

THE SENTINEL

WEDNESDAY, JANUARY 8, 1873.

NORTH CAROLINA.

From the Rocky Mount Mail 3rd, last:
The MoS says that in consequence of the prevalence of small-pox in Nashville, the next term of Nash Superior Court (second Monday in February) cannot be held, and suggests a special act of Assembly requiring the Court to be held at Rocky Mount.

ATTEMPTED SUICIDE.—A young gentleman of Rocky Mount (member of the G. U. C.) a few nights ago, being disgusted with his world, and more especially with a female acquaintance, attempted to take his own life in this wise: He very carefully loaded his pistol, said his prayers, and, standing in front of his mirror, aimed at his left eye and fired! He broke the glass.

There are only three cases of small-pox in Nashville now.

Unimproved town lots are selling at \$300 per acre at Rocky Mount.

They have had a horrid year at Rocky Mount.

From the Southern Home:

HORRIBLE ACCIDENT NEAR MONROE.—A young man of seventeen, named Harrell, was going to Monroe, the day before Christmas, and finding Stewart's Ford flushed with water, took out one of his horses to try the ford and made two attempts to cross. The horse became frightened, ran off, and threw the young man, whose foot caught in the gear, and he was dragged a quarter of a mile. The horse, in running knocked down several panels of fence with the unfortunate young man, crushing him into a shapeless mass.

The Southern Home speaks in the highest terms of Gov. Vance's address at the Charlotte Institute on the 23rd inst., subject "Western North Carolina." If any description of the gorgeous scenery of the mountains was unrivaled in its graphic power.

SMALL POX IN RICHMOND COUNTY.—This disease is prevailing in Richmond county.

A GOOD SIGN.—It is said that there is unusually little moving among the farm laborers this winter, most of them remaining on the farms they occupied last year. This we think, shows a degree of contentment that argues well for futures.—*Tar-ri-er Enquirer.*

From the Charlotte Democrat, 7th inst.:

RICHMOND COUNTY GOLD DISCOVERY.—We saw last week a lump of gold, found in Union county, weighing about one pound. It was a solid lump with very little alloy. Not long since we published a notice of a lump of gold found in the same county, weighing two or three pounds, the property of a poor countryman.

While the negroes of Raleigh and other Southern cities lost a dollar each, or more, on the 1st of January celebrating the anniversary of Lincoln's emancipation proclamation, we are pleased to know that the colored population of Charlotte worked as usual on that day and made something to feed their wives and children. We hope the colored people in this section will quit celebrations and festivals, and work for themselves individually. White men who pay their debts and don't live off of other people's earnings never lose time by indulging in foolish parades and so-called festivals of Church Fairs.—*Charlotte Democrat.*

PROF. M. FETTER.—This gentleman left Charlotte Friday evening with his family, and goes to Scotland Neck, Halifax county, to take charge of the Vine Hill Academy in that place. We regret to lose him from Charlotte.

At a masque ball in Charlotte, a few nights ago, a young lady represented the *Charter*—her outside dress being composed of a number of copies of that paper, made up in the most approved style, the trimming being made of the heads of some ten or fifteen copies.

MAN. We consider the country between the Yadkin and Catawba River—a distance by Rail of 64 x 100 miles—the best in the world for gold mining, farming, &c.

The improvements on the Mansion House being nearly completed, a large addition of new furniture is being put in the building, and the name of the Hotel changed from the "Mansion House" to "Central Hotel."

From Wilmington Journal, 5th inst.:

THE CAPE FEAR.—We are glad to learn that there is now a sufficient quantity of water in the Cape Fear to allow the boats to run between this place and Fayetteville, without trouble. There has recently been a rise of 8 feet at Fayetteville, and this gives 12 feet on the shoals at that place. On Friday morning the river was still rising, but slowly.

The steamer *Pioneer*, from Philadelphia, Thursday last, after being sent in and be-fogged, was towed into Wilmington Saturday afternoon crippled.

One hundred and eighty-five carts arrived in the Wilmington market on Saturday.

New river trout in good supply at 25 cents per pair.

There were 45 turkeys, 77 hams, 1 calf and 19 sheep slaughtered and sold in this market during the week ending yesterday.

FIRE ALARM TELEGRAPH.—Mr. Lee A. Angel, in charge of the telegraph office at this place, has a fire alarm apparatus with the fire alarm apparatus. Its great utility was successfully demonstrated to those who called in to see its workings, and we believe that, if we could obtain one here, that it would prove of great benefit; provided we could get enough of it to that is to say, if we could afford to place the boxes within 300 yards of each other. As it is, it is proposed to put up five boxes, one in each district, and seven miles of wire, for \$3000. The matter will probably be brought to the attention of the Board of Aldermen at their meeting to-morrow evening.

FIRE POLICE.—We have heard many gentlemen express a desire for the organization here of a fire police, composed of reliable men, whose duty it will be to guard property at fires, and to prevent the breaking into stores and dwellings necessary, and to keep the lids closed a way from the houses, so as to allow a full scope for the fire department.

From Wilmington Star, 5th inst.:

High grades of cotton are very much in demand just now and will command No. 1 price, while the lower grades are not so much sought after.

THE GOVERNOR'S BUREAU.—The Governor has appointed Judge Clark to hold the Special Term of the Superior Court on the 15th, inst.
