., sprained ankle; Mrs. Johnson's two children, Memphis, injuries not serious; Theo. Ellis, brakeman, face; Col. Mcfarnal, mail agent, injured in small of back and bruised; T. W. Young, badly injured in face and legs.

FROM ILLINOIS.

CHICAGO, Oct. 4.—A proposition of employing brick-layers to reduce wages last night, was met by a demand from brick layers for four dollars for eight hours work, and fifty cents per hour for extra work. One thousand men obtained their demand this morning, and four thousand are on a strike. Work is suspended on the Michigan Southern Depot and the Pacific Hotel.

FROM EUROPE.

MADRID, October 4.—Information reached Madrid at a late hour last night that the fire in Escunial had been extinguished. Two of the towers and a portion of the roofing have been destroyed. The amount of damage as estimated at $3,000,000. All the valuable objects which were thought would perish in the conflagration are reported to be safe.

NATURAL DECAY—PROTECT THE SYSTEM.—The human body is a machine, and therefore cannot endure forever; but, like a watch or a sewing machine, it will last much longer if properly regulated and duly repaired, than if no pains were taken to keep it in order. The great object of every one who desires a long and healthy life should be to put his body in a condition to resist the life threatening influences by which we are all more or less surrounded; and no invigorant and corrective at present known so effectively answers this purpose as the vitalizing elixir which, under the unpretending name of Hostetter's Stomach Bitters, has been for more than twenty years the standard tonic of America. In crowded cities, where the atmosphere is contaminated with the effluvia inseparable from large populations; in marshy regions, where the soggy soil reeks with miasma; on the prairies and in the forests, where every fall the air is tainted with exhalations from rotting woods and grasses, or decomposing leaves—in short, in every locality where malaria exists, this powerful vegetable antidote is urgently needed. Fever and ague, bilious fevers, dysentery, congestion of the liver, jaundice, rheumatism, and all diseases which are generated by infected air, impure water, or sudden changes of temperature, may be averted by strengthening and regulating the system in advance with Hostetter's Bitters. Autumn is always a season of peril, especially to weak, susceptible organizations. Even the more vigor us are apt to be in some measure depressed by the humid atmosphere, loaded with deleterious gases produced by vegetable decay. To be a pall is a period of the year when the renovtion and regulation of the living machine is peculiarly important, and the Bitters should therefore be taken daily at this critical season.
