JUDICIAL INEQUITY.

We have received copies of a mandamus, and a restraining order from Judge Watts, called by some Greasy Sam, forbidding us to have type set and the laws printed as ordered by the Legislature.

It is the Executive Owl, in the name of one William M. Brown, who urges the bribed judicial to this course. Judge Watts forbids us to have type set to print the laws, and the Legislature have com-

missioned to print the laws. Little Malignant, the Executive Owl, swore it should not be done at that office, and he appealed to Judge Moore, his newly appointed Judge, to enjoin and forbid Ramsay, in whose name the contract for printing was made, to do the work.

Judge Moore decided that Ramsay was the State Printer, and the Governor had no right to appoint. The Governor was content, and did not appeal from that decision.

Judge Watts will find in his Court the opinion of Judge Moore, and he will not be able to answer the argument of that Judge.

Little Malignant, when the Legislature gave the public printing to the SENTINEL office just before its recess, swore that office should not have it.

He urged Brown to get up an injunction and mandamus before Judge Settle. Judge Settle decided against Brown and the Executive Owl.

We have every disposition to obey the courts and the law—we inculcate obedience even to bad and corrupt judges rather than resistance and tumult, which follows resistance to law. There is nothing so wicked as the judicial rule of North Carolina, where 50,000 negroes elect the judiciary.

The judiciary refused the sacred writ of right, the Habeas corpus, to oppressed and imprisoned citizens. We applied to meet of the Judges of the State for a bench warrant against W. W. Holden for assault and battery upon a. The Judges ruled that the Executive could not be arrested for crime, and refused the warrant.

Judge Watts, at last Warren Court, continued a cause in which we were plaintiff and W. W. Holden, defendant, for affidavits to come from the defendant Holden, impeaching his court by swearing he (Holden) could not have justice.

He adjourned Court, got half drunk, and told it there would be no trial in his Court, for Holden would send down affidavits by the next mail to transfer the case to the Federal Court. The affidavits failed to come as the Judge said, and expected, and then he continued the case because the counsel of Holden had not time to prepare the case, when the case had been three years in Court and Holden had first and last employed seven attorneys.

We give notice to his Greasy Honor that we shall obey the Legislature and follow the opinion of Judge Moore, who adjudicated the matter two years ago.

We tell his Honor, not as Kirk did Chief Justice Pearson, "that his papers had played out" but we tell him if the Legislature will give us access to the laws and journals before they are placed in the office of the Secretary of State, we will have them accurately copied and printed, Gray's orders to the contrary notwithstanding nevertheless.

Whereas, too, if the Legislature would do its duty, that body would impeach Judge Watts for taking a bribe of \$5,000 in the Keo black mailing suit.

We have a letter from Hon. John T. Deffenoe declaring that his "bargain" with his Honor Judge Watts, was that if he would grant the Keo injunction that he (Deffenoe) would pay him \$5,000 in bonds for the injunction.

The Legislature is referred to the report of the Ship's committee, and to the evidence of Tim Lee, that he received the bonds for and in the name of Judge Watts. We advised the Legislature when David Jenkins, the Treasurer, shut up the Treasury, under the false pretence that Judge Bond had ordered it, not to obey the Judge. Now we will practice what we preached, and we will disregard little malignant, and his corrupt Judge Watts, provided the Legislature will give us access to and permission to copy the laws and journals. Greasy can only put us in jail for thirty days for contempt. And having been there once by order of Holden, under Judge Bonds' "due process of law," the second it would not hurt us to go under Judge Watts' "due process of contempt." Judicial despotism is more wicked and harder to resist than a railroad ring. And we say the cause of all the gods against both.

An eminent divine says: "I have been using the Peruvian Bark. It gives me new vigor, buoyancy of spirits, elasticity of sinews." Seth W. Paine & Sons, Boston, will send, free, a pamphlet of 35 pages, containing a full account of this remarkable medicine, to any one sending him their address.

A distressing cough cured the friends of the sufferer almost, as much pain as the sufferer himself, and should receive immediate attention. Dr. Water's Balsam of Wild Cherry speedily cures coughs, colds, influenza, sore throats, &c. It will always relieve Consumption, and in many well-studied cases it has effected a permanent cure.

THE BEGINNINGS OF DISEASE.—It is as true that "great evils from little things grow," that trifling diseases are often cured by simple remedial agents. General ill of indigestion, eructation, chronic dyspepsia, occasional bilious attacks, and in some cases of the liver, intermittent fevers in the legs and arms, degenerate into the condition, as many of acute rheumatism. Not that such disastrous consequences are inevitable. Far from it. They are attributed to neglect. A few doses of Hodelier's Stomach Bitters will always cause an indigestion or an ordinary bilious affection, or even the permanent symptoms of rheumatism. It is true that when dyspepsia or nervous debility, or sick headache has become permanent, and has even led to the state of chronic rheumatism and reduced the ordinary functions of the system, it may not be cured by the Bitters; but it is easier, as Macbeth says, to "crush the serpent" than to "kill the gnat."

HOME AFFAIRS.

FUNERAL.—The funeral of Richard G. Mason, will take place from his late residence near the Federal cemetery, this afternoon at 8 o'clock.

DEMAN has been doing its sad work lately in our midst with unusual rapidity. On yesterday we learn there were some six or seven copies in Raleigh awaiting publication.

late A. J. Lawrence will take place at the Episcopal Church this afternoon at 3 1/2 o'clock. The friends of the family and the public are invited to attend.

WICKET-GATE APPOINTMENT.—L. Branson will preach at the Wicket-gate appointment, B. H. Norris' House, at 11 o'clock to-day. Parties in the neighborhood of the new Fair Grounds are cordially invited to attend.

MASONRY.—Regular meeting of W. G. Hill Lodge, No. 218, Free and Accepted Masons, will take place on Monday evening at 7 1/2 o'clock. Installation of officers and other business of importance will be transacted, which makes it desirable that the brethren should punctually attend.

THE WORLD ALMANAC FOR 1874.—We are indebted to the publishers of the New York World for a copy of the above valuable publication. It contains a good deal of valuable information, including the election returns in all the States. It is a 64 page pamphlet, and is sold at 20 cents.

DEDICATION.—At the dedication of the new hall of Hickman Lodge, I. O. G. T., on Tuesday evening, the 13th inst., the following order of exercises will be observed:

- 1. Ode.
2. Address by Theo. R. Purnell, Esq.
3. Dedication ceremonies.
4. Closing ode. After which the lodge will be called to order.

THE LOVEJOY SCHOOL.—We call the attention of those having boys to educate, to the announcement of the beginning of the 59th session of this well known institution. The Senior Principal, J. M. Lovejoy, Esq., is the Tutor of North Carolina teachers, and one of the most eminent. The writer was one of his pupils, and learned more than twenty-five years ago to hold him in high regard. His joint principal, Mr. White, is a capable and faithful instructor. Mr. R. W. Lovejoy, who was taught by his father, is the Assistant. This school has been of great service to the people of the State and deserves to be liberally sustained.

HURRYGRAPHS.—Complaint is made, that during the recent rainy and very dark nights there was not a street lamp lit in Eastern Ward North of Newbern avenue. How is this "city fathers?"

We learn that on the first night of the performance of the Georgia Minstrels the night policemen were in attendance. Is this the way to guard the town?

If the town authorities carry out their promise of creating some large sheds on More Square, for the use of cotton dealers, it will be of service to the town, as some of our streets are considerably obstructed by the accumulation of cotton.

The venerable A. J. Lawrence, whose death was announced yesterday in the Sentinel, was a Captain in the war of 1812, and is the last of the heroes of that time who went from our midst. He was an excellent citizen, and for a great many years was the proprietor of the Lawrence Hotel of this town.

Our foreman, Mr. Ferrell, is turning out some choice specimens of Corn from our office.

Dr. J. A. M. and P. M. Sabbath School—J. M. Heck, Superintendent, 9 A. M.

EDWORTH ST. METHODIST CHURCH TO-DAY.—Funeral of W. J. Griffin, services conducted by the pastor. At 7 p. m. preaching by Rev. B. B. Calhoun.

RECENT PUBLICATIONS.

1. DEAD SECRET. 2. HABIL. 3. MAN AND WIFE. 4. HIDE AND SEEK. By Willie Collins, Harper & Brothers, New York.

We have received these volumes through our friends Messrs. E. J. Hale & Son, of New York. They are a continuation of the very attractive series of the works of the most popular of living novelists.

some of the most marked traits of Collins as a writer. We will embrace this occasion to add a few words to what we have previously said. Let us very briefly say what Collins is not.

He is not a great or profound writer. He is not a philosopher or a psychologist. He knows but little of the intricate workings of the human heart. He has none of Shakespeare's or George Eliot's great ability for introspection—for laying bare the motives, passions and fancies of human nature.

He is not a humorist like Scott or Dickens, or a great satirist like Thackeray. His works are not so scholarly and elegantly finished as Bulwer's, nor replete with elegance and philosophic reflections and poetic images like his. His characters generally are not real, but are mere dramatic, high-wrought and impossible. Then what is he?

He is a masterly story-teller. He deals in mysteries, in intricate plots, in horrors, murders and grim secrets. He foreshadows a plot as once complicated and concealed, and then surprises you with the ingenuity he displays in finding the clue. He awakens your curiosity in the beginning, and then holds you entranced and breathless by the constant and unexpected surprises. He is a brilliant raconteur, and probably has no living rival. He writes in a clear, direct, animated style, and does not abuse his powers or the reader's patience by glorifying crime or apothecizing scoundrels. His stories cannot fail to entertain, if they do not afford any mental pabulum. He has drawn a few characters with great skill, but after all they do not strike you as real. You know Shakespeare's, or Scott's, or Thackeray's, or George Eliot's creations better than you do the men and women you meet with daily, but Collins' characters wear a garb of artificiality. But, as we have said, he is a wonderful story-teller.

HENDERSON, July 6, 1874.

Mr. Editor.—In the late campaign in Virginia, there was no contest the negro. Halifax County Va. like Halifax N. C. has a large preponderance of negro voters. The white candidates and public speakers told Sambo to "shin on his own side," as the white race did not want his vote. They said to the white men, relying on the negroes to give them office, that they may keep from work, go with your friends gentlemen, we wash our hands of you. The result of this policy was 28,000 majority for Gov. Kenan, and more Democrats elected to the Legislature than was needed. When we make the same issue in North Carolina, the result will be the same.

BEAUTIFUL WOMEN.—The hair is the crowning glory of woman. There are few moderate defects which cannot be remedied by the proper disposition of the tresses. But when the hair begins to fall out, or turn gray, in young people, or when those in the prime of life, there is cause for real regret. What, then, is the cause, Hair's Vegetable Sulfur Hair Restorer will be found to be a first class remedy, far superior, as a sound medical medium, to anything else before the public. It actually restores gray hair to its original color, and in the great majority of cases, causes it to grow again when it is becoming thin. It is not like many popular preparations a mere wash, but a scientific discovery, induced and used by physicians of character. Address R. E. Hall & Co., New York, N. Y.—Penny's Weekly Press, Feb. 1, 1868.

CONSUMPTION.—The scourge of the human family, may in its early stages be promptly arrested and permanently cured. RAVENWOOD, W. Va. Oct. 28th, 1872. Dr. R. V. PIERCE'S GOLDEN MEDICAL DISCOVERY.

Sir.—For the last year I have been using your Golden Medical Discovery. I owe my life to it, having been afflicted for years. Did not use it but a short time before I was benefited. In that time I was very bad, not able to sit up, much, was suffering greatly, with my throat, was getting blind, had a dry cough, and much pain in my lungs. I have used twelve bottles of the Discovery and am almost well.

KATE F. WARDNER. A son of Mr. J. H. Maxson, of Chatham Four Corners, N. Y. has been cured of Consumption by Dr. Pierce's Golden Medical Discovery.—so says Mr. C. B. Casfield, editor of the Chatham Courier.

S. B. BOSWELL, Strategist at West Union, O., writes to state that Dr. Pierce's Golden Medical Discovery has effected a wonderful cure of Consumption in his neighborhood.
