NORTH CAROLINA.

The wife of Wheeler Hancock, of Rockingham county was bitten by a highland moccasin snake last week. A liberal use of whiskey prevented any bad effects.—*Western Sentinel.*

REVIVALS.—A great revival has been in progress in the Methodist Episcopal Church at Kernersville, in this county. There have been upwards of thirty converts.

A very interesting meeting of the Baptist Church is in progress at Abbott's Creek, Davidson county.—*Salem Press.*

We learn that the Mineral Springs, near Mount Airy, are to be fitted up and made ready for next season. The late Henry W. Miller, well known as one of North Carolina's ablest men and talented lawyers, pronounced the scenery near Mt. Airy as the most beautiful he had ever beheld.—*Salem Press.*

SAD ACCIDENT.—We have been informed of the sad accident which befel Mrs Cox, wife of Eli Cox, who resides in Caves county, near the Lenoir line. It appears that some one called at Mr. Cox's gate, and Mrs. Cox in chasing the dogs away so as to allow the parties to enter the house, tripped over something and fell, dislocating her neck, from which she immediately died.—*Kinston Gazette.*

The Newbern *Times* says: The Monday night mail train of the A. & N. C. R. R., while on the trip from this city to Morehead City, ran over and instantly killed Mrs. Phillips, wife of Mr. Wm. Phillips, of Morehead City. The accident occurred between Carolina City and Morehead City, and the following are the facts as ascertained from parties from Morehead City by yesterday morning's train.

Mrs. Phillips had been sick for some few weeks. On Sunday night, or early Monday morning, was heard by her husband to leave her room, as he supposed, temporarily. Some time having elapsed, and not hearing her return, search was instituted, but without success. The search was continued unsuccessfully throughout Monday, and it was concluded that the unfortunate lady had been drowned. At nine or ten o'clock, Monday night, after the train had arrived at Morehead City, the unfortunate woman was found lying across the track, her body completely mutilated. The accident was entirely unknown to the engineer and all on board the train at the time of its occurrence.

THE SECRET.—Those who prize a beautiful head of hair, (and we know our lady friends all do), will thank us for a few words on the invaluable qualities of AYER'S HAIR VIGOR as a dressing. In our own case it heals a humor, keeps the head free from dandruff and scurf, stops the tendency of our hair to fall, and heightens its beauty. A slight touching with it removes the coarse and dry appearance which neglected hair puts on, imparts a rich glow, and makes us presentable in the most fashionable company. Such rare qualifications, presented in a single preparation, create for it an enduring value; but add to these the faculty of restoring to gray locks their youthful color, and maintaining our good looks with so small an expenditure of time and attention, and you stamp it prime favorite with the public, and ensure its permanent and enduring popularity.—[Huntsville (Ala.) Republican.]

HOME AFFAIRS.

Presbyterian Church.

Rev. Daniel McGilvary, for fifteen years missionary to Siam, will occupy the pulpit of the Presbyterian church on Sunday morning and evening. A more specific announcement will be made in our next.

Cotton Yesterday.

Cotton continues dull and low. On yesterday 42 bales were sold at 15 cents. The market opened and closed at these figures, a decline of a half cent on Thursday's quotations. No sales were made except by parties who were compelled to do so.

Judge Boyden.

The Charlotte *Observer* learns from a source which is altogether reliable, that Judge Boyden is lying in an exceedingly critical condition at Saltville, Va. His family and friends have given over all hope of his recovery and his death is looked for almost momentarily.

Gas for Fair Week.

At a meeting of the city commissioners, last night, it was ordered that the street lamps be lighted from the 13th of October next, until the adjournment of the session of the Legislature of 1873 '74, provided the gas company will establish three street lamp meters and charge the city in the same manner as private individuals.

"Our Living and Our Dead."

The 13th number of this highly important publication contains the "Official Report of Gen. G. T. Beauregard of the first battle of Manassas." It also contains other interesting matter. Remember this is a North Carolina enterprise. Col. Pool deserves credit for his efforts to preserve the documentary evidence that places North Carolina first among the foremost in the great war of the States. Let every one subscribe. Price $2. Address Col. S. D. Pool, Newbern, N. C.

Requisition.

Gov. Caldwell has issued a requisition on the Governor of Virginia, for Frank Harris, col., indicted at the June term of Wake Superior Court for larceny. His case was not heard at that term of court, and he was bailed in the sum of $300. A few days ago he attempted to make his escape, and had reached Danville, Va., where he was arrested and lodged in jail in that city, on the authority of a telegram from Sheriff T. F. Lee. H. M. Miller left the city on Thursday evening for Danville, to bring back the fugitive.

Fine Cotton.

We were shown on yesterday some fine specimens of cotton—middling uplands—raised on the farm of Mr. M. A. Parker, three miles and a half from this city. It is pronounced by judges to be the finest ginned cotton ever brought to this market. The ginning was done by one of Messrs. Stronach Bros. "Magnolia Light Draught Gins," which is considered equal to any machine in the country. Specimens of this cotton may be seen at the store of M. A. Parker, or the store of G. T. Stronach & Bro.

Full Crop Tobacco.

A gentleman writing from Granville county, informs us that no fears are now entertained of a short crop of tobacco, but that the indications are the crop will be a full average, both in quality and quantity. We regret to learn through the same source of the destruction, by fire of some eight or ten tobacco barns, within the last few days. The following gentlemen have had their barns destroyed: John Fleming, Jesse Meadows, Mosely Veasy, John Umstead, John Pead, T. Cheatham and three or four others whose names are not given. The fires are considered purely accidental and are supposed to have occurred from the flue mode of curing.

Reams' Cotton Chopper and Cultivator.

We omitted yesterday an important note of our Reporter in regard to C. F. Reams' Cotton Chopper and Cultivator. He saw it for the first time on Tuesday at Smithfield, Johnston county, and took pains to ascertain the opinions of the scores of cotton planters who examined it and saw it at work. The machine can be operated by one man and one horse or mule and does the work at one operation, of four plows and eight choppers. This is the testimony of planters of experience. The machine, as before stated, can be worked by one man and one horse or mule, though the opinion seemed to prevail that two horses or mules would be preferable in every respect. It "lists" on both sides, chops to any required distance, and "dirts" on both sides, in one operation. It does more: it throws the grass beyond the reach of the hoes which "dirt" the cotton, and is so constructed that the chopping irons can be engaged to suit "missing places," and re-geared where chopping may be required. It seems extraordinary, but it is confidently believed, that one of Reams' Choppers and Cultivators, with one or two horses or mules, or one good ox, will do the work of four horses or mules and twelve hands in a superior manner. The farmers will have ample opportunities of witnessing Reams' plow in the cotton at the State Fair in competition with another.

FINE CUT.

The Goldsboro Fair has been abandoned.

Fall session of Davidson College commenced on Thursday last.

The Western Nail Association have advanced the price 11 1-2 cts. per keg.

There was frost in the Jefferson, Ashe county section on last Sunday week.

When female neighbors quarrel now-a-days, they don't spring for each other's hair. Things have changed.

Willie Russ, son of Maj. J. P. Russ, left the city yesterday morning for Randolph Macon College, Virginia.

A letter addressed to Ed. Snell, Goldsboro', N. C., is held in the post office for want of postage.

Gen. Wade Hampton will deliver the annual address at the forthcoming Fair of the Carolinas.

Epizooty among the sheep is the latest visitation. It is said to be prevailing in some of the eastern counties of Pennsylvania.

All the persons who were sent to the Albany Penitentiary from Rutherford county, for ku kluxing, have been pardoned, except Owens.

Dr. Beke has published a book to prove Mount Sinai an extinct volcano, and thus explaining the "pillar of cloud by day and pillar of fire by night," in Exodus.

Rochester poets are apostrophizing the marriage of Morlacchi and Texas Jack, though they experience some difficulty in finding anything to rhyme with papooses.

The latest sensation is the Connecticut-hobby horse-whirligig in front of the SENTINEL office. Yesterday from "early morn till dewy eve," large numbers of people, of all sizes, ages, colors and conditions were around it.

The Public Scales.

Two gentlemen, W. R. Rogers and Aaron Robards, called at our office yesterday and requested us to call the attention of the proper authorities to the dilapidated condition of the public scales. Mr. Rogers informed us that last week he brought to market a load of new fodder (200 bundles) that should have weighed 400 pounds but which, according to the city scales, only weighed 140 pounds. Mr. Robards says he brought to the city on yesterday a load of new fodder containing 375 bundles which should have weighed something near 600 pounds, but on the city scales it weighed only 340. If these statements are true, and we are informed the city weighmaster is of the opinion that the scales are incorrect, we think the Commissioners should take prompt steps and have the evil remedied at once.

L. B. Lent's $1,000,000 New York City Show.

Our advertising columns this week are brimful of interest and the spice of pleasurable anticipation in the liberal announcement of the coming from New York City, by double special railroad excursion trains, on Friday Oct. 10th of that renowned circus manager, L. B. Lent, with his Leviathan Universal Living Exposition of 500 men and horses, 500 animal captives, 60 car loads of museum and animate marvels, and the unrivaled New York Circus, which has been permanently located in the Great Metropolis for the past seven years, and is the only exhibition of the kind with an established city reputation and the merit of being continuously maintained. The rumor that this greatest of the great shows would probably visit us for the first time has created a decided sensation in all amusement-loving circles, and from the unanimous eulogies of the press of New York and other cities, and the popular verdict of delighted satisfaction, the conclusion is fully justified, that is the vast area concealed by its gas-lit city of tents is congregated by far the most comprehensive and extraordinary collection of rare wild beasts, birds, reptiles, living wonders, and amphitheatrical features ever presented to an astonished and delighted public. This immense epitomization of Nature's forms and freaks, and monopolization of the best amphitheatrical muscle and mirth talents on either side of the sea, has involved the outlay of a million of dollars, and places Mr. Lent the foremost of animal and museum directors, as he has long been pre-eminently the first of scenic managers. His confidence that the nerve and liberality involved in so gigantic an undertaking would be admitted and appreciated in this section is not misplaced, and the amount of his remuneration depends solely upon the capacity of his conveyance. So look out for the elephant when the bell rings.

Good Condition.

We are informed by one of the attaches of the Raleigh National Bank that so far from that bank being affected by the recent failures North, it now has $40,000 more money deposited in its vaults than it had before the crises came upon the country.

Appointments by the Governor.

The Governor, on yesterday, appointed A. M. Warner, Esq., of Hardy county, West Virginia, and John Bost, Esq., of Warwick, Orange county, New York, Commissioners of Deeds for North Carolina.

Southern Historical Society.

As heretofore stated in these columns, a number of gentlemen in the city of New Orleans, in the month of May, 1869, formed themselves into an association under the style of the "Southern Historical Society," with a parent society to hold its seat in that city and with the design of having affiliated societies in the States of Maryland, Virginia, North Carolina, South Carolina, Georgia, Alabama, Florida, Mississippi, Texas, Arkansas, Tennessee, Missouri and the District of Columbia.

New Orleans was found to be an unfavorable location for the parent society, and therefore under the call of the said society, a convention was held at the Montgomery, White Sulphur Springs, in Virginia, on the 14th of August, 1873, by which the society was re-organized, with a change of the seat of the parent society to the city of Richmond, Va., and the election of the following officers:

President.—General Jubal A. Early.

Vice-President.—Hon. Robert M. T. Hunter.

Secretary and Treasurer.—Col. George W. Munford.

Executive Committee.—Gen. Dabney H. Maursy, chairman, Col. Charles S. Venable, Col. Wm. Preston Johnson, Col. Robert E. Withers, Col. Joseph Mayo, Rev. John Wm. Jones, Lieut. Col. Archer Anderson, Maj. Robert Stiles, George L. Christian, Esq., Gov. Z. B. Vance, Vice-President for North Carolina.

We are requested to state that Contributions to the archives and library of the society are respectfully solicited, under the following specific divisions:

1. The histories and historical collections of the individual States from the earliest periods to the present time, including travels, journals and maps.

2. Complete files of the newspaper, periodicals, literary, scientific and medical journals of the Southern States, from the earliest times to the present day, including, especially, the period of the recent American civil war.

3. Geological, topographical, agricultural, manufacturing and commercial reports, illustrating the statistics, climate, soil, resources, products and commerce of the Southern States.

4. Works, speeches, sermons and discourses relating to the recent conflict and political changes. Congressional and State reports, during the recent war.

5. Official reports and descriptions, by officers and privates and newspaper correspondents and eye-witnesses of campaigns, military operations, battles and sieges.

6. Military maps.

7. Reports upon the munitions, arms and equipment, organization, numbers and losses of the various branches of the Southern armies—infantry, artillery, cavalry, ordinance and commissary and quartermaster departments.

8. Reports of the Adjutant General of the late C. S. A., and of the Adjutant Generals of the armies, departments, districts and States, showing the resources of the individual States, the available fighting population, the number, organization and losses of the forces called into actual service.

9. Naval operations of the Confederate States.

10. Operations of the Nitre and Mining Bureau.

11. Commercial operations.

12. Foreign relations, diplomatic correspondence, etc.

13. Currency.

14. Medical statistics and medical reports.

15. Names of all officers, soldiers and sailors in the military and naval services of the Confederate States who were killed in battle, or died of disease or wounds.

16. Names of all wounded officers, soldiers and sailors. The nature of the wounds should be attached to each name, also the loss of one or more limbs should be carefully noted.

17. Published reports and manuscripts relating to civil prisoners held during the war.

18. All matters, published or unpublished, relating to the treatment, diseases, mortality, and exchange of prisoners of war.

19. The conduct of the hostile armies in the Southern States. Private and public losses during the war. Treatment of citizens by hostile forces.

20. Southern poetry, ballads, songs, etc.

The first regular meeting of the Society, at Richmond, will be held on the 29th of October next, at which time and place Vice Presidents of States are requested to attend, and they are also requested to appoint delegates from the States in time to have a full representation.

Sudden Death.

We learn from the Wilmington *Star* of the 26th inst., that Mr. John C. McIlhenny of that city, died very suddenly of paralysis on Thursday morning last. He had been complaining for several days, but was able to be on the streets and was down town at the drug store of his brother as late as 9 o'clock on Wednesday night. One of his brothers remained in his room with him until about 12 o'clock, and when he left there were no indications perceptible that his condition was in the least dangerous or that he would require any assistance. He was in the habit of rising early and at the usual hour yesterday morning a servant went to his room to call him, when it was found that he had breathed his last.

In the spring of 1862, while in this city, he was thrown from his horse, a fine animal which he had recently purchased, receiving injuries from which he never recovered, one side of his body subsequently becoming paralyzed.

John Kinzer lost two fingers last week by feeling the edge of a circular saw when in motion. He went do as any more.—*Western Sentinel.*

HELMBOLD'S BUCHU is the only reliable remedy for diseases of the urinary organs. Take it in season, and do not be imposed upon by quacks and impostors.

We are glad to learn that the absence of the celebrated Dr. Helmbold has not prevented the continued manufacture of the Buchu, so well known as the only efficient remedy for diseases of the kidneys and urinary organs. There are counterfeits of this most excellent medicine. Genuine has proprietor's private stamp. John F. Henry, New York, Sole Agent. eod1w.

REASONS FOR DRINKING.

A gentleman in a restaurant called "Walter bring me a glass of brandy; I am very hot." Another, "Walter, a glass of brandy; I am dreadfully cold." Mr. Twaddles who was present, cried out "Walter bring me a glass of brandy, because *I like it*." Twaddy only echoed the sentiment of mankind in general—we not only drink that, and so on, simply because "we like it," and in the way of "Dam," what a stupendous "institution" the American public entertain for the *Boring Sheet Grinding Blues*, especially since it has been so vastly improved. From all sections of the country, we hear the warmest encomiums upon the excellence of this modern monarch in mechanism, and its late fair to sustain its well-earned reputation. By corresponding with the manufacturers, Messrs. Stoaks, Peterson & Co., Philadelphia, the firm will promptly respond to all inquiries relative to the operations of their famous rock.

SEWING MACHINE

For Domestic Use,

ONLY FIVE DOLLARS

With the New Patent

Button Hole Worker,

Patented June 27th, 1871.

AWARDED THE FIRST PREMIUM AT THE AMERICAN INSTITUTE AND MARYLAND INSTITUTE FAIRS, 1871.

A most wonderful and elegantly constructed SEWING MACHINE for *Family Work*. Complete in all its Parts. Uses the Straight *Eye Pointed Needle*, SELF THREADING, direct upright POSITIVE MOTION, New Tension, Self Feed and Cloth Guider. Operates by WHEEL and on a TABLE. *Light Running*, Smooth and noiseless, like all good high-priced machines. Has *Patent Check* to prevent the wheel being turned the wrong way. Uses the thread direct from the spool. Makes the ELASTIC LOCK STITCH, (finest and strongest stitch known;) firm, durable, close and rapid. Will do all kinds of work, *fine* and *coarse*, from CAMBRIC to heavy Cloth or LEATHER, and uses all descriptions of thread. This Machine is HEAVILY CONSTRUCTED to give it STRENGTH; all the parts of each Machine being *made alike by machinery*, and beautifully finished and ornamented. It is very easy to learn. *Rapid, Smooth* and *Silent* in operation. Reliable at all times, and a PRACTICAL, SCIENTIFIC, MECHANICAL INVENTION, at *Greatly Reduced Price*.

A Good, Cheap, Family Sewing Machine at last. The first and only success in producing a valuable, substantial and reliable low priced Sewing Machine. Its extreme low price reaches all conditions. Its simplicity and strength adapts it to all capacities, while its many merits make it a universal favorite wherever used, and creates a rapid demand.

IT IS ALL IT IS RECOMMENDED.

I can cheerfully and confidently recommend its use to those who are wanting a really good Sewing Machine, at a low price.

MRS H. B. JAMESON, Peotone, Will County, Ill.
