den, of Raleigh.

Third Annual Excursion and Ball.

ss upon the battle-field, and in its purchuse martyrdom has been met as nobly On the morning of the Fourth of July in in the cause of religion. The history is but repeated in every age and clime; priest, people, and pontate r cognize it as the great liberator, and the journal runs the gauatlet throughand the providence of ignorance, power or prejudice. If the become veritably a printing provider is the printing provider of prejudice. To go back briefly to the early European printers is before the year 1500 alseventy-five, took a special train at \$:30 o'clock for Kittrell Springs. Arriving at the Springs at 10:30 a. m., the excursionists were welcomed to the hospital

ities of this beautiful summer resort in a neat little speech by J. Al #Barrall of the Henderson Tribune, on behalf of Maj. Blackuall, the gentlemanly proprietor. property. Mr. Harrall was responded to, in behalf ol the excursionists, by Mr. Jos. W. Hol-

Addressing Mr. Harrell, Mr. Holden said, in substance, in behalt, sir, of the Committee of Arrangements, the ladies picture the void which would be caused by its loss. All the pathos and poetry dreatment Mariner does not paint the dreatmess of mid-ocean as vividly as the words of the sailor: "Duil, duil-nothing and colored inks of a brittieness but water-no neat office and gentlemen accompanying this excursion, and the invited guests, I return

through you to Mr. Blacknall and the people of Kittrells our sincere thanks for but water-no post office-no morning paper." The relation of the individual man to your most hospitable welcome Fleeing as we do from the heat and toil of the city to the breezey hills and cool sequestered vales of the country, it is especially welcome to us to know that the place of our retreat has been so happily chosen, short-lived. The newspaper, although percential, is ephemeral, and it most fully performs its function in being so perfectly ties of the day. Indeed of all men the printer needs repose and recreation, and the mirror of the day, that it can die with with his family no one understands or it in all the honor of completed service. can better appreciate than he the privi-The world has been again and again in debted to the daring deed of a journal, leges of such an entertainment as the present one. Here you behold the wives, which, when the act was done, iny like Winklergid, crushed to death, under the a fair and lovely company, challenging comparison for beauty and refinement fect of those it had saved; while amid the fast thronging events the hero of the

with any association for pleasure to be deed was well-nigh forgetten in the glory found in this State, [applause,] and while of the achievement. It is this singularly no word that I can say can detract from, fugitive character of its particulars that renders the history of the press both dull veliness of this assembly. [Applause.] We are pleased to believe, sir, that when and difficult, while the glory of its successes defies description. It is, in detail, nature planted her spring of health giv-ing waters among the hills of Granville, but a record of dubious data; and while embracing the whole progress of modern times, the trials and triumphs of genera-

tions, and the wit and wisdom of rations, its own story can hardly be rendered more attractive than that dreary entertainment a volume of anecdotes-which begins you, possibly, with a good laugh, leaves you in that terrible state of but " dry grins," from which deliver us, But with its monotony. I ask your at-

memory of ould lang syne. [Applause.] Fellow-craftsmen : The "copy" for to-day is in hand, each man's "take " hanga tention for a few moments to a little of its history. Especially do Insk the attention of my younger brothren, and the "cuba" and "devila" to something of the rise and progress of the art of which we from the "hook," a "full case " of pleasure is before him, no one is " out of sorts," and may we hope that when the "work " so proudly boast, -and our "right there is none to dispute." here is done that the great Proof reader will find no " blemishes " on the pages of. this " period " of enjoyment, [Applause,] The discovery of the art of letter-press Come, then, my friends, or sad or smiling,-

printing is the glory of the fifteenth century; bot the germ of the art existed more than three thousand years before, when the Egyptians sugraved raised characters and symbols upon tiles and cylinders which wereafterwards impressed upon soft clay tablets, which were then baked and hardened. These are supposed to be records, and the use of stamps from which many impressions could be taken, shows that the purpose was multiplication, to disteminate

going through the press, and was three years Bible printed in America. Stephen Dayo was the first printer at Cambridge, and he received a grant of three hundred acres of had a that the stephen state of the stephen state of the of land on that account.

We must hurry on, and passing over many dates and through nearly a century, rough nearly a century,

part of our daily fare; it comes to the most every known manuscript of an-breakfast tible as necessarily as the bread and butter, from the house-maid to the tos or in follos, generally on parchment, hostler, a), must possess one as special with initial letters superbly colored and gilded by hand; and this practice was The very familiarity with the boon makes us torgetful of its blessings; it is difficult to realize the effect it produces upon our lives, and imagination can hard-umes, with all our boasted advance in the art," have never been surpassed in mere mechanical execution, and certainly

books of modern times can show. For in the days when the press was almost whoily humanity at large is usually compared to humanity at large is usually compared to the leaf upon the tree, and the same figure is most applicable to the journal. The press lives and grows, ever extending its press lives and grows, ever extending its of centuries, and the universal diffusion of of centuries, and the universal diffusion of the classics, for libraries or for wealthy purchasers, printing was a luxury. and not as now a necessity. The march of centuries, and the universal diffusion of provements in presses, paper, type and of fice material; but the art itself, in taste, correctness, and practical skill, has not greatly improved. Printing is printing, and those who compare the mere letter-press of to day with that exhibited in the volumes ofGuttemberg and his contemporatics will declare that the art sprang forth Minerva-like, FULL OROWN.

What has been the progress in our Art since the dates I have given you. I cannot undertake to mention-so rapid, so wonderful, so grand has been its march. The newspaper is to-day what it has over
