CHIRP OF POLICE KING was called on Monday morning to work up another case of thieving. We can only hope he may be as successful as he was in the McNelll case. We are astonished to learn from the Mayor, that there are some six or eight cases of sneak thieving to be looked into, with every probability of success. The way things are working, we are in clined to believe that we have men in authority, in our city, who not only know their duty but are determined to perform

LIGATING THE CITY.-It is rumored that our City Fathers are becoming ashamed of the disgracefully dark con dition of our streets, except when the moon shineth, and contemplate lighting them up even with kerosene oil. We don't believe a word of it. There is no hops for anything so good coming out of the present set, nor till a few fearful accidents shall bring our city pro-party-holders to their senses by means of stinging law-suits.

THE LAST DAY .- To-day is the last of the three hundred and sixty-six belonging to the year 1872. We might, with a show of propriety, write a long notice on the death of '72. That it has been a year of extraordinary events, is a fact patent to all. Let us enter upon the new year with light hearts, hoping for the best re-tuits, and numbly invoking Almighty God to guide, protect and direct us through the veiled, future-this is all we can do. To each and every one, we wish a happy and a prosperous new year;
