BLACK LEAD MINE.-A vein of black

lead was discovered last year at a spring

on the Camp Mangum property, three

and a half miles west of this city, which

has since been ascertained to be about

three or four feet thick, and has been

traced by experts in a northerly direction

for the distance of at least tourteen miles,

and the knowing ones are of opinion that

it cyntinues farther on. Mr. P. Murray,

of New York, visiting this city about the

time of the discovery, purchased the

property, and is now engaged in develop-

ing the lead, having three pits at work

near the old camp, in the old broom sedge

field, which every one thought as poor as the land Kildee Lassiter sold to Gen'l Littlefield. Prof. Kerr, our State Geolo-gest, pronounces the lead to be of great

value. It will not answer for the many value. It will not answer for the manu-facture of pencils, etc., but for paints, lu-bricating oils and moulding purposes it is of the most excellent quality, and ex-tremely valuable. The owner, Mr. Mur-

ray, who has a factory in New York, is shipping rapidly large amounts of this article, having, up to this time, it is estima-

ted, excavated at least twenty thousand

tons of it. As the mine is further opened

up and the yield as productive as action

of a factory upon the grounds for proper ly placing it in merchantable shape.

COLLINGWOOD, Offondaga Co., N. Jan. 25, 1872. Dr. R. V. Pierce, Buffalo, N. Y. Deer Sir Allow me to give you brief history of the effect of your medicine called "Golden Medical Discovery in my case. I am now in my sevent fourth year, and naturally of firm const tution. Within the last few years, over-exercise, I have been afflicted with a complication of diseases almost incredible to relate. In the first place Catarrh, to degree that, to me, it seemed that my voice passed out at the cars, to which was added its natural ally—Brobchitis to which, at no great length of time, were added Neuralgic pains in the head and shoulders and blosting of the lower limbs, the most of which was superinduced by a torpid state of the liver, I had the advice of several eminent physicians, and tried almost every known remedy loss of strength and waste of flesh, remind ed me that I could not long withstand the ombined force of disease which was fast aring me down. I gave up all busines ade by will, had my grave stone placed position and lettered except date it, and resigned myself to my couch to swait events. Not long after this, I saw your advertisement, produced your reme-dies.—I am now on the second half-dozen potties of Golden Medical Discoveryhave a good appetite, have gained fifteen pounds of flesh —no more talk out of my wars, no more bloating of the limbs, can walk two or three miles with case, and cel that you have given me a lease of ten ratification of the Court above. That you may live long to do good to suffering humanity, is the sincere wish of Your unknown friend LUTHER COLE.
