THE SENTINEL.

JOSIAH TURNER, Editor.
T. B. KINGSBURY, Associate Editor.

SATURDAY MORNING, Nov. 22, 1873.

THE LEGISLATURE—PRICE OF THE SENTINEL FOR THE SESSION.

The Legislature will assemble on Nov. 17th. It will be an important session to the people of North Carolina. It will probably continue until 1st March—over three months, including the recess at Christmas.

We are anxious to send the SENTINEL into many additional households. To induce others to subscribe, we will send us follows during the entire session of the Legislature:

Daily,	$1 75
Semi-Weekly	1 00
Weekly	50

TO ADVERTISERS.

The SENTINEL issues more papers every week than any other paper in Raleigh. If any one doubts this positive statement, we refer him to the manager of the Neuse Paper Mill who supplies the city press with all the paper they consume.

The SENTINEL circulates in every county in North Carolina, and goes into more than twenty States.

It is therefore the best ADVERTISING MEDIUM in Raleigh.

We advertise at as moderate rates as any other paper. Try us.

EDITORIAL ENTRIES.

The Augusta *Constitutionalist* thinks that bad whiskey had as much to do with Andy Johnson's action in the case of Mrs. Surratt as temidity. Very likely.

Ex-President Johnson is sound at least on the Cuban situation. He does not think that the Government should act with haste, and believes that Spain will make all the reparation we ask for without resorting to war.

Mr. Mallory, Secretary of Navy during the Southern Confederacy, and whose death recently occurred, was a victim of consumption brought on by the severities to which he was subjected whilst imprisoned at Fort Lafayette.

The Reform candidate for Governor in Wisconsin is elected by over fourteen thousand majority. The Reformers have nineteen majority on joint-ballot in the Legislature. The victory was most remarkable, and shows that a powerful reaction has set in against Grantism.

If it is true that the New York banks have, as they report, $30,000,000 of legal-tenders held as a reserve, it is high-time they were put in circulation to relieve the extraordinary financial pressure. Because the money is kept locked up in vaults is the main cause of the present embarrassed condition. As the boys about town say —"That's the matter with Hannah."

WAR FOR CUBA.

War is the easiest thing a Republican government can make. If the people of this continent could have waited on time and the Lord patiently, like Christians should, there would have been no war to curse the land. If the three cents tax on tea could have been endured like we did three cents tax on cotton and forty cents tax on tobacco, the war of the Revolution might have been averted. England could not long have governed this great continent and Washington, Adams, Hancock and Jefferson would have had a republican government, and that too without a seven years' war, of which both parties got heartily tired. The Mexican war, by the use of Bonglen's panacea for the crisis, might have been averted, to wit: "Wisdom and Statesmanship."

Equally so with the late war. If the Republican leaders, such as Judge Redman, Hargrove, the Attorney General, and Judge Cantwell of the Cockade and Post-office envy, had been content to work the negroes that now support them, on lands producing cotton, sugar and tobacco, without going into Kansas, the war could have been averted by the use of Bonglen's panacea and a little patience, waiting on time and the Lord.

If Lincoln, Giddings and Seward could have used a little of Bonglen's panacea for the panic, they might have freed Egypt, the negro monitor, and all his race, as England did her slavery, without bloodshed, and at ten cents in the dollar of what it actually cost by Judge Bond's "Due process of Law."

OBEDIENCE TO THE LAW.

It is a beautiful sight, refreshing to the patriot and law abiding citizen, to see all, old and young, rich and poor, obedient to the law without compulsory process, and ready to enforce acquiescence to its mandates and decrees. The Legislature at its last session commanded the State Treasurer to appeal from a decision of the Circuit Court at Greensboro to the Supreme Court of the United States. The Treasurer was about to do so, when lo, a Railway of Almanac obtained an injunction from the carpet-bag Judge Tourgee who forbid the Treasurer signing the bond. This injunction was in the teeth of the clog. The order of Judge Bond, we will bet a V as injunction as yet, though it may become one, in the interest of the rag, in the interest of the parties who brought the black mailing injunction before the Kehe suit. We do not mean to insinuate that Judge Bond has done any thing improper in giving Mr. Self a hearing as Judge Watts did Keho. It was right for Judge Watts to hear Keho, but it was wrong for him to take $5,000 of the bonds, as "Hon." John T. Dewcese says he did, to grant the injunction.

Our Treasurer seems to anticipate the injunction as if he knew what Judge Bond would do, and the Legislature has acted too gently and forbearingly with him in his readiness to obey injunctions. Judge Bond is not Tourgee or Greasy Sam, he will take neither special "*Louis*" bonds nor money from the ring.

We must here re-produce the act of Congress and the Constitution on the subject of injunctions, that the Treasurer may read, ponder inwardly, digest and obey it.

The judicial power of the United States shall not be construed to extend to any suit in law or equity commenced or prosecuted against one of the United States by citizens of another State, or by citizens or subjects of any foreign State. The act of Congress says:

"Nor shall a writ of injunction be granted in any case without previous reasonable notice to the adverse party, or his attorney, of the time and place of moving for the same."

The highest authority on injunctions, says:

"An order for an injunction is considered ineffectual until the required bond is expected. And it has ever been held that the order need not be regarded until the security is given." (See Brightley's digest.)

Now tell us why the Treasury of North Carolina should be locked because Judge Bond has removed the Treasurer to appear before him on the 26th inst. to show cause why Alfred Self and others should not have the money due him paid.

CONSOLIDATION AND THE LEASE.

No true man can approve of the manner of the lease, when he reads President Smith's evidence taken on that subject before the Shipp Committee, in which he refused to answer how much money his friends for him received for the lease. Consolidation is a scheme of Buford, Smith & Co. Many good, honest men in the State will approve it, but that will not make it good for the State or the Stockholders of the North Carolina Railroad. Unencumbered with the Mullet Road, as Billy Smith calls it, and the Western road, the North Carolina road might tunnel the Blue Ridge and connect with the Tennessee roads, but to make the North Carolina road buy two insolvent roads, broken down with debt, is to break down the North Carolina road and fail in extending the road to reach the Tennessee roads. In a day or two we will show the indebtedness of all the roads, and how utterly impossible it is for three mortgaged bankrupt roads to tunnel the Blue Ridge. And if possible how utterly unsafe it is for Billy Smith and Buford to be trusted with the work.

"THE SWORD."

We are sure that we feel with every Christian man a just abhorrence at the brutal conduct of Spain for the murder of the crew of the *Virginius*, but it is a matter about which we would not make war. In the Cuban crisis give us Brogden's "*panacea*" rather than Judge Bond's "due process of law." And may God inspire the President and whole country to say amen to this sentiment.

Hon. A. H. Stephens, of Georgia, will once more take his seat as a member of the United States Congress in December, after an absence of fourteen years. He is a man of excellent abilities and will find no superior in the body of which he will be an honored member. What some of the extremists of the North will think when they see the late Vice President of the Confederate States sitting in his seat in the National Congress, is a matter of no importance. Doubtless they will growl and show their teeth, but they will not bite.

MISCELLANEOUS.

NOTICE.

In pursuance of a decree of the Superior Court of the county of Caldwell made in the case of J. N. Hanshaw, J. C. Hallyburton and others against William F. McKesson and others, on the 22d day of December, 1873, at the Court House in Morganton, I shall offer for sale to the highest bidder at public auction, a most valuable Plantation and Mills on Linville River, in the county of Burke ten miles from Morganton, adjoining lands of Mrs. Dickson, Sam'l Alexander and others containing Five Hundred and fifteen acres of fine land, about seventy-five acres of rich river bottom with fine water power, with both Grist and Saw Mills and situated in a splendid neighborhood for custom.

Also, another track of land known as the Walker place, situated immediately on the Railroad four miles from Morganton on the Catawba River, containing one hundred and fifty-four acres, twenty acres of which is fine river bottom, and the remainder fine upland in a good state of cultivation and a very desirable place for a small farm.

Also another track in Mitchell county on Grassy Creek on the road leading from Turkey Cove to Burnsville and Bakersville known as the Wilson land, adjoining lands of Geo. Grunier and others containing some two or three hundred acres of very rich mountain land, a large portion of which is level meadow land and admirably adapted as a grass farm and surrounded by a fine and extensive mountain range for stock.

All of the said lands will be sold on a credit of six months, the purchaser securing the purchase money by bond and approved security beyond the Homestead and personal property exemption, and the title retained till the purchase money is all paid.

DOUBLE ACTING FORCE PUMPS.
J. L. KITCHEN, Inventor and Manufacturer,
RALEIGH, N. C.,
And Successor to Kitchen Bros., of the Kitchen, Submerge, deep well Porcelain-Cylinder, Double-Acting Force Pump, which has been in use 3 years, without even the expense of new packing. It received the first premium for force pump at our State fairs, for the last three years over all domestic pumps, being the only combined yard well pump and hand fire engine that has ever given satisfaction in this country, and having been tested by over 50 fires and saved over five hundred thousand dollars worth of property, and I have yet to hear of the first one being overcome by fire. They throw from 30 to 300 gallons water per minute on the roof of three story buildings. They are made strong so that 3 to 4 men will not break them and yet without the hose small children work them for ordinary use. They have a porcelain cylinder which can't cut the packing nor give any taste to the water, will not want repacking in five to ten years if ordinarily used. With my long experience and knowledge of these pumps I can now fully guarantee satisfaction. Some of them are working satisfactorily in wells 85 feet deep. Many who have them say they save half per cent per annum insurance, and many say they do not see the necessity of paying any fire insurance while they have one of my pumps. My Globe Pump a Cystern and Double-acting Force Pump, has astonished hundreds by its wonderful forcing powers and its novelty of construction and beauty, both of operation and shape. It was gotten up to set where there was no water, by running the pipe to some neighbours well, cystern or spring, lifting the water from 25 to 30 feet perpendicular and as far as you wish horizontally, and then by attaching hose throws it as far as you please and it answers well what it was intended for and is said to be the best ship pump in the world by attaching two suction pipes on and one for bilge water. I am making two sizes of these and six sizes of the Porcelain Cylinder Pump and over a dozen styles of working them. Send for Circular and price list.
Two partners wanted, none need apply unless good financial business men or master mechanics. The demand and satisfaction these pumps are giving is a guarantee of the largest dividens realized from any business in the United States, these statements can be easily substantiated by hundreds of men and papers. Persons raised in manufacturing districts having manufacturing ideas, enterprise and money, or no money, would do well to negotiate with me at once. It is not so much money I want as help—mechanically and business talents. I will give $100 premium to any man that will bring a cistern and deep well pump to beat mine from either North or South (on its general merits.)

DIAMOND SPECTACLES.

The Spectacles are manufactured from "Minute Crystal Pebbles" melted together, and are called diamond on account of their hardness and brilliancy. It is well known that spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent less heated rays that any other pebble. They are ground with great scientific accuracy, are free from chromatic aberrations, and produce a brightness and distinctness of vision not before attained in spectacles. Manufactured by the Spencer Optical Manufacturing Company, New York. For Sale by responsible agents in every city in the Union.

And a very large variety of Low Price Dress Goods. My stock of Cassimeres, Piece Goods, Hats, Caps, Boots and Shoes is extraordinarily large and complete, and you would be doing yourselves injustice if you were not to examine it before purchasing elsewhere.
THE SECOND AND THIRD FLOORS are almost exclusively devoted to
WHOLESALING,
both being filled to their utmost capacity with
GOODS OF EVERY DESCRIPTION
to supply the Trade, and Country Merchants would find it to their interest to give my stock a thorough examination before making their purchases, as I think I can offer rare bargains and special inducements. With
A CORPS OF EXPERIENCED SALESMEN,
ever ready to assist, I can sell, do sell, and will continue to sell as
CHEAP AS THE CHEAPEST.
No house in Raleigh can or shall undersell me, it matters not whether the goods are purchased in Europe or the United States, and for these important reasons:
1st. I am alone, and have no two or three partners to divide my profits with.
2nd. I have leased my store house at a mere nominal cost.
3d. I believe in the great principle of LIVE AND LET LIVE—QUICK SALES and SMALL PROFITS.
4th. I have large experience, buy at the lowest INSIDE figures, and with the best facilities.
EXPERIENCE, the best of teachers, has long since informed the people that
Creech's
is the place to buy their goods, and as heretofore, I shall always
REPRESENT GOODS AS THEY ARE.
Returning thanks for past favors, I hope to secure your patronage in the future.
