# THE SENTINEL.

JOSIAH TURNER, Editor.
T. B. KINGSBURY, Associate Editor.

SUNDAY MORNING, Nov. 23, 1873.

## THE LEGISLATURE—PRICE OF THE SENTINEL FOR THE SESSION.

The Legislature will assemble on Nov. 17th. It will be an important session to the people of North Carolina. It will probably continue until 1st March—over three months, including the recess at Christmas.

We are anxious to send the SENTINEL into many additional households. To induce others to subscribe, we will send as follows during the entire session of the Legislature:

| | |
|---|---|
| Daily, | $1 75 |
| Semi-Weekly | 1 00 |
| Weekly | 50 |

## TO ADVERTISERS.

The SENTINEL issues more papers every week than any other paper in Raleigh. If any one doubts this positive statement, we refer him to the manager of the Neuse Paper Mill who supplies the city press with all the paper they consume.

The SENTINEL circulates in every county in North Carolina, and goes into more than twenty States.

It is therefore the best ADVERTISING MEDIUM in Raleigh.

We advertise at as moderate rates as any other paper. Try us.

## AGRICULTURAL SPRIGS.

If the Daily SENTINEL will prevail upon the Legislature to have a magistrate appointed to work at "our expense" we will try and prove that the SENTINEL is opposed to the State Fair.—*Agricultural Journal.*

Better work to pay the carpenters and laborers you deceived about their lumber and labor.

We tell the SENTINEL, once for all, that it is an enemy to the State Fair, and we will yet prove it. The end has not yet come. A word to the wise, &c.—*Agricultural Journal.*

The *Journal* does not distinguish between our "enmity" as he calls our contempt, for the special tax bond manipulating members of the executive committee and the Agricultural Fair.

How much did the SENTINEL man get for the article, "show your hand," which appeared November 13th, and by whom was it paid? The public will soon know. —*Agricultural Journal.*

Not one cent. We have paid out more money for setting type in praise of the Fair, and its doings and proceedings, than Secretary Fulghum's salary amounts to, and his salary is $1,800. We are a fast friend of the Fair but not of those members of the Executive Committee who manipulated in the special Josie tax bonds. The members of the Executive Committee will make and mark the distinction, though Fulghum will not. If this is all the Secretary of the Agricultural Fair "*knows about farming,*" he had better turn his attention from the SENTINEL to the Agricultural Committee and see if one of them has not acknowledged to voting negro women dressed in men's clothes. If the Executive Committee of the Fair is not kept before the public it will not be Fulghum's fault.

## THE TWO NAVIES.

In view of the imminent danger of a war with Spain, and as such a war would be mainly fought on the ocean, we copy the following which shows the strength of the two navies. Our own navy, however, is over-estimated, as many of the vessels are not now ready for sea, and cannot be made so in months:

According to the Navy Register of July, 1873, the United States Navy is composed of five first-rate men-of-war, carrying 1 6 guns; fifty second rate, carrying 553 guns; twenty-two third rate, carrying 123 guns; five fourth rate, carrying 16 guns; twenty-five second rate sailing vessels, carrying 364 guns; and four fourth-rate, carrying 15 guns. All of the first, the second and third rate, but one, are screw steamers.

The Spanish Navy, is thus sub-divided: Nine iron-clads, carrying from 14 to 40 guns; wooden frigates, first class, 10, carrying from 36 to 51 guns; wooden frigates, second class, 26 carrying from 2 to 16 guns; wooden frigates, third class, 11, carrying from 2 to 10 guns; and gunboats, 7 carrying from 2 to 10 guns.

Our marine corps and sailor force is small compared with that of Spain. In the latter there are 10,000 marines.

## A FALSEHOOD PERPETRATED.

Henry Ward Beecher has been "preaching" about the butcheries in Cuba. Among other things, he uttered the following:

"This is a crime against human interest, done not by bandits or roving savages, but by organized men under pretenses of government. Not in the anguish of our great struggle, thanks be to God, did this nation ever perpetrate one single act of cruelty. In all the million of men that stood arrayed against each other, not a single man was ever slain as a penalty for treason; and I think it is the glory of our country. Yet there were emissaries spread among us to poison our clothes and taint them with disease; men were sent with torches to fire our cities, and yet under such acts of provocation we find no record of cruelty on the part of our Government toward its enemies."

Now here we have an old lie still fresh ly ageing. It is a slander upon the South, and is without the least semblance of truth. Beecher may believe it, but it only is ignorant without excuse. Once out a lie is travelling and it never comes to a halt.

## WAR.

If the late outrageous county right information the probability of a speedy war with Spain is most imminent. Our authorities have one important question to settle—the true status of the Virginius, for upon that hangs the whole matter. If our rights upon the sea have been violated, and our citizens engaged in lawful trafic have been shot, then we have a *casus belli* unless Spain makes all due reparation. The last intelligence is that Spain has no concessions to make. An appeal to war is a serious, a terrible thing, and every just and wise government will consider well and exhaust every honorable means before embarking in it. We await further intelligence with painful anxiety. We hope war will be averted; we still believe that it can be averted if our Congress is controlled by wisdom and not passion. The Spanish news it is to be hoped is exaggerated. Before men clamor for war, they should make up their minds to fight themselves.

## CUBA'S FATE.

The New York *Tribune*, in insisting that the Spanish outrage must be atoned for with promptness and completeness, says:

1. That our Government has demanded full reparation for the outrage committed against our national dignity.

2. That Spain cannot exert sufficient authorities in the Antilles to satisfy our just demands.

3. That in default of the action of the Spanish Government the President, under authority of Congress, will take the necessary measures to vindicate our own rights in the matter.

4. That as a result of this, Cuba will cease to be a Spanish possession, and will in all probability become a part of the United States.

The proposition contained in the last paragraph seems to be very generally accepted, and the rich little island is one day to be one of the United States. War seems now inevitable, if we may trust the news of Friday.

## WHO CLOSED THE TREASURY?

Not Judge Bond, not the Auditor, nor the Attorney General, Hargrove.

The constitutional adviser of the Treasurer is Colonel Hargrove; he has given no such advice. On the contrary, he says there is no injunction. We have not talked with him, but we learn that Auditor Reilly is outspoken against the Treasurer's conduct in this behalf. Oh! the tame submission of a conquered people. The Treasury has been closed against the judgment of the Auditor and the Attorney General of the State, and there has not been a public meeting to denounce it. Oh! the tame submission of a conquered people.

PRATT'S ASTRAL OIL.

Absolutely safe. Perfectly odorless. Always uniform. Illuminating qualities superior to gas. Burns in any lamp without danger of exploding or taking fire. Manufactured expressly to displace the use of volatile and dangerous oils. Its safety under every possible test, and its perfect burning qualities, are proved by its continued use in over 200,000 families.

Millions of gallons have been sold and no accident—directly or indirectly—has ever occurred from burning, storing or handling it.

The immense yearly loss to life and property, resulting from the use of cheap and dangerous oils in the United States, is appalling.

The Insurance Companies and Fire Commissioners throughout the country recommend the ASTRAL as the best safeguard when lamps are used. Send for circular.

## MISCELLANEOUS.

NOTICE.

In pursuance of a decree of the Superior Court of the county of Caldwell made in the case of J. N. Hankshaw, J. C. Hallyburton and others against, William F. McKesson and others, on the 22d day of December, 1873, at the Court House in Morganton, I shall offer for sale to the highest bidder at public auction, a most valuable Plantation and Mills on Linville River, in the county of Burke ten miles from Morganton, adjoining lands of Mrs. Dickson, Sam'l Alexander and others containing Five Hundred and fifteen acres of fine land; about seventy-five acres of rich river bottom with fine water power, with both Grist and Saw Mills and situated in a splendid neighborhood for custom.

Also, another track of land known as the Walker place, situated immediately on the Railroad four miles from Morganton on the Catawba River, containing one hundred and fifty-four acres, twenty acres of which is fine river bottom, and the remainder fine upland in a good state of cultivation and a very desirable place for a small farm.

Also another track in Mitchell county on Grassy Creek on the road leading from Turkey Cove to Burnsville and Bakersville known as the Wilson land, adjoining lands of Geo. Grunler and others containing some two or three hundred acres of very rich mountain land, a large portion of which is level meadow land and admirably adapted as a grass farm and surrounded by a fine and extensive mountain range for stock.

All of the said lands will be sold on a credit of six months, the purchaser securing the purchase money by bond and approved security beyond the Homestead and personal property exemption, and the title retained till the purchase money is all paid.

DOUBLE ACTING FORCE PUMPS.

J. L. KITCHEN, Inventor and Manufacturer,

RALEIGH, N. C.,

And Successor to Kitchen Bros., of the Kitchen, Submerge, deep well Porcelain-Cylinder, Double-Acting Force Pump, which has been in use 3 years, without even the expense of new packing. It received the first premium for force pump at our State fairs, for the last three years over all domestic pumps, being the only combined yard well pump and hand fire engine that has ever given satisfaction in this country, and having been tested by over 50 fires and saved over five hundred thousand dollars worth of property, and I have yet to hear of the first one being overcome by fire. They throw from 30 to 200 gallons water per minute on the roof of three story buildings. They are made strong so that 3 to 4 men will not break them and yet without the hose small children work them for ordinary use. They have a porcelain cylinder which can't cut the packing nor give any taste to the water, will not want repacking in five to ten years if ordinarily used. With my long experience and knowledge of these pumps I can now fully guarantee satisfaction. Some of them are working satisfactorily in wells 85 feet deep. Many who have them say they save half per cent. per annum insurance, and many say they do not see the necessity of paying any fire insurance while they have one of my pumps. My Globe Pump a Cystern and Double-acting Force Pump, has astonished hundreds by its wonderful forcing powers and its novelty of construction and beauty, both of operation and shape. It was gotten up to set where there was no water, by running the pipe to some neighbours well, cystern or spring, lifting the water from 25 to 30 feet perpendicular and as far as you wish horizontally, and then by attaching hose throws it as far as you please and it answers well what it was intended for and is said to be the best ship pump in the world by attaching two suction pipes on and one for bilge water. I am making two sizes of these and six sizes of the Porcelain Cylinder Pump and over a dozen styles of working them. Send for Circular and price list.

Two partners wanted, none need apply unless good financial business men or master mechanics. The demand and satisfaction these pumps are giving is a guarantee of the largest dividens realized from any business in the United States, these statements can be easily substantiated by hundreds of men and papers. Persons raised in manufacturing districts having manufacturing ideas, enterprise and money, or no money, would do well to negotiate with me at once. It is not so much money I want as help—mechanically and business talents. I will give $100 premium to any man that will bring a cistern and deep well pump to beat mine from either North or South (on its general merits)

DIAMOND SPECTACLES.

The Spectacles are manufactured from "Minute Crystal Pebbles" melted together, and are called diamond on account of their hardness and brilliancy. It is well known that Spectacles cut from Brazilian or Scotch pebbles are very injurious to the eye, because of their polarizing light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent less heated rays that any other pebble. They are ground with great scientific accuracys are free from chromatic atherations, and produce a brightness and distinctness of vision not before attained in spectacles. And a very large variety of Low Price Dress Goods. My stock of Cassimeres, Piece Goods, Hats, Caps, Boots and Shoes is extraordinarily large and complete, and you would be doing yourselves injustice if you were not to examine it before purchasing elsewhere.

THE SECOND AND THIRD FLOORS are almost exclusively devoted to

WHOLESALING,

both being filled to their utmost capacity with

GOODS OF EVERY DESCRIPTION

to supply the Trade, and Country Merchants would find it to their interest to give my stock a thorough examination before making their purchases, as I think I can offer rare bargains and special inducements. With

A CORPS OF EXPERIENCED SALESMEN,

ever ready to assist, I can sell, do sell, and will continue to sell as

CHEAP AS THE CHEAPEST.

No house in Raleigh can or shall undersell me, it matters not whether the goods are purchased in Europe or the United States, and for these important reasons:

1st. I am alone, and have no two or three partners to divide my profits with.

2nd. I have leased my store house at a mere nominal cost.

3d. I believe in the great principle of LIVE AND LET LIVE—QUICK SALES AND SMALL PROFITS.

4th. I have large experience, buy at the lowest CASH figures, and with the best facilities.

EXPERIENCE, the best of teachers, has long since informed the people that

Creech's

is the place to buy their goods, and as heretofore, I shall always

REPRESENT GOODS AS THEY ARE.

Returning thanks for past favors, I hope to secure your patronage in the future.

THE CARY GIN.

This is a new Gin that is just being brought before the public and manufactured at Cary by Wm. M. Burnett, who warrants them to do all work as well as any other gin. The manufacturer has some on hand which will be sold at reasonable prices. Read the following testimonial of A. B. Tapp:

NEAR CARY, N. C., Nov. 3rd, 1873.

This is to certify that I am now using one of the Cary Gins made by W. M. Burnett and that I am well pleased with it and would cheerfully recommend it to any one wanting a good Gin.
