HURRYGRAPHS.

Rain on Wednesday night.

Jordan Stone Esq., managing editor of the *News*, has gone to Weldon.

Mr. Creswell, an English gentleman, has recently purchased a farm near Mebanesville.

See advertisement offering farm for sale near Greensboro.

Col. Jas. S. Amis of Oxford, is registered at the Yarboro'. We had the pleasure of seeing him in our office.

Three precincts in Granville (Oxford included) gave an increased vote for Greeley.

Col. A. A. McKoy, of Sampson, will deliver the Agricultural Address, at Cumberland county Fair, on 21st instant.

"The Carolina Farmer," for November, published by Wm. H. Bernard, of Wilmington "Star," is to hand. It is well printed at $2 a year, and filled with matter of interest to the agriculturalist.

friends must not forget us. Those indebted to the office will please pay. Will not every subscriber make an effort to obtain a *new* subscriber to the SENTINEL? We are in earnest.

Judge W. M. Shipp, Attorney General of the State, was united in marriage to Miss Maggie T. Iredell, daughter of the late Gov. Iredell, on Wednesday afternoon. They left for Western Carolina on the evening train.

The last Fayetteville *Eagle* contains sketches of several prominent ministers now attending the Baptist State Convention in session at that place. It specially compliments Rev. Dr. Pritchard, of this town.

WAIFS AFLOAT.

As a large number of our gossippers are admirers of Shakspeare, we offer from the same Shakspearean conundrums, which they can answer at their leisure:

Did "the books in the running brooks" contain flowing sentences?

If the "three thousand ducats well" of Shylock was an arteslan one?

If when Richard saw the "sun of York there was any heir apparent?

If the "sermons in stones" weren't hard reading?

If those who "stood upon the order of their going," at Macbeth's supper, did not have to set out without further orders?

What Banquo "called on Macbeth for," if there "was no speculation in those eyes?"

If Richard refused to "let the coffin pass," did he order it up?

If the tale that the ghost of Hamlet's father "could unfold" was equal to that of a rattle snake?

Was it waist time when Puck "put a girdle round the earth in forty minutes?"

Was Ariel in the newspaper business when he said, "I will be correspondent to command"

"If care keeps his watch in every old man's eye," where does he keep his clock?"

IMMIGRATION.—A good many of English settlers have come into North Carolina within a few months. They are intelligent and thrifty set of men and are very desirable persons to have among us. We find the following in the Greensboro' "Patriot:"

"The introduction of English settlers has given a considerable impetus to the farming interests of Granville, says the "Advance."

We earnestly trust that our next Legislature will do something to bring North Carolina before the foreign world, and make known some of its many resources, and some of the advantages it presents to the settler. Virginia has done so, and other States, and they are deriving the benefits of it. Yet we, with advantages equal, if not superior to any of them, make no effort to add the foreign element to our population, and thus contribute to the development of our resources and the increasing of our wealth.

We hope to see a wiser policy prevail in the future than has marked our course in the past. All we want is *people* to make North Carolina a *great* and *powerful* as she is a *good* State.

The SENTINEL now comes to us regularly, stronger and more vigorous than ever after the blow up.—*Greens. Pat.*

THE HORSE MALADY.—We learn that every horse at Wynne's stable is now sick with the distemper that is so widely prevailing. Mr. W. C. Stronach has one horse sick. We understand that up to this time no case has occurred at Dunn's stables.

THE CHEMICAL EXAMINATION.—We are informed that the Philadelphia chemist has made a report of the analysis of the stomach of the late Rev. Dr. Smith. He found a slight trace of poison in the stomach. He also found strychnine in the tumbler and on the spoon. The latter had been used for taking cough mixture, and as some of it still adhered to the spoon, a portion of the poison was easily retained. The coroner's jury held a meeting on Wednesday night. They adjourned to meet again next Tuesday.

A SPLENDID BUILDING.—At Simpson's Drug Store there is a drawing of the new capitol at Albany, New York, as it is to appear when completed. It is a magnificent building and of immense proportions, as will be seen from the following figures. Its front is 200 feet; depth 380 feet; height 140 feet. It is to have 8 towers 250 feet high, and a main shaft 350 feet high, which is about three times the height of the Baptist Church Steeple in our town. It is to cost $10,000,000. It would be an ornament to any city and a credit to the Empire State.

M. B. & L. A.—The 431 regular meeting of the MECHANICS' BUILDING AND LOAN ASSOCIATION will be held in the COURT HOUSE, on FRIDAY, 8th inst., at 7½ o'clock, p. m.

The second class will meet at the same time and place.

Members can pay their dues to Mr. Jno. C. Blake or to the undersigned.

Fines will be strictly enforced against delinquents.

WM. SIMPSON,
Secretary.

A GRANVILLE INVENTION.—We have already referred to a "tobacco curer" invented by U. T. Bowden, of Granville. The Danville (Va.) "Register," thus describes it:

The model of an apparatus, which is called a tobacco, fruit and grain curer, was shown us last week by B. F. Hester, of Oxford, N. C., who is the proprietor of the royalty of the same in Pittsylvania, Caswell and Person counties. It was invented by U. T. Bowden, of the same place, and was patented August 20th, 1872. This apparatus seems to combine several advantages. In its general features it somewhat resembles Flippen's invention, but at the same time is cheaper and more complicated. In this apparatus the furnace in which the heat for curing tobacco is generated is placed entirely outside the barn, and the heat is conducted through the house by means of flues and pipes, the ordinary stove pipe being used. There is an arrangement for the escape of surplus vapor at the top of the barn and also for testing the temperature by the thermometer without going inside. The whole thing is said to cost only $50, and is claimed to be as useful for drying fruit as for curing tobacco.

LEADING RALEIGH BUSINESS HOUSES.—Our friends and subscribers who may purpose visiting Raleigh, would do well to make a note of the following excellent business houses:

Commission Merchants. MESSRS. W. H. JONES & Co., and J. M. TOWLES have long been established in Raleigh in the Commission business. Both houses are first rate. Every man in Raleigh will indorse this.

Clothing. The neatest and completest clothing establishment, is that of R. B. ANDREWS & Co., next door to Tuckers. You can get what you want. The proprietor and his clever, obliging salesman, Seymour Whiting, will take great pleasure in exhibiting stock.

Book-Store. If you wish to purchase books or stationery, the place to go to is ALFRED WILLIAMS', who is the embodiment of propriety and honesty.

Book Binding. Every body knows, or ought to know, JOHN ARMSTRONG, one of the cleverest fellows in the State. His establishment is very complete, and you can have any kind of binding done with excellence and elegance at short notice and moderate rates.

In our last we omitted to mention unintentionally the name of SAMUEL MERRILL, among our Grocers. He has a family grocery on Cabarrus Street, near the Gas House, where he sells at moderate rates.

Other notices will appear.

VIRGINIA.

The Synod of Virginia will meet in the Franklin Street Presbyterian Church, Baltimore, Md., on Wednesday, November 20th.

Monroe Moss, a prominent citizen of Sussex county, died at his residence in that county Friday.

Mr. Noah Heller was accidentally thrown into a vat at a tannery in Harrisonburg last week and severely injured.

A house belonging to Mrs. Malinda Miller, near St. Clinton, Shenandoah county, was destroyed by fire last week. It was unoccupied.

Mrs. Mary Taylor, mother of Attorney General James C. Taylor, died in Montgomery county a few days ago at the advanced age of 77 years.

Mr. William Trego, and old and respectable citizen of Baltimore, died on Saturday, after an illness of six months, of asthma, in the 77th year of his age.

A young man named Willis, a resident of Harrisonburg, lost for several months past engaged on the Valley Railroad work in Augusta county, attempted to kill himself a few days ago by swallowing nearly an ounce of arsenic.

FROM WASHINGTON.

WASHINGTON, Nov. 9.—Those who have conversed with President Grant and his more intimate friends in Washington, arriving the past month will remember that they uniformly predicted such a result of the Presidential election as has just occurred. They seem to possess data from gentlemen in different parts of the country which justified them in the prospects now fully realized. The President to-day received a call of congratulation in addition to numerous telegrams of greeting and also announcing the result.

He expressed thanks to his guests for these manifestations and friendship, and apart from the political issues involved, he was gratified that the people had vindicated his private character, which had been assailed during the canvass. That there will be at least one change in the Cabinet at the commencement of the next Presidential term there is no question. It is known that Secretary Fish has repeatedly expressed his wish to be relieved from the position of Secretary of State; this desire will be gratified at the end of the present term. There is no probability of a change of Attorney General. Judge Williams recently remarked to some friends that although he could have been elected Senator from Oregon, he declined being a candidate in order that he might remain in his present office.

There is good reson for stating that any remark with regard to the other members of the Cabinet would be mere speculation, but it may be said that the commission of all of them will expire at the close of the present term, thus necessitating new commissions to those serving as Cabinet officers, after the 4th of March next. It is too early to anticipate the President's action in the future concerning reforms and measures of administration, further than his intimation to-day, that he will endeavor so to shape his official conduct as to meet the expectations of the country, and to unite the people in stronger bonds of peace, using all the means in his power for promoting their welfare at home and abroad.

ELECTION RETURNS.

FRANKFORT, Ky., Nov. 6.—Returns indicate a full Republican and a falling off of one third of the Democratic vote. Greeley's majority probably ten thousand. Democratic congressmen elected in every district.

NEW YORK, Nov. 6

The *Herald's* election estimates give to Grant 28 States and to Greeley 8, or 268 electoral votes for Grant to 90 for Greeley. The popular majority Grant is placed at 300,000. The *Herald* editorially says that whether the result will be accounted for by the popular strength of Gen. Grant on one hand or the weakness of Greeley and the feebleness of the Liberal Republicans combined with the Democratic bolt on the other hand, it is in many respects the most remarkable Presidential election in the history of the country.

The "Tribune" gives Grant 232 electoral votes at the lowest, and 78 for Greeley with rest doubtful. There is scarcely a parallel it says, in completeness of route and triumph. It argues that Liberalism could not withstand enormous outlays of money expended by the Republicans in conducting the canvass. Gen. Grant has four years more however with heavy congressional majorities, and in whatever reform he may seek to effect, he will have the aid of the "Tribune."

The "World" places Grant's popular majority at three hundred thousand. It says that the defeat is due to the Democratic party surrending to Greeley that demoralization consequent upon the New York ring peculation of a year or two ago, which disheartened the party and caused the nomination at Baltimore. That party had not recovered in time from the Tammany taint to do anything until it was too late.

The "Times" gives Grant three hundred electoral votes and Greeley only forty-three, with the balance as doubtful.

All but three election districts heard from on the mayoralty vote. This city gives Havemeyer, republican, 51,959; Lawrence, Tammany, 48,505; O'Brien, Apollo Hall, 34,301; Havemeyer's plurality being 3,454.

The Assembly in the State will probably stand, 44 Democrats to 84 Republicans. The Senate is Republican, holding over from last year.

The *Tribune*, commenting on the result says the Liberal Republican strength in North Carolina, Vermont and Maine was nearly nutralized by the Democrats, who would not "eat crow," when they could get five to twenty dollars for not eating it."

The Congressional delegation is 28 Republicans and 10 Democrats. The last delegation was fifteen Republicans and sixteen Democrats.

WASHINGTON, Nov. 6.—Phelps, Republican, elected from the fifth New Jersey District by a majority of 2,340.

Lowndes, Republican, elected from the sixth Maryland district by a majority of 1,705.

New Jersey elects six Republican Congressmen and a Republican joint ballot. The Republican majority twelve thousand.

Many Republican members of the New York Legislature are opposed to Conkling's re election to the Senate.

Schudder, Republican, elected from the first New York district by a majority of 1,009.

The Liberals carry but one county in Kansas.

Immense Republican gains in every section of Virginia heard from justify the conclusion that Grant has carried the State. The Republicans claim it and but few Democrats hold out in claiming it for Greeley.

Greeley runs behind the State ticket in Florida.

Louisiana, Liberals regard their success almost certain by 10,000.

Florida is also claimed by both parties by a small majority.

Dispatches from Nashville indicate that Maynard is elected congressman at large over Johnson and Cheatham.

ST. LOUIS, Nov. 6.—The county gives Greeley over 3,000 majority.

CHICAGO, Nov. 6.—McCann's majority 8,000. Rice, Wood and Farwell, reps., elect to Congress. Majority in the State about 35,000. Twelve Republican members elect to Congress from the State.

SAN FRANCISCO, Nov. 6.—Page and Clayton, Republicans, are elected to Congress from California.

One hundred and forty precincts outside of the city of San Francisco gives Grant 6,720 majority.

RICHMOND, Nov. 6.—Both parties claim Virginia.

MONTGOMERY, Nov. 6—Returns from Alabama are meagre. Both parties claim the State.

NORTH CAROLINA.

Official vote of Cabarrus: Greeley 946; Grant 796.

FROM PHILADELPHIA.

PHILADELPHIA, Nov. 6.—Gen. Meade died this evening of pneumonia.

Wet weather aggravates the horse disease. Men are hauling wagons.

FROM EUROPE.

LONDON, Nov. 6—The result of the Presidential election in America is published in London this morning. The London Telegraph believes that Grant deserved re-election and the fact that he has been again chosen, disproves the assertion that the Republics are ungrateful.

The Standard makes a violent attack upon the Republican party, which it says, "has done nationally what Tammany and Fisk did locally. Grant and Greeley are both unfit for the position of President of the United State, but it says of the two evils it believes the people have made the best choice."

PARIS, Nov. 6.—The German troops have evacuated the city of Rheims and the town of Vitry le Francais. These were the last posts retained by them in the department of Marne.

O, THAT I WERE BEAUTIFUL! is the unspoken wish of thousands of women to whom nature has denied the charm of a pure, fresh transparent complexion. To gratify this wish HAGAN'S MAGNOLIA BALM was introduced The cosmetics of the day had been pronounced poisonous by the most distinguished chemist, and it was also found that their ultimate effect was to wither the skin as well as to paralize the external nerves. The ladies hailed with delight the advent of a healthful, herbal and floral preparation capable of imparting to their faces, necks and arms a porcelian smoothness and a tinge like that of the finest oriental pearl. They soon discover that it was a "new thing under the sun," incomparable and unapproachable. Unquestionably the MAGNOLIA BALM has been the greatest boiles success of the present century.

LIQUEFACTION OF AMMONIA, ST. LOUIS.

At a meeting of the policy-holders of the Life Association of America, held at the company's rooms on the 20th August, for the purpose of considering certain proposed amendments to the charter of the association, it was the sense of the meeting that other amendments be added to those proposed, and the whole be again submitted to the members of the company at a meeting which it was recommended should be held as soon as practicable. Now, therefore, this is to give notice that a meeting of the policy-holders of the Life Association will be held at the principal office of the company in the city of St. Louis, on Wednesday, the 25th day of S pt., instant, at 10 o'clock, A. M., for the purpose of voting for or against the proposed amendments to the charter of the association, in accordance with the provisions of section six of an act of the general assembly of the State of Missouri approved March 10, 1865, entitled "an act for the incorporation and regulation of life Assurance Companies."

This is strictly a

HOME LIFE COMPANY.

Its officers and Directors are citizens of the State, of high character for business capacity, enterprise and probity. It offers every

SUBSTANTIAL BENEFIT

that Northern Companies do, with the great additional consideration that the capital is kept within the State, and, therefore, helps to build up and foster home institutions.

Another important fact to be considered is, that the Wilmington Life has thus far obtained a very much larger interest for the money invested at home, than any of the New York companies receive for their investment, according to their sworn statements before the Commissioner of that State.

These unquestionable facts should commend this Company, above all others, to our people. Let it be borne in mind that millions of dollars received for Life premiums have been sent North since the war, which at once drains the South and enriches the plethoric capitalists of the North. If there was no other consideration, safety, fairness and cheapness being equal, why North Carolinians should insure at home, this were more than sufficient.

THE WILMINGTON LIFE

has excellent special features.

It places no restriction on residence or travel; it makes no extra charge for female risks; and its Policies are incontestable after Five Years.

Its business is managed economically. Its risks are taken with great caution. Its investments are made judiciously.

Its motto is:

ECONOMY, PROMPTNESS, FAIRNESS.

MEDICAL.

BALTIMORE LOCK HOSPITAL.

BALTIMORE, MD.

OFFICE—7 SOUTH FREDERICK STREET.

DR. JOHNSON,

Physician of the celebrated Institution, discovered, when in the Great Hospitals in Europe, viz: England, France and elsewhere, the most certain, speedy, pleasant and effectual remedy in the world for all diseases or abuses of the system.

Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Diseases of sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—these terrible Diseases arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering marriage, &c., impossible, destroying both body and mind.

YOUNG MEN

Especially, who have become the victims of Solitary Vice, that dreadful and destructive habit which annually sweeps to an untimely grave thousands of young men of the most exalted talents and brilliant intellect, who might otherwise have entranced listening Senates with the thunders of eloquence, or waked to ecstacy the living lyre, may call with full confidence.

MARRIAGE.

Married persons, or Young men contemplating marriage, aware of Physical Weakness, Loss of Procreative Power (Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill as a physician.

ORGANIC WEAKNESS

Immediately Cured and full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgences. Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands this subject will pretend to deny that the power of procreation is less sooner by those fatal or baneful habits than by the strictest? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Heart, Indigestion, Constitutional Debility and Wasting of the Frame, Cough, Consumption, Decay and Death.
