DIAMOND SPECTACLES.

The Spectacles are manufactured from "Mintie Crystal" and are made together, and are called diamond on account of their hardness and brilliancy. It is well known that Spectacles cut from Brazilian or Scotch pieces are very injurious to the eye, because of their refracting light. Having been tested with the polariscope, the diamond lenses have been found to admit fifteen per cent less heat rays than any other glass. They are ground with great care and produce a brightness and distinctness of vision not before attained in spectacles. Manufactured by the Superior Optical Manufacturing Company, New York. For sale by responsible agents every city in the Union.

H. M. BATHOLET, and Optician, is Sole Agent for Raleigh, N. C. From whom they can only be obtained. No peddlers employed.

Do not buy a pair unless you see the trade mark.

PRATT'S ASTRAL OIL.

Absolutely safe. Perfectly odorless. Always uniform. Illuminating qualities superior to gas. Burns in any lamp without danger of exploding or taking fire. Manufactured expressly to displace the use of volatile and dangerous oils. Its safety under every possible test, and its perfect burning qualities, are proved by its continued use in over 200,000 families.

Millions of gallons have been sold and no accident—directly or indirectly—has ever occurred from burning, storing or handling it.

The immense yearly loss to life and property, resulting from the use of cheap and dangerous oils in the United States, is appalling. The Insurance Companies and Fire Commissioners throughout the country recommend the use of Pratt's Astral Oil as the best and safest under every possible condition.
