LEGISLATIVE SUMMARY.

In the Senate, yesterday, *Mr.* Flemming introduced a bill to facilitate the sale of the public lands.

Mr. Troy, a bill to re-enact and continue in force the charter of the Fayetteville & Florence Railroad.

A special committee was provided for to enquire into the affairs of the penitentiary.

Mr. Humphrey introduced a bill to incorporate the Snow Hill, Greenville and Goldsboro' Railroad Company.

Mr. R. James Powell, Senator-elect from the 22d district, took his seat yesterday.

The proceedings of the House on yesterday, like those of the past week, presents nothing of note or interest. The announcement of some standing committees and the introduction of some bills and resolutions was the sum total of what was done.

Mr. Morrison, of Lincoln, introduced a bill fixing the salary of the Governor at $3,000 per annum, and that of the Public Treasurer at $1,800. The first of these officials now receives $5,000 per annum and the other $3,000. A full report of the proceedings is to be found in another column, to which the attention of the reader is directed.

KIND WORDS.—The editors of the SENTINEL are under special obligations to the Statesville *Intelligencer* for the following complimentary notice of this paper. It says:

For whatever of success the Conservative party has gained since the advent of Radicalism in our State, a liberal share of honor, at least must be entered on the credit side of the balance sheet in favor of the SENTINEL. It has stood at the capital a true sentinel on the watch tower, and watched with Argus eyes the true interests of the people, a terror to the enemies of liberty and a foe to evil doers. It has been assailed on every hand—the last crowning act of disbolism being the blowing up with gunpowder. May it, in the language of its own editor, "live long to maintain public liberty, and uphold the right."

BISHOP ATKINSON.—On Sunday morning this venerable prelate preached in the Episcopal church. His sermon was based upon Mark 4: 17—"And have not root in themselves," and the doctrine educed might be briefly stated—Without the Religion of the Heart there is no Salvation. It was an admirable discourse throughout, clear, forceful, incisive, practical and thoroughly evangelical. It was not eloquent, not impassioned, not rhetorical, but it was full of gospel truth, observing from beginning to end that "the expression of truth is simplicity." Bishop Atkinson's mode of thought is direct, precise, and logical. His language is simple, chaste, rather too unadorned to give the *fullest* strength and effect to his impressive thought, and is always easy and natural. His elocution betrays his early training at the bar, the best preparative, we believe, for the pulpit. His style of speaking more resembles the English than the American, in being more passive and persuasive than brilliant, full of fire, and emotional. We were pleased to see that he appeared to have fully recovered from his late sickness. After the sermon the rite of confirmation was administered to five persons. At night he preached to the colored people at St. Augustine church.

REV. A. W. MANGUM.—We had the pleasure of listening to a sermon on Sunday night from this gentleman, which we wish every reader of impure books and corrupting newspapers that fairly teem with licentiousness could have heard. The discourse was a plea for a pure heart, and was singularly searching and practical. There was quite a number of very striking thoughts presented, and the closing remarks were very touching and beautiful. The image introduced was poetical in conception and clothed in a drapery of diction at once appropriate and felicitous. We do not in the least exaggerate as every cultured person will bear witness.

Mr. Mangum is the pastor of the Methodist Church and his labors during the year, now drawing to a close, have been much blessed to the community and his people. A godly man, full of earnest zeal, with a heart warm and generous and kindly, that responds quickly to every sign of distress, and that goes out in searching sympathy for either the lowly or the lofty with a great deal of the magnate in his nature, easily winning the confidence and affection of others whether among the young or the old, he is a most useful servant of his Master. His preaching, when we have heard him, has been emotional, tervid, practical, often abounding in impressive thought and language, sometimes eloquent, and occasionally even rising into the higher regions of the poetical. A fine passage in Dryden may not be inaptly applied to some of his best thoughts when, as Ralph Waldo Emerson says, "he is lifted above himself," and his brain kindles under the inspiration of the moment; "When he spoke, what tender words he used! so softly that, like flakes of feathered snow, they melted as they fell."

The North Carolina Conference will soon assemble, and we but express the desire of very many intelligent persons outside of the Methodist Church, or indeed any church, and of many members of that body, as we chance to know, when we ask the appointing power to return him to Raleigh. Such an action will meet with a very hearty response on the part of the community.

Three fights disrupted the monotony of Wilmington Street yesterday morning.

Legislature of North Carolina.

SENATE.

MONDAY, Nov. 25, 1872.

The Senate met at 11 o'clock, President Morehead in the chair.

Prayer by Rev. Dr. Pritchard.

R. James Powell, Senator elect from the 22d district, was qualified and took his seat.

The President announced Messrs. Troy, Worth, Murphy, Murray, Scott, McCotter and Respess as the Senate Standing Committee on Penal Institutions.

BILLS AND RESOLUTIONS.

Mr. Flemming introduced a bill to facilitate the sale of the public lands.

Mr. Troy, a bill to re-enact and continue in force the charter of the Fayetteville & Florence Railroad. These bills were appropriately referred.

The resolution heretofore offered by Mr. Respess to raise a special committee to investigate the affairs of the penitentiary, laid over under the rules, was now taken up.

Mr. Troy urged its passage. The penitentiary commissioners were anxious for the fullest investigation, and he (Mr. Troy) would have moved a similar resolution had Mr. Respass failed to offer his.

Mr. Norwood was in favor of the adoption of the resolution.

Mr. Murphy would vote for the resolution, though his experience had taught him to look to the regular committees as the more efficient.

Mr. Respass had offered the resolution in no party sense. He thought the people would require an investigation into the charges made against the Board and the Governor.

Mr. Waring supported the resolution. The resolution was unanimously adopted.

Mr. Love presented sundry reports from the committee on Propositions and Grievances.

Mr. Respass introduced a resolution for the relief of the Sheriff of Dare county. Went over under the rules.

CALENDAR.

The bill for the relief of the sureties on the official bond of the late W. A. Walton, Sheriff of Rowan, was put upon its second reading.

Mr. Worth explained that the Sheriff had died before he could collect his taxes for the current fiscal year; that his sureties were responsible, prompt men, and had paid into the Treasury over $5,000 on account of the taxes of Rowan, and now asked till the 1st of February to settle for the balance.

The bill passed its second reading and its third reading also, under a suspension of the rules, with but one dissenting voice.

By leave Mr. Humphrey introduced a bill to incorporate the Snow Hill, Greenville and Goldsboro Railroad Company. Referred.

Mr. Nicholson's resolution in regard to Internal Revenue, on motion of Mr. Seymour, was referred to the Judiciary Committee.

The President announced Mr. Humphrey as the Senate branch of the committee on heating the capitol.

There being no further business ready, on motion of Mr. Respess, the Senate adjourned till 11 a. m., to-morrow.

The general opinion was that Gould's arrest had not checkmated his schemes.

FROM WASHINGTON.

WASHINGTON, Nov. 23.—The November report of the statistician of the department of agriculture give the cotton prospects substantially the same interpretation as the October statement.

The comparison by States with last year's crop is as follows:

North Carolina, 121; South Carolina, 124; Georgia, 119; Florida, 102; Alabama, 111; Mississippi, 117; Louisiana, 121; Texas, 126; Arkansas, 105; Tennessee, 110; Missouri, Virginia, Illinois and other States, which together produced fifty-five thousand bales in 1860, and in which cotton culture was stimulated, in several subsequent years now scarcely yield 10 per cent of that amount. The total production as indicated by the returns of the first week in November is made nearly three million, four hundred and fifty thousand commercial bales; at that date apparently 25 to 30 per cent. of the crop, or nearly one million bales, remained to be picked, and is subject to the vicissitudes of the weather, which might decrease by beating storms, or slightly enlarge it by a favorable season for opening and gathering the fire of the top crop.

The indicated product of the fibre per acre, as returned from each county, makes the following average for each State: North Carolina 173 pounds, S. C. 182, Ga., 180, Fla., 125; Ala. 170; Miss. 300; La. 215, Texas 220; Ark. 170; Tenn. 190.

The area in cotton, as calculated from the returns of 1872, is as follows: in N. C. 450,629 bales, S. C. 570,652. Ga. 131,-133. Fla. 158,099. Ala. 1,387,797. Miss. 1,517,615. La. 940,218. Texas 914,269. Ark. 695,515. Tenn. 519,008. In calculating the indicated product, the average bale is estimated at 465 pounds.

We learn that Mr. Thos. B. Bailey has given up his school on account of his health, principally, and has been appointed by Mr. Crow, Superintendent of Agents in his Department of the Ætna Life, including North Carolina and Virginia South of the James. Mr. Bailey is a very excellent gentleman, of culture and intelligence, who has had considerable experience in the Insurance business. He is thoroughly reliable and will make an efficient officer for the Ætna.

Scrofula.

Is the dread disease which annually sweeps its thousands to the grave. It makes its appearance in many forms; in Consumption, Glandular Swellings, Rheumatism, Cutaneous diseases, many of the affections with which females are troubled, &c. Perhaps no one is wholly free from its taint. The only way it can be successfully treated is through the medium of the circulation. It is a blood disease. Dr. Tutt's Sarsaparilla and Queen's Delight possess the qualities to expel it from the system and restore perfect health. Being free from violent minerals, it may be taken with safety by old and young. The most delicate female may take it any time.

If your child has worms, or a bad breath, or sallow complexion, or restless at night, or no appetite, or general bad health, give it Dr. Tutt's Liver Pills. It will soon be restored.

Dr. Tutt's Hair Dye contains no Sugar of Lead. nov 26 dcdlw&wlt

SYMPTOMS OF CATARRH.—Dull, heavy headache, obstruction of nasal passages, discharge falling into throat, sometimes profuse, watery acrid, thick and tenacious mucus, purulent, muco purulent, bloody, putrid offensive, etc. In others a dryness, dry, watery, weak or inflamed eyes, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, constant desire to clear nose and throat, voice altered, nasal twang, offensive breath, impaired smell and taste, dizziness, mental depression, tickling cough idiocy and insanity.

All the above symptoms are common to the disease in some of its stages or complications, yet thousands of cases annually terminate in consumption, and end in the grave without ever manifesting one third of the above symptoms.

No disease is more common or less understood by physicians. The Proprietor of Dr. Sage's Catarrh Remedy will pay $500 reward for a case of Catarrh which he cannot cure. Sold by druggists.

The justice of the verdict rendered by the public years ago in favor of the Mexican Mustang Liniment must be apparent to all who have used that famous preparation or seen it used. Its healing influence is irresistible. The obstinate forms of neuralgic or rheumatic disease are totally cured by it, and that in an inconceivably short space of time. External injuries or sores, whether of man or beast, as well as all equine or human maladies for which a liniment may be used, are speedily remedied by its use. Remember it is not merely a palliative but an eradicant of disease.

HUMBUG DISSECTED.—Quaint old Burton has favored us with an "Anatomy of Melancholy," but who shall dissect the melancholy fallacies and lies with which knaves and fanatics endeavor to delude the sick and feeble of this generation. Charlatans, through the newspaper press, recommend to the strength-less victim of disease convulsing purgatives which, if taken, are sure to turn his debilitated system almost inside out, and sink him into the uttermost depths of helplessness and despondency! Fanatics, on the other hand, assure the prostrate patient that no medicine containing a diffusive stimulant ought to pass his lips. If he elects to be guided by the advice of impostors and lunatics, let him make his will and order his coffin; but if there is a spark of common sense in his composition, let m resort in his extremity to Hostetter's Stomach Bitters, the most potent of vegetable tonics and alteratives—the purest and most entirely wholesome of medicated stimulants. The wonderful cures of dyspepsia, biliousness, heumatism, physical prostration and malarious fevers which this rare specific has effected during the last twenty-two years, are the most conclusive answers that can be given to the enemies of mankind who offer volcano cathartics as tonics, and to the mistaken beings who would refuse a medicinal stimulant to a poor, down-trodden invalid, who is literally dying by inches for the want of judicious stimulation. Temperance, properly understood, countenances no such folly as this. The State laws enacted to put down the abhorrent vice of drunkenness, provide for the sale of brandy, whisky, and other liquors as medicines; and if these adulterated liquors of trade are accepted by temperance legislators as remedies, what ough, to be the general verdict of the temperance public as regards the peerless vegetable tonic based upon a stimulant absolutely pure. nov 26-deodlw&wlt

THE TIP TOP WASHER.

(Patented Feb. 28, 1871.)

THIS MACHINE COMBINES SIMPLICITY AND DURABILITY.

ACKNOWLEDGED TO BE THE BEST REGARDLESS OF COST.

PRICE $12.

The most perfect Washing Machine yet invented is the TIP TOP WASHER, which for utility and durability can never be surpassed, if equaled. The public have ever demanded a simple machine which all can easily understand and keep in order. No invention has ever met with more favor or success in so short a time, than the Tip Top Washer has. For the reason that it is cheap and durable, not liable to get out of order. It is self adjusting, easily operated and easily handled, being mounted on rollers. It wears clothing much less than any other Machine or process as it watches the dirtiest clothing perfectly clean by a rapid succession of pressure or squeeze, thereby saving them from the wear and tear always sustained by the old process of washboard or rounder. This machine requires no washing fluid or chemical operation. Soap but common wash need be used to make your clothing white or clean. This Machine will not damage the most delicate fabric or tear off buttons, yet it will wash any sized piece of clothing from a bed quilt to pocket handkerchief. It will pay for itself every year in the saving of clothing. This alone should place the Machine in the hands of every family whose economy is at all desired. If you wish to save labor and preserve your health, try it. The Tip Top Washer needs only a fair and unprejudiced trial to convince the most skeptical of its complete success. We invite from them the most rigid test and only ask that our directions be strictly followed, which will accompany each machine sold. Every machine is warranted and in every case the money will be refunded or return of the machine in good order if it does not give perfect satisfaction and has been used according to directions. This Machine needs only to be seen to be appreciated.

A few active agents wanted. Upon receipt of $12 we will send one of our machines to any desired point. Parties making the machine will remit us the amount per express or by registered letter and we will forward them the machines immediately.

Persons desiring to act as agents will address us for further particulars. Communications solicited from all parts.
