The increasing business of these popular cotton merchants necessitated the construction of a more spacious building than the one they now occupy.

Some idea may be formed as to what Raleigh is doing in the cotton line when we state that the single firm of Messrs, Williamson, Upchurch & Thomas handled last year more than ten thousand bales of cotton. One of the firm informs us that completion would not have been large enough for the business of that year, and yet their business is steadily on the in-

Mr. Harris was arrested and confined in keeping of the sheriff, but the other day sued out a writ of habeas corpus before Judge Read, and was bailed in the sum of \$2,500. It seems Peter, the negro worked for Mr. Harris. He went hom hungry and wanted supper right off. Mrs. H. told him to "wait till William (her H. told him to "wait till William (her son) came home." Pete cursed around and damned William for always being so late, and then went to the kitchen and both professions, beloved by every one seized the cook, his own sister, by the throat, and gave her the worst beating she has had since the surrender, because she wouldn't hurry up the cakes. KENANSVILLE.

Educational Meeting-Revival of Religion-Good Effects of a Prohibitary Law-A Contrast.

Editors of the Sentinel : At the invitation of Rev. J. N. Stallings pastor of the Baptist church in Kenan ville, Duplin county, your correspondent recently paid a vist to that interesting village to sid in an endowment meeting and to preach for a week.

Kenanaville, I found to be different from any town I had ever seen. It has a court house, about which cluster a hotel several stores and a few dwellings, but the balance of the village is spread out in the shape of a spider, the houses being built along four roads, and at long interval. It seems to have been the desire of every man to have a farm in town, and the re sult is a village of magnificent distances. There were some things about the place I There were some things about the pisce I liked very much, and some that did not

The people are usually moral and intelligent, and have shown their appreciation of education by building fire academies and maintaining good schools for many years. The people are first-rate, but I am sorry to see neither of the nice churches place enclosed, and a cemetery which might be made beautiful, greatly neglected. Indeed there is not a house in the place built since the war and many of its citizens seem to have forgotton that paint is a great beautifier.

The Presbyterian is the largest denomination in the village, though the Baptista are the prevailing religionists in the county. Rev. Mr. Sprunt, the paster of the Presbyterian church, is a learned and venerable man. Many years ago, he came to this country from Scotland, and in this place, as pastor and teacher, he has lived and labored for more than thirty years. He is said to be the finest florist in State and takes great pleasure in keeping in order his celebrated garden.

Dear Sir ; - In accordance with your re quest, I take pleasure in stating my opin ion of the medicinal virtues of the Buffal-Springs. During my long residence in Warrenton, North Carolina, I sent many patients to Buffalo, and had ample oppor-tunities of observing the effects of the water. Experience has long ago stror impressed me with the conviction that it deserves to rank among the celebrated mineral waters of Virginia. Nothing but the want of mountain sir, its comparatively isolated position, the paucity of the se-commodations hitherto, and the small pains taken to bring the Springs properly before the public, could possibly have prevented its taking position with the far famed White Sulphur Springs, in Green brier county, in the wide range of case In which they are both indicated. Indeed in a certain class of cases it is much super rior to the latter. I allude to the abiding debility, attendant upon the tardy cor valescence from grave acute diseases; and more especially to the cachexia and sequels incident to malarious feeers in all their grades and varieties, to cartain forms prouling to someon, that are remediable at all by mineral waters. In short, were I called upon to state from what mineral waters I have seen the greatest and me unmistabile amount of good accrue is the largest number of cases in a general way, I would unhesitatingly say-the Buffulo Springs, in Mecklenburg county,
