Mr. Troy raised the question that if this be a continuation of the session of the Assembly begun on the third Monday in November, 1872, an adjournment to the third Monday of November, 1873, having been agreed upon, (and the general un-derstanding he thought was that it was a continuation of the session,) then the proceeding in regard to the rules was out of order. The proper course should have been to "amend the rules."

President Brogden remarked that will all due respect to the opinions of others he considered this a new session. It was clear to him that the Legislature was bound by the constitution to meet on ast Monday, no matter what the terms of he adjournment last spring.

A message was received from the House amouncing the concurrence of that body in the proposition to raise a joint select committee on the Belf injunction cases.

Mr. Harris, sulored, moved that Mr. Mabson, colored, he added to the committee on Penal Isativations.

Objection was made that the motion proposed an infrigement upon prerogatives of the chair in the appointment of the committees; that they could not increase the number of the joint committees without the consect of the House; that ithout the consent of the House; that there was no vacancy on this committee; that the committees generally were two large and un wieldy, &c. It was contend-ed, on the other hand, that there were nuents for the p -tbba besore tion, and that there was a Senate committee as well as a joint committee on Penal policy was imaggrated at this early stage Institutions, and that the former could be of the session the treasury would be de-

A message was received from the House concurring in the Senate proposition to oppose this measure. In his opinion raise a joint select committee on the State it would seriously jeopardize the finances of the State. He thought such a course lebt and Habilities.

Report of Dr. Grissom,

We have received a copy of the "Report of the Board of Directors and Superintendent of the Insane Asylum" for the official year ending Oct. 31st, 1873. We propose to make some extracts from the

report of the Superintendent. He says: "The total number of admissions since the opening of the Asylum on the 22nd day of February, 1856, in 1043; the total number of discharges for the same time is 801; of whom 262 were cured; 95 improved; 170 unimproved; 274 died; leaving now under treatment 242.

Upon the whole number of admission the per centage of discharges has been 77-; of cured, 25 per cent; 9 per cent; of unimproved, 16 per cent; of deaths, 26 per cent. Upon the whole number of discharges, the per centage of cures has been, 35-; of improved, 12-; of unimproved, 21 per

cent; of deaths, 34 per cent. At the close of my last report there were in the Asylum 119 males, and 114 females. Of the numerous applications for admission, we have been able to make room for only 33 males and 17 females. The whole number under treatment during the year

was 152 males and 131 females, making s total of 283. There has been 28 ma'es and 13 females discharged during the year; of these 12 males and 6 females were cured; 6 males and 1 female improved; 2 mairs and 1 female in a stationary condition; and 8 males and 5 females died."

"Upon the number of admissions during the year, the per centage of discharges was 82; of cures, 26; of improved, 14; of unimproved, 6; of deaths, 26.

Here is a summary of calculations made: "Ist, The curses upon admission 36 2nd. The cures upon discharge of 44 per cent.
