The True Spirit.

We have just received the following letter from an old subscriber. It rings out the right music:

PITCH LANDING, N. C., Sept. 18, 1873.

Dear Sir: Enclosed you will please find three dollars to renew my subscription to the Weekly SENTINEL. Though frequently indeed unable to read your paper on account of my age and infirm health, yet in view of the invaluable services it has rendered the State, I feel that I would like to be a subscriber for life. With my wishes for its success and the hope that I may live long enough to help to reward you for the great good done the Conservative party and the State,

I am yours truly,

M. M.

KILLED HER.—A friend in the neighborhood of Summit, Northampton county, informs us of the killing of a negro woman, in that section, last week, named Nancy Moody, caused by taking medicine from the hands of a darky practitioner, Drew Smith, the medicine containing poison. Nancy intrusting her life to the skill of Doctor (!) Smith—not the celebrated Nathan R., of Baltimore—did not suffer long with sickness and pain, but was soon relieved—the doctor turned her over to the mercies of angels of the other world. It is thought that Doctor Smith will soon have to arise and explain himself, as the matter will be investigated. We warn both white and black, beware of "root" doctors—they will rest your life out in less time than it takes to tell the story.

Any man who undertakes to physic patients without a diploma from some medical school should be indicted. We have a colored "Doctor Smith" in Raleigh if we are not mistaken.

Tribute of Respect.

At a recent meeting of the Philomathesian Society of Wake Forest College the following resolutions were adopted relative to the death of Allen R. Jones, a member of that Literary body:

PHILOMATHESIAN HALL,
WAKE FOREST COLLEGE,
Sept. 20th, 1873.

WHEREAS, It has pleased our Heavenly Father to remove from our ranks at a premature age our highly esteemed brother, Allen R. Jones, a student of this institution and an active and efficient member of the Philomathesian Society, which is now assembled to pay the last tribute of respect to its departed member; therefore be it

Resolved, 1st. That in the death of Mr. Jones we as a literary body have lost one of our ablest and most energetic members, a member eminent for uniform courtesy, lightened traits of character, and purity of motive, one whose intellectual and religious attainments had greatly endeared him to us all.

2nd. That we deeply sympathize with his bereaved family and friends in the loss which they sustained in the early death of so noble, kind and beloved one of their number.

3rd. That as a tribute of respect we wear the usual badge of mourning thirty days.

4th. That copies of these resolutions be forwarded to the *Biblical Recorder*, Raleigh *Sentinel*, and Wilmington *Journal*, with request to publish, and an original copy be tendered to the sorrow-stricken family of the deceased.

H. K. SCOTT,
J. WILSON LUCAS, } Com.
BRUCE WILLIAMS,

HOME AFFAIRS.

Personal.

J. A. McCauley and family, and Judge Sam'l. Watts are stopping at the National Hotel.

Fall.

The last few days have reminded us very sensibly that the harvest is past, the summer is ended, frost is at hand, and we've no wood.

The Semi-weekly Eagle.

This paper with the last issue began its second volume. We are glad to learn that it is self-sustaining, and that the *Weekly Eagle* has a large circulation. It has rendered efficient service and the editor well merits success.

High Prices.

Capt. Thos. B. Lyon, of Granville, has recently sold in Richmond 13 teirces of tobacco. He averaged $68 per hundred pounds. He got $500, for five hundred pounds. And yet there are folks green enough to say that Granville cannot beat the world.

Pardoned.

On yesterday the Governor pardoned out of the Penitentiary Henry Herring, convicted at Johnston Superior Court, Fall term, 1870, of manslaughter (his victum being Dixon Davis), and sentenced by Judge Watts to five years imprisonment. He was pardoned on the recommendation of the Judge and a large number of the leading citizens of Johnston and Alamance counties.

More New Side Walk.

Capt. Brain, we are glad to see, is putting down his stone pavement in front of Williams & Haywood's Drug Store. We hope to see this pavement adopted by all the property owners on Fayetteville street. The side-walk in front of the Raleigh National Bank is admired by every one who has seen it and is quite a curiosity to strangers visiting the city.

Johnston Court.

Johnston Superior Court will open today at Smithfield, Judge S. W. Watts presiding. It is understood that the "Lucy Powell Abduction Case," will be tried some day during the term, and as we desire to lay the *facts* in this important case before our readers, Mr John Spelman, the most correct reporter in the State, will represent the SENTINEL and give a full report of the proceedings. Mr. Spelman will also receive subscriptions and advertisements for the SENTINEL and receipt for the same.

Evils of not Giving Credit.

The SENTINEL recorded a certain transaction. A Newbern paper copies without credit. A Wilmington paper copies from the Newbern paper locating the transaction in Newbern. In this way of doing two wrongs are perpetrated, 1. A paper is cheated out of what belongs to it. 2. A lie is palmed off on the public—not intentional of course, but still a lie. Fair dealing is always best, even though it be "unmanly whining," as some contemporary averred it was, to demand such treatment.

Don't Sell.

The opinion is expressed by some of the best financiers in the city that the present depressed state of the cotton market, caused by the financial crash in New York, will be of short duration. It is thought that if the government takes action today, and purchases two millions, as foreshadowed by the noon dispatches, the money market will be easier than it was before the crisis, and instead of a decline in cotton it will be more likely to advance to a higher figure than it was last week. We would caution the farmers against selling their cotton at the present decline.

New Goods.

We dropped in yesterday at Mr. J. D. Newsom's new store and fastened our eyes upon the many beautiful specimens of ladies' dress goods, shawls, collars, ruffs, &c., &c., spread out before us. Mr. N. is open and selling, though he has not yet received half his stock. He thinks it will be eight or ten days before his entire stock will be in. We were particularly struck with the fitness of some unnecessable infantile toggery which must be seen to be appreciated. If you are the proprietor of a baby go at once and get one of 'em, and if you don't know what to ask for, tell Mr. Newsom to show you the thing he showed the SENTINEL.

A Strange Visitor.

The mail brought the Associate yesterday morning a copy of a Turkish newspaper from his friend Capt. Randolph A. Shotwell. As our early education was sadly neglected in that direction we are unable to extract much news from its columns. It is true we have read the life of Mahomet and portions of the Koran but they were in—English. Some one has written above the different departments a translation of subjects. Here are some of them: "Come with boldness to the throne of Grace." "What is the Cause?" "How spiritual vigilance is secured." "Christian Churches in Italy." "Ten rules for the health of the body." "Divers Items." "Jesuits in Italy." "The Observance of the Sabbath." "A letter from America." It is evidently a religious paper published we presume by the missionaries at Constantinople. Many thanks, Captain, and great success attend you.

FINE CUT.

The City Cornet Band will play at the National this evening from 8 to 9 o'clock.

The Merritt infanticide case was heard by Judge Watts yesterday. See the proceedings in another column.

No matter how amiable a lady may be fashion now demands that she shall appear ruffled in public.

Herbert Spencer's "Study of Sociolgy" will be completed in the October number of the Contemporary Review.

The Powell "abduction" case has been removed to Johnston county, and will be heard this week before Judge Watts at Smithfield.

It is stated that the second volume of Lamon's Lincoln will never get into print, so discouraging was the recepion of the first.

Maggie Mitchell (Mrs. Paddock) lately celebrated her wooden wedding at Long Branch. Among her presents were a cord of wood and a saw-horse.

The sea-lion in Cole's menagerie broke from his cage during a performance at St Paul, Minnesota, and rushed through the tent, causing great consternation.

Eugenie's mourning is said to be simple, yet very elegant. She wears a long black veil depending from the bonnet down her back, and a smaller one of black tulle over her face.

New Bridge.

The new bridge, which for some time past has been in course of construction over Crabtree creek, east of this city, at what is known as "Manly's Crossing," was completed last week. The bridge was built by Dr. Hilliard Wilder, of this county, and is pronounced by those who have seen it, to be the finest piece of workmanship of the kind to be found in the country.

Mayor's Court.

Notwithstanding the stagnation caused by Jay Cooke's failure to pay, business at the Mayor's Court is decidedly "looking up."

The Mayor examined into the following cases on yesterday morning, with the following results:

John Hoy and Robert Bunner were up for boisterous singing and a too free use of the essence of corn. John donated a $2 william and Robert felt constrained to chuck in a $1.

Lizzie Lindsay, a colored nymph *du pave* was up for taking a pint bottle and making her X mark on the classic forehead of Willis Martin. His Honor suggested to Lizzie that a V was wanted for gas purposes. She "planked down" and left.

Four parties for being drunk and disorderly (whose names we withhold, by request) contributed $2 each, with the distinct understanding, however, that the money was to go to the gas fund.

The Interests of Oxford.

The "School Boy" of the *News*, in his "courteous and dignified communication," charges the Associate Editor of the SENTINEL with doubting his statements "without any just grounds for so doing," and that if any of the boys ever had "an intention of not following the school (Horner's) to Hillsboro'," "*it was never uttered.*" This is a flat contradiction of our statement. In reply, we say that such an intention was uttered, the "courteous" school boy of the *News* to the contrary. He is a wise "boy" surely, to know what sixty or seventy boys are in the habit of saying daily. But we dismiss the subject.

We hope the people of Oxford will at once call a public meeting and appoint a committee to correspond with Professor Brown, and another committee to secure an academy. Prompt action should be taken. By first of November the circulars should be sent out containing all the necessary information. The spring session should begin by the 10th January. There are probably some three thousand white boys in Granville, and a hundred thousand in the State, and we doubt not that a fair share of these can be induced to attend a strictly first-class high school at Oxford. Prof. Brown, and a superior Professor of Mathematics and Natural Sciences, would be able "to draw" some of the thirty-five thousand boys "from the Eastern part of the State." At any rate, the experiment is worth the trial. Oxford has for fifty years enjoyed a reputation second to none for its superior schools. As far back as 1830, Johnson, the great teacher of the South, had charge of the male Academy in Oxford, and Dr. Hollister of the female. Since then Messrs. Hughes, Venable, Wait, Mills, Riddick, Hart, Wiley, Horner and other famous educators have had charge of the schools. It will not do for Oxford to be without a superior Classical and Mathematical school. So we urge our friends there to go to work now and make all of the necessary arrangements. The writer was reared in Oxford, has spent most of his days in that pleasant town, his family reside there, and he is, therefore, greatly interested in its progress. This is his excuse for referring again to a local matter.

Asiatic Cholera.

The paper on "Asiatic Cholera." No. 3, by C. H. W., has been received and will appear to-morrow. These articles are well written, very instructive, and worthy of careful perusal.

The Merritt Infanticide Case.

Betsey Merritt and her mother Catherine Merritt were brought before Judge Watts, at Chambers, in this city, yesterday afternoon, on a writ of *habeas corpus*. The Courthouse was well filled with anxious spectators, the case having heretofore caused considerable excitement.

The case briefly was, on the 14th day of last August the body of a new-born negro child in a partial State of decomposition was found in the rear of the premises of Dr. Chas. E. Johnson, on a lot partly occupied by a colored man named Robert Wyche. An inquest extending over three days, conducted by Coroner Magnin, led to the arrest and commitment of Betsy Merritt and her mother Catherine—the former charged with killing her infant child, the latter with being accessory. The prisoners were on yesterday brought before Judge Watts on a writ of *habeas corpus*.

Col. E.J. Graham Haywood, Hon. S. H. Rogers and Capt. S. A. Ashe appeared for the prisoners, the case for the State was conducted by Judge Watts.

In opening the proceedings the Judge said he proposed to consider the case as a committing magistrate in order that the whole facts might be investigated, for if considered under the writ the only question would be the question of bail and the amount.

Col. Rogers submitted the report of Coroner Magnin which was read.

Sophy Jeffreys, col., was then called. She testified that she was cook for the family of Dr. Johnson, but lodged at the house of Wyche, where the prisoners at the time of the occurrence also lodged. On the 14th of August, some time during the day, she was crossing a fence between the lots of Dr. Johnson and Wyche, when she discovered a young child partly covered up with sawdust. She gave the alarm to the people at Wyche's, and said the matter should be investigated, and that the women about there should be "examined" with a view to discover the mother. The body of the child was found to be partially decomposed and its head had the appearance of having been broken in. When she gave the alarm, the prisoner Betsy began to cry and run to her mother and said she did not want to be "examined." The mother soothingly said "Don't cry, darling; Sophy is not alluding to you." Witness testified that she thought Betsey pregnant, and heard nothing of her sickness till told of it on Saturday.

Barbara Uthy, col., lived at Wychis as cook, never saw any sign of Betsey being pregnant. On Saturday Betsey was taken sick from eating corn. Never heard of her being in a "delicate situation." Witness was not married, but had had one child and thought she could discover if a woman was pregnant. She corroborated much of the testimony of the last witness.

Tamer McCullers, col., testified substantially as the last witness. Was in the room every day of the girls sickness (four or five) and never saw any signs of her being pregnant or of having been delivered of a child. Saw her after she got up and noticed no difference in her appearance.

At this point Judge Watts, looking over the testimony taken before the coroner, said it had been sworn as the belief of some other witnesses, that the girl was in the family way, and this coupled with the exclamation of the girl when it was proposed to examined the woman and the reply of the mother, in addition to the fact that no other woman in that neighborhood was know to have been in that condition, made a case requiring further investigation. He would, therefore, admit the prisoners to bail with this view, fixing the bail at a moderate sum. He drew attention to the extraordinary feature of the coroner's examination wherein he required the doctor to examine the person of the alleged mother to see if she had been recently delivered of a child. The Judge thought this unconstitutional (the counsel for the prisoners concurring with the Judge)—on the ground that no person can be compelled to give evidence tending to criminate him or her self. If before a jury, he said, he would rule out such testimony.

Council for the prisoners admitted that there was no evidence to show that child found was that of the prisoner, Betsey, and if that were not even so, there was no proof whatever that it came to its death at the hands of the mother, or even that it was born alive.

The Judge said there was *prima facie* evidence that the child was Betsey's but he concurred with counsel as to the rest. At most he thought the charge could be but one of concealing the birth of the child. The Judge then fixed the bail at $300 each.

Piedmont and Arlington.

This is a leading Life Insurance Company of the South. It was organized in 1861, and has had a very remarkable career. It makes a capital exhibit. It has been indorsed highly by several of the leading insurance papers of the North. It compares most favorably with any Northern Company of the same age, which shows admirable management. Mr. James D. Brooks, a clever Christian gentleman, and a successful canvasser, is the North Carolina representative of this excellent Company.

Fine Church Music.

The singing at the Baptist Church on Sunday morning was beautiful and inspiring and reminded us of the days of our childhood, when the congrations did the singing, and not a "select few." Dr. Pritchard, the zealous and faithful pastor, is endeavoring, for the third time, to introduce congregational singing. On Sunday he made the trial by adding the Sabbath-school choir to the excelent Church choir and using the Sabbath-school hymn book. The hymns being familiar and the music simple the congregation generally were enabled to join in the singing, and we feel totally inadequate to the task of describing it. Wave upon wave of rich melody rolled through the majestic edifice and out upon the morning air; and to pronounce it grand would convey but a slight idea of what we wish to say. To the fine vocal music, the large organ under the magic touch of the accomplished Myerhoff, lent its mellow tones, and while listening, we dared, for the moment, indulge the thought, that this music was not unlike that of the cherubim and seraphim to whose voices, we fain would believe, is added the symphony of instruments touched by the Sainted ones.

MAKE MONEY fast and honorably, $12.50 per day, or $75 per week, by at once applying for a territorial right, (which are given free to agents,) to sell the best, strongest, most useful, and rapid selling Sewing Machine, and Patent Button Hole Worker, ever used or recommended by families, or buy one for your own use; it is only $5. Sent free everywhere by express. Address for particulars JEREMIE B. HUDSON & Co., Greenwich & Cortlandt Sts., N. Y. w6m

THE SECRET.—Those who prize a beautiful head of hair, (and we know our lady friends all do), will thank us for a few words on the invaluable qualities of AYER'S HAIR VIGOR as a dressing. In our own case it heals a humor, keeps the head free from dandruff and scurf, stops the tendency of our hair to fall, and heightens its beauty. A slight touching with it removes the coarse and dry appearance which neglected hair puts on, imparts a rich gloss, and makes us presentable in the most fashionable company. Such rare qualifications, presented in a single preparation, create for it an enduring value; but add to these the faculty of restoring to gray locks their youthful color, and maintaining our good looks with so small an expenditure of time and attention, and you stamp it prime favorite with the public, and ensure its permanent and enduring popularity.—[Huntsville (Ala.) Republican.]

NEW ADVERTISEMENTS.

REASONS FOR DRINKING.
A gentleman in a restaurant called "Waiter bring me a glass of brandy; I am very hot!" Another, "Waiter; a glass of brandy; I am dreadly cold." Mr. Twaddles who was present, cried out "Waiter; fetch me a glass of brandy, because *I like it!*" Twaddy only echoed the sentiment of mankind in general—we eat this and drink that, and do on, simply because "we like it," and in the way of "likes," what a stupendous "liking" the American public entertain for the Burdy Stove Cooking stove, especially since it has been so vastly improved! From all sections of the country, we hear the warmest encomiums upon the excellencies of this modern monarch in perfection, and its title fair to sustain its exalted reputation. By corresponding with the manufacturers, Messrs. Stuart, Peterson & Co., Philadelphia, the firm will promptly respond to all inquiries relative to the operations of their famous cook.

PRATT'S ASTRAL OIL.
Absolutely safe. Perfectly odorless. Always uniform. Illuminating qualities superior to gas. Burns in any lamp without danger of exploding or taking fire. Manufactured expressly to displace the use of volatile and dangerous oils. Its safety under every possible test, and its perfect burning qualities, are proved by its continued use in over 300,000 families.
Millions of gallons have been sold and no accident—directly or indirectly—has ever occured from burning, storing or handling it
The immense yearly loss to life and property, resulting from the use of cheap and dangerous oils in the United States, is appalling.
The Insurance Companies and Fire Commissioners throughout the country recommend the ASTRAL as the best safeguard when lamps are used. Send for circular.
For sale at retail by the trade generally, and at wholesale by the proprietors, CHAS. PRATT & CO., 108, Fulton Street, New York.

BALTIMORE LOCK HOSPITAL.
OFFICE—7 SOUTH FREDERICK STREET.
DR. JOHNSON,
Physician of this celebrated Institution, discovered, when in the Great Hospitals of Europe, viz: England, France and elsewhere, the most certain, speedy, pleasant and effectual remedy in the world for all excesses or abuses of the system.
Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight or Giddiness, Disease of the Head, Throat, Nose or Skin, Affections of the Liver, Lungs, Stomach or Bowels—those terrible Disorders arising from Solitary Habits of Youth—secret and solitary practices more fatal to their victims than the song of the Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering maly riage, &c., impossible, destroying both body and mind.

YOUNG MEN
Those are some of the sad melancholy effects produced by the early habits of youth, viz: Weakness of the Back and Limbs, Pains in the Head, Dimness of Sight, Loss of Muscular Power, Palpitation, of the Heart, Dyspepsia, Nervous Irritability, Derangement of the Digestive Functions, General Debility, Symptoms of Consumption, &c.
MENTALLY.—The fearful effects on the mind are much to be dreaded. Loss of Memory, Confusion of Ideas, Depression of Spirits, Evil Forebodings, Aversion to Society, Self-Distrust, Love of Solitude, Timidity, &c., are some of the evils produced.
Thousands of persons of all ages can now judge what is the cause of their declining health, losing their vigor, becoming weak, pale, nervous and emaciated, having a singular appearance about the eyes, cough and symptoms of Consumption.

MARRIAGE.
Married persons, or Young men contemplating marriage, aware of Physical Weakness, Loss of Procreative Power (Impotency), Nervous Excitability, Palpitation, Organic Weakness, Nervous Debility, or any other Disqualification, speedily relieved.
A CURE SPEEDILY WARRANTED.
Persons ruined in health by unlearned pretenders who keep them trifling month after month, taking poisonous and injurious compounds, should apply immediately.
DR. JOHNSTON,
Member of the Royal College of Surgeons, London, Graduate of one of the most eminent Colleges in the United States, and the best part of whose life has been spent in the hospitals of London, Paris, Philadelphia and elsewhere, has effected some of the most astonishing cures that were ever known; many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashfulness, with frequent blushing, attended sometimes with derangement of mind, were cured immediately

CERTAIN DISEASE.
When the misguided and imprudent votary of pleasure finds that he has insulted the laws of this painful disease, it too often happens that an ill timed sense of shame or dread of discovery deters him from applying to those who, from education and responsibility, can alone befriend him. He falls into the hands of ignorant and designing pretenders, who, incapable of curing, fill his pockets with mercury, and when nature, assisted by medicine, has performed a cure, consigns the victim to the grave with the effects of the poison they have administered.
