#### FROM WASHINGTON.

WASHINGTON, Nov. 24.

In the case of the United States against Lapine and others, the Supreme Court today decided that where a party advanced funds to a firm in New Orleans to be used by their agent in the interior in the purchase of cotton prior to the capture of the city, in 1862, all the parties being then in New Orleans and the city was captured by the Federal forces before the cotton was purchased with the funds so advanced, the agent having gone into the interior prior to the capture. His agency to purchase cotton was terminated by the hostile position of his principals towards the cotton owners consequent upon the capture, and that a purchase of cotton afterwards was an effectual aid to the enemy. It was forbidden by the soundest principles of public law. The purchaser therefore obtained no title to the cotton, and had no claim against the government for its capture. Mr. Justice Hunt delivered the opinion. Justices Miller and Field dissenting.
