The Convention.

The writer had the pleasure of spending a few hours on yesterday morning in lutening to the highly interesting discussion of this body, The address of Hon, J. W. Norwood, of Orange was a practical plea for better turning and more education. The discussion upon the report of the Committee upon Public Schools was decidedly entertain) g. Mr. Mclver, Superintendent of Public Instruction, opposed the 3d resclution of the report. Col. T. C. Puller made a vigorous, intelligent and practical speech in support of the resolutions as an entirety. Capt. Dugger, of Warrenton, opposed the 8d resolution. He made a practical suggestion that educated teachers should devote their vacations to instructing the children of the common of the last year. This is highly creditable. wheels. Major Hingham followed in sup. The people of that county have been saled | race, port of the resolutions. TION.

The Bible Question-Agricultural Edv cation.--Reports of Committees, Ac . Ac., Ac.

WEDNESDAY'S EVENING SESSION. President Battle called the Convention

o order at 84 p. m. The entire evening session was devoted

to speaking, principally on the Bible question. Prof. McIver stated that Hoa, A. S. Mer rimon, who was selected to deliver an ad-

dress this evening on the subject of "Universa' Education" was at that time engaged on a very important committee; and consequently could not address the convention. He regretted this as a great many persons were in attendance this evening with the expectation of hearing our talented Senator on the important question of "Universal Education." He would call upon Dr. Mattoon, a distinguished educator, from a sister State, who, besides having been a missionary to Stam, had travelled extensively through Europe, and had had opportunities of observing the practical workings and efficiency of schools in the old countries. He would be glad if that gentleman would address the convention on the subject assigned Senator Merrimon.

Dr. Mattoon responded to the call in a speech of some length, in which he displayed a thorough knowledge of the subject in hand. He said he had spent many years abroad, in other countries, and while he believed that some of those countries would be vastly benefitted by a free government and free schools such as ours, yet he believed there were countries which would be in a much worse condition if elevated to the position of selfgovernment at the present. He said he was much interested with the discussion at the famous Kittrell Springs on 24th of the question of introducing the Bible into Public Schools as a text book. He over, but we would none the less be was highly in favor of the movement. It pleased to be present on so pleasant an must be the moral teacher. Reference occasion. It will be a brilliant affair no had been made to the moral influence of doubt, as the obliging and enterprising other books, -in reply to that he would Proprietor, Maj. Blacknall, we are assured, may that Buddhism taught morality and will spare no pains or expense to make it refinement. In the Eastern countries you could meet with men (Buddhists) who were refined and educated, and to all outward appearance men of morality. But they were not possessed with that morality which comes down from Heaven. He advocated the education of the colored masses, and believed it to be the duty of every good citizen, of whatever persua sion, to do what he could towards the

Rev. Mr. Mangum, in response to a call came forward, and resuming the Bible right in regard to the position be had taken. He did not tavor the exclusion of the Bible from the schools-it was indispensable to us-but he did not favor the The usual college commoncements have text book, but he did layer it in its proper taken place and the usual conferring of character—the head of all books as a literary institutions have no idea of let. great truths of God. Every good man such serious embarrassment. ing the race of Doctors of Divanity run | can teach morality from all the text books, ot. Any number of grantenies whose and consequently the Bible is not neverout. Mr. Puller hoped the gentleman would not press that motion, and if he did he hoped it would not prevail.

Dr. Craven favored the motion. minutes was amply sufficient for a man to shall be taught in public schools. Away state his views, and the convention cared with "the system," and give us some cdu, nothing about his rhetoric.

Gov. Caldwell agreed with Mr. Poller He thought that important questions would come before this body and should be fully discussed.

Mr. Harris, of Wake, thought that Prof. McIver did not know how much business school fund. might be brought before the convention and therefore should not insist on his mo

Prof. Mclyer withdrew his metlon,

Msj. Bingham, from the Committee on Public Schools, made the following report The committee to whom was referred the only thing that could do the State any the resolution in reference to the present school law of the State and other resolutions, regret that the time allowed them within which to report has been inade quate to a proper discharge of the imporant duties assigned them. They can only cate in general terms that the great want is that of a proper public zeal on the subject of education, and the means necessary for the support of schools.

It appears that there are about three hundred and fifty thousand children in the State between the ages of six and twenty-one years, and that the law pro-vides an annual school fund of about two hundred and fifty thousand dollars, making about seventy cents for each child. The constitution requires that a free public school shall be taught four months

each year in every school district in the State. The law provides that the question of

levying an additional school tax shall be submitted to the qualified voters in each county separately. amittee are informed that very lew counties in the State have voted for the additional tax, so that seventy cents a your for each child is all that the law provides for carrying on the schools according to the requirements of the constitution. It is needless to say that the means provided is altogether inadequate

Then additional facts are striking and suggestive-The population of the State in the year 1870, was 1,671,361. Of this population there were 397,690 persons who could not read and write—186,397 population there were 397,690 whites and 230,606 delored.

There are about 350,000 children in the State, 230,000 of them are white; 120,-000 are colored. In that year 65,301 white children and

11,419 colored attended school.

The Report of the Superintendent of Education shows that there were last year in public schools about 50,681 children-34,294 white and 16,387 colored, and

In the year 1860, 116,576 children st. In the year 1850, 100,808 attended educational advancement of the colored The committee beg have to report the

following resolutions: 1. That the dignity and importance of the educational interests of our people cannot be over-estimated, and never be neglected but at the hazard of consequences which no friend of humanity can contemplate without fearful appro-

2. That the general educational laterintroduction of the Bible as a regular cuts of this State are deplorable and alarm ing in a high degree, and are such as to require and command the noblest and most self-sacrificing efforts of every true guide for worship and to show us the son of North Carolina to relieve her from

3. That the chairman of this Convention appoint a committee of seven mem dress to the people in which it shall be shown that the small amount of money eficially used by the establishment, in each school district, of common schools, in

be kept up at least which would redound to the educational the text books for the use of said schools shall be furnished by the Soperiatendent of Public Instruction. 2d, That the committee shall correspond with mem bern of the General Astembly open this subject, and shall insmerialize the Gene-ral Assembly to past such laws as may be necessary to effectuate the purposes of this

> 4. That is the judgment of this conven-tion national sid should be agreeded to the States for the promotion of aducation and particularly popular education, and that the chair appoint a committee — to memorialize Congress on this subject.

6. That this convention respectfully and executly request and urge every friend of the state and the people, and particularly the clergy, all public speakers and the press, to be misless and constant is making efforts to account the waking efforts to account the whole people to a ng efforts to arouse the whole people to a citing action of the puremount importax is of education and, especially of com-mon telepois, and, of the everythelming ocupity for universal, active and cordial co-operation among those to elecate the rising and coming generations and thus rolled us a representative from Burke award the blight and dangement ignoration Mr. Nolden moved to adopt the report

NOTICE TO OWNERS OF DOGS

july 11-diltax6w

By an ordinance of the City of Raieigh pass-By an ordinance of the City of Raisingh massed at the last regular meeting of the Board of Commissioners, I am required, after the 10th inst., to have impounded all canines caught in the aircest upon which the city tax has no been paid; and after the expiration of two days, if the owners of the impounded dogs do days, if the owners of the impounded dogs do not come forward and pay the tax and the cost of impounding to dispatch them. This ordinance I shall put in immediate execution. In order to protect dogs upon which the tax has been paid, I have obtained collar badges, and the same can be had on app leation by owners of dogs whenever a tax receipt, signed by the City Clerk is exhibited. All dogs found without this badge will be impounded. Owners will therefore save trouble and expense by applying immediately for the badges.

The sum of 50 cents will be paid by the city to any person for the capture and delivery at the city pound of any dog going at large with-out the tax badge.
