Important Temperance Matters. Mr. Theodore N. Ramsey returned to the city yesterday after an absence of about five days four of which he spent at four lodges of Good Templars, and delivered an address before each.

The wearing of false hair is traced back to the time of Margaret of Navarre, who, through sickness, lost all of hers, and had to depend upon the blonde locks cut from plebeian heads.

Of Gen. Peedleton's lecture, which was recently delivered in this city before the young ladies of St. Mary's school, it is said some of the most important and interesting facts of his narrative will consist of confidences of Gen. Lee imparted to one but his wife, and entrusted by her to Gen. Peedleton for the vindication of history.

The Local of the Sentinel is very thankful for the manifold notices he has received of the able manner in which he has been contributing to its columns and profusely grateful for the high encomiums and his ability to write for the State Agricultural Journal and manage the affairs of the State Library.

There are enough War Department weather maps in the State Library to paper a mile and a half of boarding ten feet high, and moreover, constantly, until at least, the liberator looks as the father of triplets in one day and will probably have to act accordingly.

The blasphemous character in a carry-all on Friday saw Dr. Orison and spoke to him. The doctor looked at him very deliberately and inquired, "were you ever to be a fanatic?" "No," said the christian, "I am no more crazy than you are, and perhaps you have just as much right to be a fanatic as I have."

The Masons in this city and vicinity have subscribed liberally for the support of the Optican Aylum at Oxford. It will be remembered this is not a Masonic or sectarian institution but open to all orphans in the State.

Services will be held in the following Churches to-day. We also publish the time of meeting of the Sabbath schools.

THE SEINE.

Umbrillas, to keep off the sun, are out already. The ordinance of baptism will be administered in the Baptist Church to-night. There will be no service at the Presbyterian Church to-day.

The thermometer reached 82° in Har-die's, on Fayetteville street, yesterday. Flannels ought not to be left off too soon but had better at once.

We carry our blood through our veins constantly to make a horse shoe. John G. Saxe was in New York a part of last week.

Croquet and base ball clubs are forming. Chief-of-Police King was looking after the sanitary condition of the city yesterday, several complaints having been made of existing nuisances.

The State Medical Society will meet in Statesville about the 20th of next May, according to a note received by the Sentinel from Dr. S. S. Satchell.

"Papa, are you growing at all?" "No, dear, what makes you think so?" "Because the top of your head is coming through your hair."

The latest style of neck-ties are made of large round colored bands, to match the dress and are wound several times around the neck, so it is said.

A colored female who was looking for home, yesterday, was sent up to Briggs & Son by mistake where she was shown some fine hoes.

The new postmaster has prohibited the gentlemen clerks from molesting the mailbags on the postage stamps for interesting young ladies.

Three cows departed this life, yesterday morning on the track of the North Carolina railroad, near Raleigh, while disputing the passage of a locomotive attached to a freight train.

The minutes of the 36th annual session of the North Carolina Conference of the Methodist Episcopal Church South are just coming out handsomely printed and bound. The workmanship throughout is very neat.

If a man had an arm long enough to reach the sun, and were to touch that body with the tip of his finger, he would never find out whether it were hot or cold, as he would be dead before the sensation arrived at headquarters, so slow is feeling.

The wearing of false hair is traced back to the time of Margaret of Navarre, who, through sickness, lost all of hers, and had to depend upon the blonde locks cut from plebeian heads.

Lee imparted to one but his wife, and entrusted by her to Gen. Peedleton for the vindication of history.

As this is Palm Sunday, services will be received to-day in commemoration of the event. After benediction will be blessing and distribution of religious tracts, High Mass following, what is known as the sufferings of Christ will be portrayed. The evening services will commence at a quarter to eight o'clock.

The Local of the Sentinel is very thankful for the manifold notices he has received of the able manner in which he has been contributing to its columns and profusely grateful for the high encomiums and his ability to write for the State Agricultural Journal and manage the affairs of the State Library.

Passion Sunday—Holy Week.

This is Passion Sunday and Holy week. The following is from the American Cyclopaedia: "Holy week, a name given in the Roman Catholic Church to the week immediately preceding the festival of Easter, because the then celebra on the most sacred mysteries with solemnities of peculiar interest. It was anciently called the great or painful week, or week of sorrows. The ceremonies began on Sunday, when Christ's entrance into Jerusalem is commemorated by blessing palm or other green branches and distributing them to the people, whence the day is called Palm Sunday. On the Wednesday, Thursday and Friday evening the office of the Te Deum and the Canon of the Mass is chanted. This consists of the matins and lauds for the following morning, which is customary to recite over night. During the service a large candlestick supporting fifteen lights arranged in form of a triangle, which denote Christ and the prophets who predicted his coming, stands in the sanctuary; the lights are one by one extinguished, until only the upper one remains, which is taken down and placed under the altar until the close of the office, and then brought back; this symbolizes Christ's burial and resurrection. On Thursday, sometimes called Holy or Maundy Thursday (from the word mandatum, commandment, with which one of the services begins), the institution of the Lord's Supper is commemorated, and in some places the priests wash the feet of twelve poor persons, in imitation of the action performed by Jesus toward his apostles. It is done by the pope to thirteen priests, though why the number should be thirteen instead of twelve is not well understood. The bells are rung, and instruments of music sound from the choir, in exultation in the mass of Thursday until the same time on Saturday. A consecrated host is carried in procession to some temporary altar prepared for it, and kept there until the next day, when the priest carries it back to the main altar and consumes it. There is no mass on Good Friday, and the altar is stripped of all its ornaments. The ceremony of kissing the cross, sometimes called the adoration of the cross, is performed on this day by all the faithful. On Saturday the services begin by the blessing of fire and water, and of the paschal candle, an emblem of Jesus Christ, which is lighted in token of his resurrection, and burns during part of the mass from Easter until the ascension. It was on the Saturday in Holy Week that the early church used to administer baptism to catechumens, and parts of the custom still relate to this service."

Price Bismarck recently made a speech which leaves no room for doubt he will use all his influence to insure the success of the anti-clerical bills for which the Constitutional bill is intended to pave the way. The Imperial Chancellor throws upon the Catholics the onus of provoking the present struggle between the Government and the priesthood.

A bill was introduced in the Indiana Legislature by Gen. Blocher, fixing the fees for preachers officiating at funerals and making the same a lien on the estate of the deceased. No action was taken till the closing session of the House, when a member called it up. The following is photographic of it as transcribed: Gen. Blocher said: Mr. Speaker, I reckon it's a little too late in the season to take any action on this bill, and I therefore shan't have much to say about it. I only regret that the bill didn't pass, for I don't think there's any class of people more deserving or more entitled to consideration or who get less of it than the preachers. I'm tired of seeing preachers working for nothing, and begging for their living. The fact is, in this country there's only three ways of getting a living—follow justice—either work, beg or steal; and I'm sorry to say that the preachers down our way, though they work hard enough, have to beg to get along.

Mr. Thayer—I would ask the gentleman from Scott if the preachers in his section of the country derive the chief part of their income from preaching funeral sermons?

Gen. Blocher—No, sir; the preachers down our way have to cut hoop-poles for a living. Why, it was only a short time ago, down there, I went out to get a preacher to preach a funeral sermon, and I found him in the woods with a load of hoop-poles on his back, and there weren't enough clothes on that man to wad a shotgun. I think this bill ought to have passed. [But it didn't.]

DEPARTURE FOR EGYPT.—Last night a number of the personal friends of Prof. Edward Warren gave him a farewell banquet at Warren's previous to his departure to Egypt to join the medical staff of the Khedive. Prof. Warren will sail from New York, in the Cunard steamer Aegyptus, on Wednesday morning. He will be accompanied by Gen. R. E. Colston, of North Carolina, who will also enter the service of the Khedive.—Hall, Sun, 1st.

DISTRICT COURT OF THE UNITED STATES.—The District Court of the United States will commence its term in Greensboro tomorrow, Monday, and the Circuit Court of the United States on Monday following, 14th inst. Judge Dick will preside at both these courts, but Judge Bond will be present at the latter.

A WANT NEVER BEFORE SUPPLIED. In regions where Liver complaint and Biliousness prevail to so great an extent, there has long been felt the need of a medicine that would not operate on the Liver, restoring it to its normal functions, and at the same time be safe from after-effects, and yet so simple that it may be used by any one. It is now admitted by all that DR. TUTT'S VEGETABLE LIVER PILLS enjoy this merit. The are now prescribed by the most eminent Physicians throughout the whole South.

DR. TUTT'S EXPECTORANT. The properties of this elegant preparation are demulcent, expectorant, heating and soothing. It breaks the nervous system and produces pleasant and refreshing sleep. It calms and relieves gloominess and depression. It is the most valuable Lung remedy ever offered to sufferers from Pulmonary Diseases.

EDITORIAL NOTES.

SOMETHING NEW.—Wilmington had turtle soup yesterday; also the first new rosin of the season. What next?

PERSONAL.—We had the pleasure of a visit, yesterday, from Hon. Jno. Manning, whom we were pleased to see in his usual good humor.

NO SENTINEL AGAIN.—Will Star 50A. Well, we had no Star one day last week, and we suppose the man who borrowed our Star took the SENTINEL to see what would be said about it.

SALE OF THE FAYETTEVILLE LE ASSEMBLY. By order of the Secretary of War, the property in the western suburbs of Fayetteville, known as the "North Carolina Arsenal site," will be sold by public auction on Tuesday, June 17th next. The property will be sold in one lot or parcel. Terms of sale—one-fourth cash at the time of the sale, the remainder on a credit of six, ten and twelve years with interest at six per cent. per annum, secured with bond and surety. All necessary information may be obtained by application to the Ordnance Office, War Department, Washington, D. C.

LATE BOILER EXPLOSION IN WILMINGTON.—Coville & Co. have investigated the cause of the late fatal boiler explosion at their saw mill in Wilmington, and in a card say they have found the key to the mystery in the testimony of Guilford Taylor, the Sawyer, who has been in their employ seven years. We quote from the card: He states that the engine was shut off and had been about ten minutes. At that time in the morning the fire was fresh and heavy, and the safety valve, from some cause, refused to perform its functions, concentrating the whole expansion of the three boilers for that time, that is, the work for sixty hours for ten minutes, concentrated in one terrific blow. This is the conclusion we arrived at from all the facts and testimony before us.

RAILROAD MONOPOLIES. The committee appointed by the Legislature to dispose of the Western North Carolina Railroad find themselves embarrassed by the bill under which they were appointed. It is rather a singular bill, empowering a committee to do what the Legislature should have done itself, or left undone until it met again. We suppose the appointment of a committee was first thought of by Tom Scott or some member of the bill who had not the patience to wait until the Legislature should convene again.

Virginia politicians, blotters and editors have subscribed liberally for the support of the Optican Aylum at Oxford. It will be remembered this is not a Masonic or sectarian institution but open to all orphans in the State.

OFFICE OF

P. F. PESCU & SON, GENERAL LIFE & FIRE INSURANCE AGENTS,

NO. 12, FAYETTEVILLE STREET, RALEIGH, N. C., APRIL 5th, 1873.

KEEP YOUR MONEY AT HOME!

In the argument employed by agents of the North Carolina Life Insurance Companies, to reach the large class that have indicated the NATIONAL LIFE INSURANCE CO. OF THE UNITED STATES OF AMERICA to establish a LOAN AGENCY in Raleigh, N. C., an effective management of a Board of not less than 25 Directors.

QUALIFICATIONS. Each Director must hold a Policy in said Company for not less than \$5,000. INDUCEMENTS. Each of the said Directors will be allowed the local agent's commission on their own premiums of all Policies issued through their agency. This is a rare opportunity to all wealthy Life Policies as the rates of the National are much lower than those of the companies represented in No. 14 Carolina.

SECURITY. The NATIONAL commenced business in 1867, with a million of dollars paid up capital, and her assets now exceed \$2,500,000. SUCCESS. The interest on the National's investments exceeds its losses by cash. Nearly \$400,000 has already been paid to widows and orphans, out of its interest fund.

WHAT WE WANT. We want 1,000 additional Policy Holders in North Carolina this year, and in order to secure them Boards of Directors will be formed in the principal towns as fast as inducements are offered. All persons desirous of membership in the Raleigh Board will please make application this month.

P. F. PESCU & SON, General Agents for North Carolina.
