---Gu ras -We hear there there is a good crop of scuppernong and other grapes at We learn from a gentleman who was Tokay Vineyard, but the grapes are generally killed in this part of the State -

FROMT OF BRA'S .- General O. O. Howard, the "Christian soldier," is soon to be courtmartialed for swindling the United States Government out of \$750,000 by means of fraudulent vouchers. Meanwhile he attended the convention of the International Young Men's Christian Association at Poughkeepsie, last week, and there re-marked on the floor, that "the great ques-tion should be, "Is Christ all in all ?" It is well to clothe and feed the body and satof rail the cravings of human nature; but ligion must be the end and aim of every human effort," We suggest that Howard, when all his opportunities for swindling have been lost, could make money by sell ing h'mself to a foundry to be manufac-

THE CH LERA AT NASHVILLE-1,000 DEATHS. - A special telegram from Nashville to the Courier Journal says:

No one in the city has been attacked with the disease since the night of the Sd instant. It is estimated that one thorsand persons suffered death from the cholers, ity and county included, during the epidenic. It has been the experience of the physicians that a patient has never becu right out of a state of collapse. The arge number of deaths was mostly owing the insidiousness of the disease, the more ignorant classes feiling to recognize the symptons before it was too late. It stole upon them like a thief in the night ry were quickly laid in their graves. The lower branch of the city government having been brought to it by the clamors of the people and she press passed a bill providing for the election of a board of health commissioners and the satabilahment of a system of sewerage, levying for that purpose a tax of two mills on the d-i-ler; which will yield \$30,000. A bill was also passed declaring the swins, which have been a curse to the city, a noisance, out providing for their removal from the Attempts have been made for six years past to do what has been accomlished, and all have failed until now for and of back bone on the part of the city throwing "cannoc-crackers" into the

Rape in Salisbury.

We learn that an abandoned prosti ute, of Salisbury, named Finger, has sued out a writ against Pink Swepson, of the same place, for rape. She fact that little boys are in the habit of charged that after she had retired for fishing and bathing in the lakes in Oak- the night, and while asleep, Pink entered wook cemetery. Such conduct is highly at her window and attempted to outrage her and had partially succeeded before she awoke. Our informant mays the case attracted a large crowd at the Mayor's office, yesterday, and was undergoing an investigation, when he left the city. Pink is one of the porters of the Boyden House, and well known to the travelling public, The accusation is not generally credited in Salisbury. The Watchman will doubtless con'ain full particulars which we will lay before our readers.

More Figures. Yesterday we called at the office of Regster of Deeds and took another look at the tax list for Wake county. Among other things we noticed that while Wake has within her borders 586,682 acres of dismisse !. land, her patriotic citizens have only listed 544,813 -- leaving 41,869 acres not listed, and upon which if the law is entorced, double tax must be paid. Under the head of "money on hand or on deposit, in or out of the State," we found the comparatively small sum of \$181.625. against the last report of the city banks support of our citizens. Rev. Mr. Tra- where sprears under the head of " Indiwick, the principal, has had great expe-vidual deposits," the enormous sum of rience and has been very successful in \$1,004 7776.95. We will admit it is possible a portion of these " Individual deposits " are from other counties, but such deposits cannot possibly be large enough eson. Judgment reversed and a Fanire to reconcile the wide difference between the tax list and the bank statements.

We learn that Dr. Hawkins, President Railroad Company, recently held at States of the Raleigh & Gaston Air Line Railvill, that the discussion which took place road, formerly "Chatham Railroad Combetween McAden and Johnston was of pany," has redeemed the mortgage of the most bitter character, crimination and \$2,000,000 held by the State on said comrecrimination, the ite, and the damned lie, pany, executed in 1868, by surrendering passing and repassing. We understand \$1,703,000 of State bonds heretolore asthat our colemporaries of the press there sued to the Chatham Railroad Company, considered the scene too disgusting to be in exchange for its bonds; also \$297,000 of State bonds of other classes. By this transaction the State is benefitted to the amount of \$297,000 principal and \$84,000. interest, as the debt is reduced such an amount. The bonds (the \$2,000,000) is not entered into the State's indebtedness. towards Mr. Bridgers, It may be Mr. Bridgers does not patronize Mr. Smith's new hotel at Goldsboro':

sushed forward to completion without The Barringer Building.

Yesterday we visited this magnificent Some year or two since, when the Hon. W. A. Smith was president of the North Carolina railroad, he wrote to the Hon. R. Lenn. Royster, were shown through its R. Bridgers, president of the Wilmington various apartments, and was surprised to and Weldon road, lot a pass over his line. Smith and Eston Mills, convicted of rubace it so complete in every particular,

Court, and sentenced to three years in the penitentiary. The pardon was granted the ground floor for which quite a num-on the recommendation of the Judge, So-ber of applications have already been Bridgers arrived at Salisbury in his splenlicitor and Dr. Hawkins, on condition that made. These rooms will rent for \$900 they remove their place of residence per- each. The parlors are handsome and mencatly from Halafes county, within splendedly finished. The diurng room is road king up to the very mountains when sinety days from July 12, 1873. These one of the largest in the city, extending men were associated with the notorious the entire length of the building. It John H. Everett in the breaking open is a series of rooms which can here, and they'd be hitched on frame and robbery of box cars at Weldon about be thrown into a dining or dan would dunce and bow attendance with three years ago. Everett has long since cing hall by the opening of deffed caps. So he wrote the note.
