SUPERIOR COURT.

Saturday's entire session of the court Biedsoe es E. O. Macy, administrator, E. 1. Nixon and others. The history of this case is briefly as follows. Bludsoe sued Macy, administrator of the estate of the late Jerre Nixon, Mrs. E. A. Nixon and others, for a sum of about \$2,000 on open account. By consent of the parties the case was referred to J. B. Batchelor, as referee, who gave judgment against Blodsee in the sum of some \$10,000. From this judgment Bledsoe appealed to the

reduced to \$5,300 Bledsoe now files his application, having as he alleges, discovered, since Batchelors' judgment, a paper showing that he ought to be credited with about \$2,600 more. In consequence of this he applied for a restraining order for twenty days to or three good brick makers. See adver- prevent Macy from collecting, and calling on Macy to show cause why he should not be perpetually restrained from collecting this \$2 600.

To-day Macy, by his counsel, moved that the restraining order itself be vacated, and argued that on Bledsoc's own showing the matter had been decided by Batchelor, and that the discovery of new evidence of a matter already decided was not sufficient ground for a restraining order; and secondly, that even if Bledsoe had made out a case, he was only entitled peeling onions without shedding tears to an order for about \$1,900, which sum was increased to \$2,000 by Bledsoc only by charging interest upon interest, which, ducting the interest claimed

The order of the court to-day removed the injunctiom from about \$700 of the amount of the judgment-the court refusing to allow compound interest, and leaves the injunction in force as to the and Epidemics of North Carolina to the \$1,900. The Target Shooting. The target shooting of the members of Raleigh Hook and Ladder Company was not quite so "wide" as was first represen ed. The target, 18 inches in dismeter was the color of the wood (maple) and was anything but conspicuous at 100 yards. The ground was very faulty, the marksmen being much above the target, and they had to shoot across a deep ravine. Indeed there was not a foot of leve ground between the rifles and the target, good thing of it.
