FOSTER'S EXECUTION.

WHY IT WAS HASTENED.

THE CULPRIT HAD POISONED HIMSELF!

NEW YORK, March 22.

A statement is published to-day, based upon information derived from a Tomb official, that Foster took poison the night before the execution.

About eight o'clock yesterday morning the matron of the Tomb found Foster sick, and in explanation he admitted that he had taken poison.

The man's symptoms in every way confirmed the suspicion, and on this account the sheriff hastened the execution; and while many believed the duration of the religious exercise was telling on Foster's nerves, it was in reality weakness caused by the poison that was acting on him.

The Tomb physician says Foster would have died if the execution had been delayed until ten o'clock.

BURIAL OF FOSTER—THE POISON REPORT.

NEW YORK, March 22.

The remains of William Foster were buried this morning in Greenwood, Rev. Drs. Walker and Tyng officiating. After the services Dr. Tyng said he felt it his duty to state his belief that the report that Foster had taken poison and was dying at the time of his execution was false; that he and Dr. Walker were alone with Foster for three-quarters of an hour immediately previous to his going to the scaffold; that he seemed in good health and strength, and had remarkable self-possession of mind; that he dressed himself with minute care, conversed fully and freely, and on being visited by the sheriff at 9 o'clock, announced his readiness in a full, cheerful voice, and, although pinioned, walked with a firm step and without assistance to the scaffold, where he stood until the fatal moment. Both the clergymen declared the idea that he attempted or contemplated suicide as entirely inconsistent with their observations of his physical and moral conduct during the last hours of his life.

Letters and packages have been found here addressed to Austin Bidwell and A. Byron Bidwell and George McDonald. The last mentioned came to Duncan Sherman & Co., and they knew nothing of its owner.
