HOMEAFFAIRS

Charlotte Democrat,

We propose in a day or two to begin the publication of Maj. C. Dowd's articles that appeared in the Charlotte Democrat over the signature of "Hornet." Owing to the absence of the Associate, only the first number was preserved. He would be glad if bro. Yates would send him the other numbers and thereby much oblige him and the public.

Tobacco Market.

Under the above head the Petersburg Appeal of the 6th says : The receipts are rather lighter and the market has been quite steady for some days past. All durable manufacturing tobacco find ready ouvers at our quotations. There is more doing in shipping, but at rather easier prices. We quote: Luge at \$6 to \$8, working lugs 6.50 to 7.50; shipping leaf; common to very good, 9.00 to 13.00; fine 13.50 to 14.50; filler leat, common to good, 8.50 to 10.00; very good 10.50 to 11.50 dark strong waxy leaf, (kusky fired,) suitable for black work 6.50 to 14.00 for common to five; coal cured wrappers 15.90 to 60.00; nundescript leaf 8.50 to 11.00, Monidy, warm and tunked tobacco is selling very low.

The Patrons of Husbandry.

It is a fact, as the Southern Home observes, that the press of the State with angular unanimity approves the war of the farmers against corrupt and wicked rings. Every paper south of us, so far as we know, endorses the Grange movement. The Savannah News; the most influential paper in Georgia, is very enthusiastic. The News thinks that the only trouble will be to keep the old political backs out of the order. It parodies the hynm, "I want to be an angel," and tells how editors and politicians will want to join after awhile, though they abuse the order now. This is the paredy:

1 want to be a Granger, And with the Grangers stud; Clover on my forehead, A wind-mill by my hand -010

Owing to a failure to read our own groof, a few days upo, a very awkward icotence appeared in the local columns of the SENTINEL. The seifty (1) man of the Ness, who, as his columns showed, was "hard up" for an item, very courtequaly took advantage of the typographical blunder and proceeded to grind off a magnificent pipes of wit, which for shrewdpers and "genuine originality would compare invorably with anything Mark Twain or Artemus Ward has ever written," We would be giad to inform the gentleman how thistles can be prepared for cow food, but as the mode is "satirely inaccessible and only to be reached by a very circultous route" time and space will not permit us to attempt it to-day. We will suggest, however, for the special benefit of the funny man of the News, that perhaps thi-ties could be made palatable by the admixture of a small quantity of wheel borrose grease.

tenator Gordon in Charlotte.

The heldress of Benator J; H. Gordon, of Georgia, delivered in Charlotte on the 17th uit, before the Presbyterian Mission School was a most effective one. The Home says the address was directed rather to the parents than to the stillden, as he decreetly semarked that "unless the children were surrounded by proper home influences, they would never develop into perfulfugh and women." We have beard many addresses of the kind, but not one came ap to his in practical thought and sent, fire miles east of Raleigh, on Wed-earnest appeal. f the Sentunel:

The Right Worthy Grand Ledge of Good Templars of the world is in semiou, and I have but little time to write letters. have been in London one week to morrow. Yesterday I visited the Palace of Westminater. It occupies an area of about eight acres, has four principal fronts, and contains within its area no less than thir-teen quadrangles or courts for the admis-sion of light and air into the numberless rooms, residences, and offices, of which, besides the two Houses and their adjuncts, Mr. Prairie said he did not know who it is made up. Some idea may be formed Mr. Riggsby was, but his hid was the of the intricacy and extent of its plan lowest, and if he could give the required when it is considered that it contains no ond he was in favor of awarding the conract to him. His hid being the lowest,
