STATE NEWS

SALE OF FAIR GROUNDS.—Grounds at Goldsboro have been sold for $3,500. The *Messenger* says the property cost the Society about $15,000.

500 Bales of cotton were shipped from Wilson last week. Pretty good for a town that the railroad company will not furnish a decent warehouse.—*Advance.*

TRANSFERRED.—Rev. R. H. Jones, of the Episcopal Diocese of North Carolina, has been transferred to Virginia and will take charge of Bath parish, Dinwiddie, county, near Petersburg.

The next session of the North Carolina Annual Conference, Methodist Protestant Church will be held at Friendship, nine miles west of Lexington, commencing on Wednesday the third day of December.

OUTRAGE.—Mr. H. Gordon, a tobacco wagoner from Graville, was arrested and detained at Tarbor by a United States Revenue officer, charged with not having his tobacco properly stamped. Mr. G., upon examination, was found to be all O. K., but was greatly inconvenienced by the detention.—*Advance.*

DEATH AND INQUEST.—On Sunday morning, 23d inst., Mr. H. W. Granger was found at the storehouse steps of Messrs. Martin & Co., of this place, dead. The deceased had been residing here about two years, engaged in the saddle and harness business. He leaves a wife and three very interesting children in Johnston county.—*Rocky Mount Mail.*

Extract from a letter from Mrs. J. C. Aldrich, Wasseca, Fulton county, O.: "R. P. Hall & Co., Gentlemen—Please send me one dozen bottles of your Sicilian Hair Renewer. Our 'maid servants' do not want to be out. My mother is a living recommendation of the results from the use of the Renewer. Being almost seventy years old, and having worn a wig over thirty years, it seems a miracle to those who have known her so long as bald, and what little hair she had being perfectly white; now her wig thrown aside, her hair grows out, and a smooth glossy brown as in girlhood. Hoping you may long continue to pour blessings on the heads of the afflicted, I remain, yours truly."

Such evidence, with the endorsement of the great chemists of New England, Dr. A. A. Hayes and S. Dana Hayes, should satisfy any one, which of the preparations produces the best results.

DYSPEPSIA is an affliction that waits on us all. None are exempt, and there are none but need relief from its attacks. Whoever can furnish this becomes our benefactor. A conviction prevails that Dr. Ayer does it. Dissections of the blood have been healed by his SARSAPARILLA, and affections of the lungs by his CHERRY PECTORAL, too frequently and too distressingly to be disputed. His AGUE CURE is said, by those who use it, to never fail. Reader, if you must have medical aid, take the best of medicine. Poor remedies are dear, as good are cheap, at any price you have to pay for them.—*Charleston Courier.* nov 30-ud 1w.

Capt. J. C. Ellis has struck some very rich gravel in the Meadstone gold mine in Burke, averaging twenty five pennyweights to the load employed.—*Paul Pry.*

HOME AFFAIRS.

Mule Stolen.

Twenty five dollars reward for a stolen mule. See advertisement.

Raleigh Grange.

A meeting of Raleigh Grange has been called for Dec. 7th. Read the advertisement.

Person Street Church.

Rev. W. H. Bobbitt, Presiding Elder of Raleigh District, will hold Quarterly Meeting at Person Street Church, on today at 11 o'clock, A. M.

Something Wrong.

The Richmond & Petersburg papers of yesterday contain news relative to the Spanish difficulty, that is, as late as that received by telegraph on the same day. The same thing happened about a week ago.

Candy. Candy.

A new home enterprise—A. D. Royster & Bros., Raleigh, N. C., are now manufacturing daily every variety of plain and fancy candies, cocoanut and fruit candies, a specialty, and made every day; no stale candy offered for sale. Try their molasses cream taffy. It is the best ever offered in this market. All their candies, plain, stick and fancy, are warranted perfectly pure. Give them a trial.

Death of Mrs. J. H. Merrimon.

We regret to learn that the worst fears of Senator Merrimon, of Buncombe, have been realized. Mrs. Merrimon departed this life at her father's residence, in Rutherford county, on last Sunday evening. The Asheville *Expositor* says:

Mrs. M. had been in feeble health for some months and her death was not entirely unexpected. Her family and friends have the heartfelt sympathies of our community in this their sad bereavement.

Dramatic.

A dramatic entertainment for the benefit of the Orphan Home at Oxford, was given Friday evening of last week at Milton. The *Advance* is in ecstacies and writes a long notice of the performance. A lady well known in Granville and Raleigh personated *Pauline*, in Bulwer's elegant comedy, *Lady of Lyons*. The *Advance* pronounces her acting as "at once brilliant and captivating in its high art and profound emotionalism."

No War.

We are indeed glad that our telegraphic news is of such a satisfactory and pacific character. The threatening storm has passed over. The Spanish Government has agreed to the demands made by the United States Government, and hence we shall have peace. Every lover of his country must rejoice in such a peaceful issue. War at best is an awful thing and should be avoided if possible. War means high taxes, high prices, an army of slaughterers, a depreciated public credit, an increased public debt, suffering and death. Let us have peace!

United Orphan Home.

It will be seen by reference to the Senate proceedings that a resolution to appropriate the magnificent sum of $600 to said the Orphan Home has been introduced. We hope the Legislature will appropriate at least $3,000 for this purpose. The sum proposed ($600) would take care of about nine children, and the remaining hundred must depend upon uncertain voluntary charity. It is certainly a most noble institution; and deserves to be sustained. We have but little doubt that it will fail before another year expires unless the Legislature does make a liberal appropriation. At the rate of $3,000 it would not be but some $55 to a county, or less than a half a cent to every person in the State. Surely our people can afford to give such a sum to such worthy enterprise and benefaction.

"A Robe in the Rose

Is a well-saying of pleasure," says some one of our poets, but a lady at our elbow who has had ample opportunity of testing the correctness of the observation, suggests that if the writer had applied the remark to a Sewing Machine instead of a lady, he would have been nearer the truth. And we doubt not that she is right; for who that knows anything of the labor-saving character of Sewing Machines can doubt that the presence of one of these in a house is indeed a source of deep and never-ending pleasure? Take, for instance, the New Elias Howe machine, now admitted to be, by far, the best and most reliable for family use. This machine hems, fells, quilts, tucks, plaits, braids, gathers and sews on, etc., and performs its work with such unerring regularity and extraordinary speed that we are almost constrained to look with admiration upon the man through whose genius it was given to the world. There is no machine which suits the family as well, and for manufacturing purposes it is equally reliable and effective, always performing its work correctly, and always giving satisfaction.—*Commercial.*

The Howe Sewing Machine can be obtained of J. R. Ferrell, Agent, No. 7 Fayetteville street. The most liberal terms are offered to all who desire to purchase, and no pains or expense are spared to give full instructions and thorough satisfaction to every customer.

Snow.

There have been two snow storms already at Asheville. This promises a severe winter in that region.

Many Thanks.

The Associate takes lieve to publish the following hearty commendation of the course of this paper from the Tarboro' *Enquirer*, and in doing so makes in behalf of those concerned our profound acknowledgements. We know that the editor is willing to leave the settlement of the printing to the Democratic voters of any township in the State represented by a Democrat in the General Assembly:

The public printing has again been given to the SENTINEL. While we dislike to see a part of the revenue of the *News* taken from it, for it is a paper we would be glad to see sustained, we know that an acknowledgement, on the part of their representatives in the Legislature, of the worth and services of the SENTINEL, will meet the approbation of the people.

The SENTINEL has no misnomer, but is indeed a watch upon the towers of civil liberty, fearing no foe, pandering to no power, favoring no personal friend at the sacrifice of the people's rights, and enduring heavy personal sacrifices for the cause it has so gallantly maintained. It is the duty of people to sustain the SENTINEL and the duty of the Legislature to acknowledge it.

Railroad Matters.

Billy Smith on the eve of leaving for Washington city gave his note as we are informed to McAden and the Southern Society Company for $300,000, besides paying down $30,000 in cash. This heavy transaction was as President of the North Carolina Road. He also gave orders for $260,000, the amount due on of account of the lease to the Richmond and Danville Road. We voted years ago for the Eastern as well the Western roads, when it was not so popular to vote for Railroads as at this day. We should never vote for a bill making a President for five years, nor would we vote for one where Billy Smith or Buford was to be the President. We had as soon trust Littlefield.

"If the act for consolidation passes it should provide that neither Smith or Buford should have a voice in the management of the road."

THANKSGIVING EXERCISES AT THE INSTITUTION OF THE DEAF, DUMB AND BLIND.

MESSRS. EDITORS:—We desire to give expression to our feelings of gratification experienced on Thanksgiving day, witnessing the services in the Chapel of the Institution for the Deaf and Dumb and the Blind. At 10 o'clock (one hour in advance of the services in the Churches) the pupils of the Deaf mute department, and also those of the colored institution assembled in the Chapel, and in a few minutes, Mr. Cooke, so widely known throughout the State, in connection with this institution opened the exercises with prayer in the sign language, and then proceeded to interpret to the pupils by signs, the lessons based upon the 1st Psalm CXVIII, 1.

The lecture was most beautifully written out in seven large slates, so that the audience might read it from any part of the room, and was rendered in signs in a masterly manner—one far as we could judge of its mysterious mode of conveying intelligence to those unfortunate children. It was well adapted to their comprehension, and contained for them valuable information—at the close giving an account in a short way of the beginning of this *first* and noble charity of our State.

We were pleased to see among the members of the Legislature present, and only wish more could have had the pleasure we derived from the one hour in the Chapel of the D. and D. Institution.

PRINTERS' PUNCTUATION.—The brilliant line of half a century ago that the weak and ailing could be "Built, Blistered and salivated into a condition of health and vigor is happily exploded; but vicinity and protracted purgation is still, to some extent, in vogue. We have impostors who are outrageous enough to offer to the world, as health and restoratives, the most destructive cathartics, unmodified by a single stimulating, soothing or restorative element. Compare the operation of ancient heroic practices with that of Hostetter's Stomach Bitters, in which are combined the three great curative elements—a tonic, an alterative, and an aperient. The former promptly restores the vital forces, so that nature has make no resistance to disease; the latter sustains the strength of the patient, while it restores the disordered functions of the digestive organs and secretions to the healthy channels of work. It is always a choice between restoration and prostration.

RALEIGH, N. C., Nov. 24, 1873.

MR. EDITOR:—I notice a call for a Union Meeting in this city but do not know by whom. I for one can't sympathize with rebels any more. I am now reconstructed, and can't see where the reconstructed Southerners can find anything to sympathize with them, and the unreconstructed can't, as it is the object of the whole to make more free negroes and I am sure we have got an all sufficient quantity of them in our hands. Let those follow up North with whom the Cubans affiliated and help fight against the South go to free of business to make free negroes but I can't see how they can reconcile the idea of fighting against reconstruction and it would be doing so to aid against the Spanish Government.

Yours, &c.,

GREAT DISCOVERY!
Great Discovery,
"BRADLEY'S PATENT ENAMEL PAINT"
MADE FROM PURE WHITE LEAD LINSEED OIL ZINC,
MIXED READY FOR USE,
Sold by the Gallon only—"One Gallon Covers 20 Square Yards 2 Coats."
READ THE FOLLOWING TESTAMONIALS:
FROM PROF. W. G. SIMMONS, WAKE FOREST, N. C.
WAKE FOREST COLLEGE, Oct 4th, 1873.
MR. C. P. KNIGHT—DEAR SIR: We have for several months been using your "BRADLEY'S PATENT ENAMEL PAINT," on our "College Building," and are well pleased with it. Though it was applied by one having no experience in such work, yet we have a good job. We shall continue to use it, believing that in point of economy, durability and facility of application, it is superior to any other pigment offered in the market.
Very Respectfully,
(Signed) W. G. SIMMONS.
THE PLAINS, Fauquier Co., Va., Feb. 6th, 1873.
MR. C. P. KNIGHT—SIR: The paint came safely to hand as ordered, two kegs, five gallons each, and three buckets one gallon each. As practice is slack, I did the job myself. Two weeks not constant work completed the house two coats, the last coat applied thick, and it is now generally conceded that for "Enamel" like hardness and body and harmony of color there is not a handsomer job in the place. I saved sixty-five dollars by the operation, which to me is an item just now with 'Southern People.' It should be generally adopted in this State; any country lad can apply it. I have never dabbled in such stock as Testimonials, but I feel so forcibly the great adaptability of your Enamel Paint to the wants of our people in excellency of material, in beauty of color, and the fact of its being ready-mixed, that I give you full permission, if it is desirable, to make what use you think proper of this letter.
Very respectfully and truly,
S. McGILL, M. D.
BALTIMORE, December 10, 1872.
MR. C. P. KNIGHT—DEAR SIR: It affords me much pleasure to say to you that the Bradley Patent Enamel Paint far exceeds my expectations in economy, beauty, and I have every reason to believe in durability. More than twelve months since, I painted the roof of my house (Mansion House) with the Bradley Patent Enamel Paint, and I was so well pleased with it, I determined to paint the fronts of the "Hotel," and I am most happy to say that it gives me perfect satisfaction. In conclusion, I will say, if this testimonial will be of any advantage to you, you are at liberty to use it.
Yours most respectfully,
ISAAC ALBERTSON, Mansion House Hotel, Cor. Fayette and St. Paul's, Baltimore.
The following letter is strong and valuable:
BALTIMORE, MD., December 27, 1872.
C. P. Knight, Esq., got Bradley's Patent Enamel Paint—DEAR SIR: The Paint we purchased from you we will cheerfully endorse as the best of any kind we have ever used. Its covering qualities in everything desired, drying promptly and with a hard gloss, which must withstand the action of all kinds of weather. This is our experience and we can recommend it with certainty, and intend to use it on all occasions where we desire a good job of work.
Very respectfully,

PRATT'S ASTRAL OIL,
Still Triumphant!
IT IS ENDORSED BY OVER 200 FIRE INSURANCE COMPANIES.
Read the following certificates from 70 of the Leading Fire Insurance Company's of the United States:
NEW YORK, May 15th, 1868.
CHAS PRATT—DEAR SIR:—The undersigned, Officers of Fire Ins. Co's, Severally, with pleasure, your endeavors to introduce a safe and reliable Illuminating Oil to the use of the cheap and low grades of Kerosene Oil now in common use. The merits of your "Astral" Oil, which are so generally conceded by scientific men, the press and the public at large, lead us to hope that your endeavors may be crowned with success, and that your Oil will fully protect themselves from fire and accident, by the use of an Oil which is perfectly safe.
Such we think the "Astral" Oil to be (Sperm test, as tested at 155 deg's standard, by Gov's. of best Kerosene,) and we feel that the general introduction as security, would materially diminish the Fire Risks on all properties to which Kerosene is applied.
