NORTH CAROLINA.

Some scoundrel attempted to burn the chimney of Capt. H. E. Orr at Wilmington.

A newspaper man in Wilmington has seen a pocket-knife and strap that belonged to Henry Berry Lowery, the outlaw that was.

Mr. R. J. Scarborough was assaulted on Thursday night in Wilmington as he was returning home. He was struck by a brick held in the hand of an unknown white man and felled to the ground.

A colored boy 12 years of age, and named James Waddell, was accidentally shot in the shoulder at Wilmington, inflicting a severe wound. Another act of carelessness.

Henry Gongranus has been arrested and lodged in jail at Wilmington on the charge of being implicated in the killing of Mr. E. J. Walker. It is said he instigated the difficulty.

The floor surface of Williams' new Hall in Fayetteville is 6,398 feet, larger than that of any hall in the State, it is claimed.—*Wil. Star*

The Danbury *News* steals upon us with the story of having the oldest constable in the State. He is 83 and bears the name of Andrew Steele.

DEATH.—Mr. William Harris died near Littleton last week at a very advanced age. He had been confined for several years during which he bore himself manfully and the usually dread summons found him ready to obey the Master's call. He was long a devout member of the Baptist church.—*Weldon News.*

DEATH OF AN ESTIMABLE LADY.—We learn with regret of the death of the wife of C. L. Turner, Esq., one of the members of the lower House of the State Legislature, from Iredell county. Mrs. Turner died of typhoid fever on Thursday night at the residence of her husband at Turnersburg, eleven miles from Statesville, viz. She was a most excellent christian lady, and was much beloved by the entire community.—*Charlotte Observer.*

We learn that a severe hail storm passed over a portion of the country between Leaksville and Stoneville on last Friday, seriously damaging a portion of the tobacco crops, and almost entirely ruining others. We have heard of two planters who think that at least two thirds of their crop was destroyed.—*Madison Enterprise.*

CROP RAVAGERS.—The cotton crops of T. W. and J. J. Battle, Esqrs., have been denuded of leaves by the caterpillar. The former gentleman thinks the injury serious. The little pest does his work systematically. He commences on the exterior edge of the leaf and cuts it around with great regularity.—*Rocky Mount Mail.*

HABEAS CORPUS.—A writ of *habeas corpus* will be applied for in the case of David S. Massey, the young man charged with forgery, by Hon. R. S. French, his counsel, the object being to secure a reduction in the amount of the bonds under which Massey is now confined. These bonds are two in number and for $500 in each case.—*Wil. Journal.*

The Tarboro' *Southerner* says: The steamer "Isis" which recently ran upon the river from Washington to Tarboro' was sold last week to joint stock company composed of citizens from Petersburg and the Scotland Neck section. It is intended to put her on the Roanoke river to ply between Hill's Ferry and Weldon. The price paid was $10,000.

HOME AFFAIRS.

Personal.

Maj. J. A. Englehard, of the Wilmington *Journal* is in the city, stopping at the Yarborough House.

Masonic.

A regular convocation of Raleigh Chapter, No. 10, Royal Arch Masons, will be held this evening at Masonic Hall, commencing at 7 1-2 o'clock. Every member is earnestly requested to attend.

Col. T. M. Holt.

We learn that Col. T. M. Holt, President of the North Carolina Agricultural Society, is seriously ill at his residence near Graham. He has had a severe attack of fever and ague.

Held for Postage.

The following letters are held in the postoffice for want of proper postage: Mrs. Rebecca Barker, Jonesville, N. C., J. Marshal Wooting, Norfolk, Va., Miss Tennie Hester, Raleigh.

Hop and Cotillon.

The editorial staff return thanks for an invitation to attend a Hop and Cotillon Party to be given at Kittrell Springs on the 18th and 19th inst.

Fine Apples.

We saw some excellent apples at W. H. Jones & Co's., store on yesterday. They are known as *magnum bonum*, and our farmers who desire a prime variety would do well to procure some of the young trees from the nurserymen.

Another Supply.

Messrs. Lipscomb and Doub, of Durham, have sent us a lot of their choice Durham Smoking Tobacco of the "Double Anchor" brand. It is a superior article and smokers and dealers would be wise to order from them.

The Richmond Dispatch.

We are about to venture a very unselfish opinion. The most admirable newspaper of its size that has ever come under our eye, is the above. It is no doubt the best paper in Virginia.

Back to his Old "Posish."

We announce with pleasure that Mr. W. C. Stronach has again secured the services of that popular and most estimable salesman Mr. T. V. Richardson. Mr. Stronach has shown his good judgment by securing Mr. R's valuable services.

S. D. Harrison.

This old champion is again in the field with flying colors. Read what he has to say in another column under the head of "Look to your own Interest." He offers goods as cheap as they can be sold elsewhere. We passed through his store yesterday and thought we saw everything a reasonable man ought to want.

An Anvalanche of Tobacco.

Within the last three days our office has been visited by a perfect avalanche of fine tobacco, and it gets worse and worse. Yesterday there were three slides: one of cigars, from Bradley, one of smoking tobacco, from Durham, and the other of chewing tobacco from C. F. Reams, of this city. For once we must cry, "Hold, enough!"

The First to Settle.

On yesterday morning, Sheriff James T. Hunter, of Alamance county, paid into the State Treasury $7,182.06, the State tax for Alamance county for the year 1873. This is the earliest settlement that has been made by any county since the war, and speaks well for Sheriff Hunter. Who will be the next to settle? Alamance heading the list of counties, Alleghany is next in alphabetical order.

Another Circus Coming.

We are informed by Mr. Chas. Howard, of the firm of Howard & Bryan, that the advance agent of Lent's Great New York Circus, hippodrome (and you know the rest) was in the city last week and made arrangements for an appearance in this city on the 10th of October next. In a day or two they will commence the erection of a bill-board on Martin Street for this Circus. Save your dimes; there is lots of fun ahead.

Astral Oil.

In this issue of the SENTINEL Messrs. Julius Lewis & Co., advertise this excellent oil for sale. They assure us they have made arrangements by which the public will be supplied with the oil in the future without fail, Pratt having recently enlarged his works. They inform us that this oil is now used by 500,000 families, and there has never been an accident directly or indirectly from its use. This oil is endorsed by hundreds of customers in this and adjoining counties. Give it a trial.

Something Worth Looking At.

We have just seen a superb set of silver service, and an elegant breech loading double-barreled gun presented to the N. C. Agricultural Society to be given away at the State Fair.

The silver was presented to the Society by the world renound Tiffany, Broadway, N. Y., a house well-know by every person who has visited that city. And the gun by the Whitney Arms Company, of Whitneyville, Connecticut. To say those goods were from the above named houses is a sufficient guarantee of their genuineness. Long live Tiffany and Whitney.

FINE CUT.

There is no such English word as cotillion.

If you want choice cigars go to Bradley's.

Capt. Swift Galloway, of Goldsboro', is at the Yarboro' House.

Laura D. Fair has taken up a residence in a suburb of San Francisco.

The project of reviving the *Leisure Hour* is meeting with much favor specially in cultivated circles.

Mr. Edwin Fuller's novel is now nearly ready for the binder. He has about completed reading the proof-sheets.

Of the eighty-eight girls who have entered Michigan University, thirty-seven will study in the medical department.

The jail of Alamance county is empty. The sheriff says the first man that comes shall have picking choice of rooms.

Lay in your winter wood. You can buy it now for a dollar less in the cord than you can two months hence.

A student who has been afflicted with a sermon one hour and a half long, grumblingly says that these professors study as much about eternity that they have no conception of time.

The ladies of Springfield, Vt., have formed an association pledged to wear a sensible style of dress. The style costs from $500 to $1,000, and the more the cost, according to all authorities, the more sensible the dress.

A tame musquito, at the freight depot in Bridgeport, is alleged by the Winsted *Herald* to be so big that a large Newfoundland dog ran under him the other day after a wharf rat, and never touched the mosquito at all.

A correspondent defends the game of "billiards as an amusement well calculated to divert the mind, while training the eye and hand, whose evil surroundings are not inherent, and whose abuses are being removed by the introduction of private tables."

A new toy has just been introduced, and will surely become very popular. It is a wax doll in a crib, the doll being dressed in night clothes and in a dainty lace cap. By some mechanism the doll baby, at certain intervals, after being wound up, lifts itself up in the crib, puts out its arms, and distinctly calls "mamma." The inventor thinks "no family should be without one."

It was lately made subject of boasting by a French gentleman to an American friend that the premium on gold in France did not reach a half of one per cent., when the American replied that two or three Broad street men whom he could name, could go to Paris and put gold up there to 110 in less that three weeks. "Possibly," said the other, "but we should put them in jail in less than two weeks."

Walking Out.

The Deaf, Dumb and Blind of the white institution, under the kind charge of Mrs. Gorman, Mrs. Campbell, Mrs. Ayer and Miss Farribault were out yesterday to take a view of the new asylum for the colored children.

Gone North.

Our friend L. Rosenthal left the city yesterday morning for Baltimore and the Northern cities to purchase his fall and winter stock of dry goods. He will be gone about two weeks but his stock is expected to arrive in ten days. We hope "Rosco" will not be smitten by the girl who "fancied the stage and played the clarionet with the German band," but will have a pleasant trip and a safe return to his many friends in the City of Oaks.

Consolation.

The following lines from that sterling publication, the *Saturday Review*, has afforded us more consolation and real, unalloyed pleasure, than anything that has ever come under our observation; and we especially commend them to the old gentleman who has been bedevilling us on this subject for the last three years. The *Review* says: "The simple fact of the matter is, that in at least nine cases out of ten your early riser is merely a fidgetty, restless animal, who is incapable of reposing after the fashion or at the season ordained by civilized mankind; and as to his inhaling the pure morning air, that is all moonshine; it is pure self conceit that he inflates himself with."

Pardoned.

Noah Fox, of Alexander county, convicted of larceny at the Spring Term, 1868, and sentenced by Judge Mitchell to ten years imprisonment, was pardoned on yesterday by the Governor. He is a young man and was drawn into the crime by his father, who was convicted at the same time, but has since died in the penitentiary. His pardon was recommended by Judge Mitchell, Solicitor Caldwell, the prison authorities and others.

The Governor also issued a pardon for Geo. C. McCall, convicted of larceny at January term, Wake Superior Court, 1870, and sentenced to two years imprisonment by Judge Watts. McCall is 60 years of age and is very feeble. His pardon was recommended by the Judge, Solicitor Cox, Penitentiary authorities and a large number of citizens.

A Joque.

In our notice of the return of our friend John Armstrong, from Ireland, which appeared in the SENTINEL a few days ago, we stated that Mr. A. had informed us he would return to Ireland and make it his home. Since that publication he has been besieged by a host of friends who pleaded, "Don't go, Johnny, don't go." He informed us yesterday that he had concluded to "don't," and we make this statement that his numerous friends may feel no further anxiety about the matter.

Look Up!

Laboring man, take heart—look up; there is still hope for you. Jesse Frye, Locomotive Engineer, No. 181, Gold st., Brooklyn, N. Y., (Up-Stirs,) after years of toil, has at length perfected his invention of the "Fourfold Speed, Endless, Counterbalancing Grade, Safety Underground Railway, Steam-tight, Metallic Tube, and Longitudinal Semi-Submerged Paddle-Wheel." Now it strikes us that after this wonderful achievement, there should be no despondency on the part of anybody. Perseverance will accomplish great ends—as well as little ones.

To Would-be Authors.

For the benefit of those who may have aspirations that way, we reproduce from an exchange, the following recipe for making a fashionable novel: Take one beautiful woman and place with her two men, whiskered and bearded, a husband of somewhat loose character, and a lover gifted with all the physical perfections and moral imperfections. Soak all these in a false philosophy until they become immoral and unhappy. Take a rather improper view of the married state, throw in a few violent deaths, a spoonful of sickly sentimentality, and garnish with ruined lives or broken hearts, according to taste. Then place the whole in an early grave and spread over it as much meretricious morality as it will bear.

Magnetism.

There is a young gentleman, Mr. B. F. Wood, connected with the office of the Singer Sewing Machine in the city of Charlotte, who possesses the power of mesmerism in a very large degree. The *Observer* says he has the most entire control over many persons on whom he has practiced his power, and can make them dance, hold out their arms for any length of time, make them shut their eyes and be unable to open them, &c. Indeed, his power of fascination is wonderful, and can be exerted over some persons to such an extent that they are entirely in his power and utterly without self-control. He can make them believe that there are nails in their flesh, glue in their eyes, and, indeed, anything he chooses. The *Observer* man closes by saying "this is no fabrication, as can be testified to by many in this place who have seen the professor practice his arts." Wonder if he isn't a "medium" also; a sort of advertising medium?

The Great Eastern Menagerie.

This comprehensive and elaborate establishment—pronounced one of the greatest combinations of caravan, museum, hippodrome, equestrian and circus in the world—with all its colossal and wondrous proportions, will visit Raleigh on Friday, October 3d. Of the elegance and perfect completeness of this grand organization, the press have been most lavish in their praise. The Buffalo (N. Y.) *Express* has the following:

THE GREAT EASTERN.—This mammoth show made its appearance in town yesterday morning according to popular expectation, and was welcomed by a delighted crowd which thronged Main street to see the "elephant" and the grand parade. The street pageant, comprising the bands, the score of riders—male and female—the tame tiger and leopards on the top of their cage, and the absurd novelty, the steam piano, was all that the imagination, juvenile and adult, had conjured up, and afforded amusement to the latter and unrestrained delight to the former.

In the afternoon the crowd betook itself en masse to the tents of the mammoth to witness a very creditable performance in the dual circus pavillion, and to take a most interesting and valuable lesson in zoology and ornithology which this large and varied collection of animals affords.

So far as we are able to judge of the general verdict, from having heard not one complaint, and many expressions of admiration, we conclude it to be entirely satisfactory.

This afternoon and evening the exhibition will be repeated, and all who would avail themselves of an hour of pleasure and profit should go early.

The Judge is looking extremely well and is becoming very popular with the lawyers.—*Madison Enterprise.*

The Judge referred to is Tourgee. He was anything else but handsome when we last saw him with his stump-tailed coat. It is a bad sign for the lawyers if he "is becoming very popular with them."

VICTIMS OF OBSCURE DISEASE, seeking safely and restored health, should use Dr. Helmbold's Extract Buchu. This article is officinal and standard. It is, moreover, the only preparation that develops the full value of Buchu as a diuretic. It is a perfect specific for all diseases of the urinary organs in male or female. Beware of counterfeits and imitations, which unscrupulous men are endeavoring to palm off upon Dr. Helmbold's reputation. Look for the Doctor's signature on the wrapper.

Public School Meeting.

A large and most respectable meeting of white citizens convened in Metropolitan Hall, last evening, when the Committee on graded public schools reported through their Chairman, *Hon.* K. P. Battle, that $4,000 was on hand from taxes for this purpose, that $1,000 more might be expected from the Peabody fund and that $2,000 be raised by voluntary subscription. A resolution to continue the committee of five was adopted; also one to ask the voluntary subscription; and another to memonalize the Legislature to continue the schools by adequate taxation. The best feeling prevailed, and the meeting was a decided success. Full proceedings in next issue.

The Schillinger Artificial Stone.

The following, which we take from the Daily (N. Y.) *Express* speaks for itself:

J. J. Schillinger, of 247 Broadway, made a display of his artificial stone, in a thoroughly business-like and practical manner. This very valuable and durable composition of Portland cement and sand, which year by year is gaining ground among builders and proving itself equal to some natural stone, and superior to most, is largely manufactured by Mr. Schillinger, at his works, 93d street, between Second and Third avenues. In March last the walks in front of the exhibition building at Vienna were laid, to the extent of four hundred square feet, with this artificial stone pavement, thereby giving thousands of pedestrians the opportunity of making an impression on it, if it were possible. In the building itself was exhibited a stone block about two feet long, which has been in the yard at the works through two winters, and in fact belonged to some stone manufactured for six house fronts. This artificial stone is not affected either by heat or cold. The frosts of winter have no effect upon it, for the block forwarded to the Exhibition was exposed to the ordeal of last winter, and we all know how dreadfully severe and keen the frost was. For sidewalks it is admirable, and especially in frosty weather granite gets smooth and slippery, and is dangerous unless frequently cut in small drills; but the sand in the composition of the artificial stone make a gritty surface which gives a feeling of confidence to pedestrians. There is some of it laid at the entrance to our City Hall, and it wears well in comparison with the blue stone. As regards heat we must refer our readers to Chicago. At the great conflagration in that city, when ordinary stone and iron succumbed to the conquering element, the artificial stone could still be found intact. In Mr. Schillinger's office we saw a piece of what we may call flagstone, which had been laid down at his City Hall Park, around the fountain, and was taken up on account of a cutting made for the sewer. The surface was smooth and even as when first laid down, and when the fragment was struck it gave out the clear, true ring of good metal. Mr. Schillinger has been awarded the Diploma of Honor by the Commissioners at Vienna as a recognition of the merits of his artificial stone.

"OUT, DAMNED SPOT!"—The energetic exclamation of Macbeth is mentally ejaculated by every housewife when confronted by the manifold variety of stains and spots that disfigure articles of household ornament and use. But the "spots" are not so easy to remove by ordinary means. A little Sapolio brought into timely use causes them all to disappear as if by magic, and brings peace and satisfaction to the housewife mind. As cheap as common soap and a hundred times more effective.

PATRONS OF HUSBANDRY.—John S. Long, Esq., Lecturer and Deputy of State Grange will address the people and form Granges at the following times and places:

Sept. 17, Wednesday, Farmville and Marlboro.
" 18th, Thursday, Sparta.
" 19th, Friday, Falkland.
" 20th, Saturday, Greenville.
" 22d, Monday, Washington.
" 23d, Tuesday, Tranter's Creek at Old Ford.
" 24th, Wednesday, Bath.

" 2d, Thursday, Blount's Creek, Ruff's Mills.
" 3rd, Friday, Durham's Creek.
" 4th, Sat'd'y, South Creek at Aurora.

All neighborhoods not in this list, wishing to form Granges, can have them organized by having the requisite number of persons (13) at the nearest appointment to them.

FATAL ACCIDENT.—We are sorry to learn of the accidental killing of Mr. Louis Shearin, of this county, by a gun in his own hands, which occurred on last Tuesday morning. Report says young Shearin was loading a gun, preparatory to going a hunting, and as he was standing on the stoop, took the gun and attempted to blow down one of the barrels to ascertain which one was loaded, the gun slipped, the hammer striking the door sill and fired off, the contents entered under his chin, tearing away the whole bottom of his face, he dying almost instantly.

Mr. Shearin was a young man about 21 years of age and was generally beliked by those who knew him. This sad accident is a terrible calamity to his family.

Another instance of a too careless use of fire-arms—by other's feats wise men correct their own.—*Weldon News.*

The Flat Swamp and Lock's Creek Canal is again agitated at Fayetteville. It is estimated, says the *Gazette*, that there are about 20,000 acres of very fertile land, which, if drained, cleared and put in a fit state for cultivation would be capable of producing 120,000 bushels of corn—enough almost to supply that whole section.

Winston *Sentinel*: On last Sunday morning W. A. Bousjack, was found lying on the road, near Palmyra Church, Stokes county, badly bruised and in an insensible condition.

ADOPT THE PREVENTIVE POLICY.—Severe spells of biliousness, indigestion, chills and fever, diarrhœa, nervous headache and physical exhaustion are quite usual at this season. These are visitations which everybody is anxious to avoid, and as a course of Hostetter's Stomach Bitters will unquestionably fortify the system against them, the most valuable medical advice which can be offered at this time to persons subject to such complaints or at all sensitive to atmospheric changes, is to commence taking this powerful vegetable alterative and invigorant without delay. Forty-eight hours will not have elapsed after the first dose before a marked change will have manifested itself in the condition of the system. The ultimate result will be a habit of body so regular, a genial condition so vigorous, that however unhealthy the season may chance to be, the system thus refreshed and reinforced will be in the best possible trim to encounter it.

IN CIRCUIT COURT BALTIMORE CITY. In re—PENNIMAN vs LONEY. Thomas vs Loney.

It is ordered by the court, this the 19th day of July, 1873, in conformity with the opinion and decree of the Court of Appeals in this case, that the Decree of this court, passed on the sixth day of July, 1867, be modified so that the said Nicholas G. Penniman be, and he is hereby ordered and adjudged to return all books and property taken possession of by him under these proceedings, which are not the property and assets of the late firm of F. B. Loney & Co., formed on the first day of January, 1871.

(Signed) HENRY F. GAREY,
Assigned in part to the Circuit Court.

It will be seen from the order of the Circuit Court of Baltimore City, dated 19th day of July, 1873, that the assignment made by Wm. H. Cole, Receiver, to Nicholas G. Penniman on the 23d day of February, 1872, did not include any debts due to the firm of F. B. Loney & Co., prior to January 1st, 1871, and that all claims held by F. B. Loney & Co., prior to January 1st, 1871, have been adjudged by the highest court in the State of Maryland to be the individual property, and assets of Francis B. Loney. You will therefore please take notice that all persons indebted to the firm of F. B. Loney & Co., prior to January 1st, 1871, must make payment to the undersign who is alone authorized to receive and collect the debts due said firm, and you will please remit accordingly.

AGENTS FOR THE

AMERICAN

NEEDLE GIN.

Four years of through and these Gins are still without a

Peer.

We sell the American Needle Gin and Condenser, and the American Needle Flute Gin, the best and cheapest Gin in the market.

1st. In producing a greater quantity of lint by cleaning the seeds better than any other Gin in the market.

2d. In producing a better quality of lint.

3d. In performing more work in a given time than any other Gin of equal number of saws and equal power. In operating the Needle Cotton Gin there is no danger from friction; hence it will be readily seen that this Gin is

FIRE PROOF.

There is no Gin before the public so easy to repair. The vital parts are so made that duplicates can be furnished when required. This enables the customer to keep his machine in constant repair. Another important feature is the simplicity of this Gin. Its superiority in this respect is widely acknowledged. This Gin is all reversible; more to things to right or left as may be desired.

This condenser advances itself to the consideration at all. It is simple in construction and effective in operation. It does not increase the size of the Gin, still the Gin can be used without it if desired.
