The Senator was busy, and his reply, which was brief, is as follows: He said :- I am not sufficiently and accurately in possession of 'the facts con-nected with the capture of the Virginius to express an opinion as to what definite action our government ought to take in reference to the same. But I am prepared to say that the rights, dignity and honor of the government and our flag shall be fully vindicated, and the government should do all it may lawfully do to punish these who have so grossly outraged humanity and civilization. I am in favor of firm and cautious, but decided action. I would not take any advantage of the embarrassed condition of the Spanish govrament, but would deal with that government and Cuba as with the greatest ower now unembarrassed.

Legislative Summary.

The chief business of the Senate y day consisted in the passage of the engrossed House bill for the relief of sheriffs.
