AN ADDRESS TO THE PEOPLE OF

THE UNITED STATES.

WASHINGTON, Dec. 23 .- The citizens of Louisiana have perceived with satisfaction. that the people of her sister States are not sconcerned spectators of the events transpiring within her limits, and of which it is probable no parallel can be found in the history of this or any other country. As

these events were entirely brought about by the agency of officers, civil and military, of the general government, the citicons of Louisiana not doubting that the Executive, at least in regard to them, was the result of a misapprehension of the

At a meeting held for that purpose, represent ing, we may safely say, a large prepon erance of the moral worth, intelligence steamer Gen. Grant, and twenty-four and wealth of the city, a committee of one hundred gentlemen was app inted

with instructions to proceed immediately to Washington, to lay the facts before the several departments of the Gove and to solicit their aid in repairing the gross wrongs which had been done, and in restoring to the people the right of self

government taken from them by the most fearful wind and snow storm raging for patent usurpation. The undersigned form a the past two days. Five engines and part of that committee. On our arrival four trains are weather bound between here, we found so much misapprehension existing even among those who are usually well informed in regard to the origin and history of these disturbances, that we de termined to publish a brief narrative of the facta. The parties engaged in these pro-

coodings, aware that if the facts were properly understood, they would admit of no defense, now seek to do little cise than to conceal the question at lasue, and

andidate for re-clection. 2nd This election was conducted with at riof, disturbance, or violence, and the cumber of votes cast was unusually large The returns of the election were made to The reterns of the election were made to the Board appointed for the purpose. This Board was composed, maker the law, of Gor, Warmouth, the Licutemant Gov-ernor, the Secretary of State, and two other persons named in the law, viz : John Lynch and Thomas C. Anderson. The officer of Searchary of State was filled at the time by F. J. Herron, who had been appointed by Governor Warmouth to fill the vacancy caused by the removal ser-eral months hefogs of -Goorge E. Bover ; the legality of which removal and ap erai months helots of George E. Bover ; the legality of which removal and ap-pointment, was then in costs as helps the State Courts. The Board set, and it was resolved that Anderson and Pinchback were disqualified by reason of their being candidates for office. Warmouth then removed Herron, whom he had appointed, from the office of Secretary of State, as a defaulter, and appointed and commis-sioned Wharton in his stead. We have no reason to believe that the action of

defaulter, and appointed and commis-sioned Whartop in his stead. We have no reason to believe that the action of Gov. Warmouth in the removal of Herron, was based upon a dusive to commi-traud, for andor the returns there was no necessity for fraud. It was prompted by ins discovery of a plot between Herron and Lynch to tability the returns, and defeat the will of the people. This is manifest from the fast developed in the evidence before the court, that Herron, anticipating the thwarting of his scheme, had several days before ordered a duplicate of the seal of the State to be engraved, by which means he hoped to preserve the insignia of the office in the event of his reflexively be Governor. Omitting further details, Warmouth acd Omitting further details, Warmouth and Wharton on the one hand assuming to be a majority of the Board, and in the press majority of the Board, and in the pres-ence of Lynch, proceeded to elect Hatch and Duponte to fill the vacancies caused by the withdrawal of Pinchback and Anderson, while Lynch and Herron after-wards assembled, and under the same a-sumption elected Longstreet and Hawkins. Thus there eams to be two boards, each claiming to be the returning beand, one presided over by Gov. Warmouth, the State, and under the law the pressding officer of the Board, which had pessen-sion of all the election returns and even ion of all the election returns and every

sion of all the election returns and every-thing necessary to ascertain the result, while the other consisted of Lynch, the removed Secretary of State, Herron, and their two appointees. After these pro-ceedings, the State Suprems Court devid-ed that the removal of Bovee, and the original appointment of Herron, were ille-gal, and Bovee was reinstated in his office. Whatever may be said of these contexting Boards, it is clear, that the courts of the Boards, it is clear, that the courts of the United States had no semblonce of an thority to decide between their conflicting
