MARINE DISASTERS.

New Orleans, Oct. 12. The ship Tazemnia arrived by the South Sea today and reports the Lady Russell from Liverpool for Mobile with all masts gone, but spar rigged forward and left. She wanted no assistance. On the 7th inst. the Tazemnia came across the ship Tale of Sky for New York with rudder and masts gone and every sail and rope carried away. The crew had been three days without water and were nearly all disabled. The Captain of the Tazemnia took them aboard and brought them to this city. Before leaving the ship they fired her.

FROM MEMPHIS.

Memphis, Oct. 12. The receipts of the Howard Association on Saturday were \$488. Their daily expenses are \$1,000. There is general destitution among the poor. All kinds of contributions are accepted. Three hundred applications at St. Peter's Orphan Asylum. They are providing as far as they are able, but are compelled to turn the unfortunate children away.

News Dispatches.

Domestic News.

FROM TENNESSEE.

Memphis, Oct. 12. The streets are almost deserted. Yesterday very few went to church. No pleasure vehicles—nothing but hearses. Fifty-seven deaths.

F. S. Jinks, Grand Chancellor of the Knights of Pythias of Tennessee, is down with the fever, and the duties of his office are devolved upon W. H. Marston. This order has given physicians and there is no money in the treasury, the demands upon them for aid in meeting brotherhoods having exhausted their relief funds and contributions.

Three physicians from Chicago and one from New York arrived here yesterday and attended their services which were accepted and they went work.

Joe W. Toomey, visiting member, I. O. O. F., of New Albany, died yesterday. General demoralization exists throughout the city. The police force is greatly reduced. The city railroad has been compelled to reduce the number of trips one-fourth, and the number of cars running does not yield the expense of the drivers.

M. H. Rankin, city editor of the Argenta, is rapidly recovering.

The mortuary report for 24 hours ending 8 o'clock Saturday evening, show that there were 47 deaths from yellow fever and ten from other diseases.

FROM NEW YORK.

New York, Oct. 12. The steamship George W. Clyde at Galveston, bound for New York, reports that on the 6th, during a severe hurricane, Capt. Call, second officer, chief engineer and one seaman were washed overboard and drowned.

Early publication is this morning given to letters of Dr. Toner, late Missionary and Bishop of Zamboanga, addressed to Bishop Potter, of this Diocese and Dean of Canterbury, finding fault with the latter for participating in communion services in the Presbyterian church in this city on Sunday last. Dr. Toner says this conduct of the Dean will be accepted in this country and England as sufficient reason and justification for Episcopalians attending the services of the Catholic church, and may be cited as proof that the Episcopal church is a haven of rest for those of multiplicity of doctrine, a delusion and error.

James Hugh, a noted painter of South Carolina is dead.

The Associated Press courier who carried the report of the Mobile execution from Fort Klamath to the telegraph station at Jacksonville, Oregon, rode a distance of 90 miles in 6 hours and fifty-five minutes over a mountain road of more than usual roughness, employing in the route three well selected horses for the journey. The last forty-two miles he accomplished in two hours, leaving his personal baggage by 30 minutes and getting control of the wires which were necessarily occupied by the transmission of the Associated Press report until it was too late to forward any other.

The Supreme Court convened to-day. Field and Davis are absent. The bar met and passed appropriate resolutions regarding Chase. Sherman and staff, has gone to Toledo. Grant goes after reviewing the prospectus to-morrow.

The Star says Secretary Richardson in speaking of the use of the legal tender reserves and the present amount of circulating notes says: He would oppose any bill for permanently increasing the legal tender circulation above the present standard as well as a bill permanently fixing them at three hundred and fifty-six million. The Secretary of the Treasury must at all times be able to pay the appropriations of Congress or suspend payment until he can accumulate currency for that purpose. If the limit is fixed then the department will be obliged to suspend payments on all warrants when the currency balance is exhausted.

The slight frost this morning has inspired new hope. Very few cases of fever are reported up to noon. An important feature is now noticeable in the disease is that it soon turns its course to recovery or death. Many of the cases attacked a week ago are on the street, while those attacked earlier are still confined to their rooms. The mortuary report from noon yesterday to noon to-day shows a list of 48, of which 36 died from yellow fever.

A special dispatch from Cartagena to the Times gives the following particulars of the engagement between the Spanish government squadron under Admiral La to and the fleet. Upon the appearance of the fleet of the national squadron a consultation was held, and it was decided to fight, although they had no hope of achieving a victory. Some of the garrison were in favor of surrendering the city but a majority of the men, especially deserters from the government army, were determined upon resisting to the last. At noon on Saturday, everything being in readiness, four vessels weighed anchor and sailed out of the harbor amid loud cheers from the populace and the landing troops. After proceeding a short distance Admiral Lobo's fleet, consisting of Victoria, Almansa, Villa de Madrid, Carmen and two paddle-wheel steamers, were met, and an engagement instantly began. The fight lasted two hours, when the Interoceanic fleet was defeated and driven back to Cartagena, their vessels being badly damaged. The Interoceanic showed great spirit, but handled their ships badly.
