NORTH CAROLINA.

The Tillito property, for which Prof. Oins was negotiating, for a Cincinnati Company last summer, but who were too late to get it at \$35,000 for which it was sold to Col. Bell, has been recently resold for \$100,000; we understand. Pretty good for these hard times—*Cherokee Herald*.ATTEMPTED ASSASSINATION.—The store of Mr. John C. Koch, corner of Front and Orange streets, was the scene on Wednesday night last, between 10 and 11 o'clock, of what appears to have been an attempted assassination. A gun or pistol was discharged through the front door of the store, the bullet striking the show case, and this discharge was followed almost immediately afterwards by another, the ball in this instance striking Mr. Koch in the calf of the leg, inflicting a very painful wound. Mr. K. has no idea who the assailant was, nor is he immediately fled—*W. Star*.

PROHIBITION HOMICIDE.—On last Saturday night at the house of Joseph Phillips, in Boiling Springs in the vicinity of Ducktown, two young men had met for the purpose of paying their addresses to one young lady, Wm. Wimberly and a Mr. Gossett, Gossett being preferred by the young lady. Wimberly waited his opportunity and as Gossett stepped out of the door, Wimberly in a fit of jealousy struck him on the head with a stick of wood, fracturing his skull and inflicting a fatal wound. No one saw him do the deed, but his subsequent actions and statements fixes the crime upon him. Gossett has been unconscious ever since the deed was committed, and at last accounts still hangs in a comatose state.

Wimberly is under arrest for the crime, and the citizens of Ducktown are determined to see that justice is meted out to him, and if guilty that he shall be punished as the crime deserves.—*Cherokee Herald*.

A BURIAL MURDER.—A most horrible and brutal murder was committed in the neighborhood of Hilton Camp Ground, this county, on the 1st instant. The facts in the case, are according to our best information, something like this:

Ellis Peacock and Richard Anderson, it appears, were both paying their respects to a young lady, a Miss McCarter, and as a natural consequence jealousy soon began to seethe in their veins. Things worsened along at this rate until Peacock and Anderson happened to meet at a neighbor's house on the date above given; sharp words were passed and finally blows, when Peacock drew a knife and stabbed Anderson in the region of the heart, which caused his death in seven minutes. Peacock made his escape at the time but has since been arrested and lodged in jail at this place.

Both of the parties were young men—nearly out of their teens—and are of good families. Anderson was a son of Floyd Anderson, of this county, and Peacock is a son of — Peacock, a very worthy minister of the Campbellite persuasion.—*Jefferson Messenger*.

THE BEGINNINGS OF DISEASE.—It is true that great evils from little annoyances grow, but that feebler diseases are often exaggerated by sympathy, trifling ailments, due to ill judgment, exasperate chronic dyspepsia, occasional bilious attacks, rheumatism in the legs, and various degenerations of the complexion, as signs of acute rheumatism. Not that such diseases are to be avoided. Far from it. They are to be avoided. A few days of rest, a quiet life, and quiet will always cure such indispositions, or even ordinary bilious affection, or even the premonitory symptoms of rheumatism. It is true that when dyspepsia, or nervous debility, or such headache has become permanent, and has even baffled the skill of outward physicians, and rendered the ordinary remedies, it may still be eradicated by the physician, but it is easier, as Marcus Aurelius, to crush the serpent's egg than the grown serpent.

HOME AFFAIRS.

Temperature.

Theo. N. Ramsey, Esq., has administered the pledge of total abstinence to one thousand persons in North Carolina during the past twelve months.

New Postoffice.

A new postoffice has been established at Bryan's X Roads in Randolph County, and William Brown, Esq., formerly of New Market, has been appointed postmaster.

Apologistic.

Our readers will be good enough to make due allowances for this number. The Editor is absent, and the Associate only returned at a late hour from a visit to Oxford—too late to prepare matter for the inside of this number.

Almost a Fire.

On Monday about 3 o'clock, P. M. the alarm of fire was given. The residence of Mr. Woodell on Blount Street, in the Eastern Ward, was found to be on fire. The fire department was quickly on the spot when the fire was extinguished. The property is owned by James M. Harries, Esq.

Bradley's Patent Enamel Paint.

We call attention to this excellent article. It is ready prepared for use and is made from pure white lead, linseed oil and zinc. One gallon will cover twenty square yards with two coats. This paint is known to persons connected with this office. See advertisement of C. P. Knight on fourth page of the SENTINEL.

Henderson.

As we passed this important point on the Raleigh and Gaston railroad there was quite an air of business. Crowds were about the streets and around the depot.

Col. Simon Kittrell is again at his old stand, the Railroad Hotel, right hand going North, where he proves to the traveler that he indeed knows how "to keep a hotel."

There is considerable talk in Henderson of a new paper, and it is believed there is a good prospect of there being one.

Arrested.

John Morton, of Greenville, has been arrested and jailed at Greenville, charged with having been one of the parties who so severely stabbed Mr. Henry Hadin of the same county. It seems that Mr. Hadin and a man by the name of Ball, had a fight which ended unfavorably to the latter. He left, but returned that night with Morton. They broke into Hadin's house and stabbed him so dangerously that his life was despaired of for day. His physicians now think he will recover. Ball is still at large. On yesterday Deputy Sheriff Jones and Walter Moore, son of the Sheriff, left Oxford and Morton from Greenville to that place, where he will be tried. The case is an ugly one. To assault a citizen in his own home after breaking into it, and nearly killing his wife, deserves severe punishment.

Incendiary Work.

On Monday morning between 10 and 1 o'clock, it was discovered that the torch had been applied to the grist mill and cotton gin of Moses A. Bledsoe, Esq., situated some half a mile from town. In a comparatively short time both buildings were consumed, together with two bales of cotton. It was the work of an incendiary. We hear that only a short time ago the watchman hired to guard the property, was knocked down, and so severely injured, that he was sick from it at the time of the fire. Not many months ago Mr. Bledsoe sustained another heavy loss by fire, and a few years ago his large and valuable residence was consumed. He has some enemy or enemies who seem bent on destroying everything of this that can be consumed by fire. We sincerely regret to learn of his great loss and hope the guilty parties may yet be discovered.

An affray occurred in Monterey a few days ago over the municipal election, in which several persons were killed and wounded.

Another disturbance occurred in Tipton, and the Mayor has been imprisoned by the State troops.

FROM INDIANAPOLIS.

INDIANAPOLIS, Dec. 29. The strike among railroad engineers continues without much change. Rumors are current of a general strike on all the roads but cannot be traced to any reliable authority. Last night a party of men entered round the house of Jeffersonville and Indianapolis Railroad and broke the glass of all the engines in the house. Only two engines had been repaired and made ready for service this morning. A large crowd gathered in the paddock yards to-day, but the shops were closed and a guard of men armed with Spencer rifles placed in the yard. Bush, who shot engineer Vance, night before last, waived an examination this morning and was committed to jail in default of \$10,000 bail.

FROM WASHINGTON.

WASHINGTON, Dec. 29. It has been ascertained from an official source that on the arrival of the Virginians at New York she will be seized by the collector of the port and labelled by the District Attorney in accordance with instructions already forwarded to these officers. If, on judicial investigation, it is shown the vessel had a register, obtained by fraud, she will be sold and the proceeds of said sale paid to the United States. Spain can make no claim to the vessel, but if she should it is positively certain our government would not entertain such a claim. The report that the Spanish government requires of the United States the restitution of the Virginians and payment of indemnity is not believed in official quarters.

The President has approved the bill removing the political disabilities of E. J. Harvey, Thomas A. Bowditch and Daniel Trigg, of Virginia, and John H. Regan, of Texas.
