

THE SENTINEL

MURDAY, MAY 4, 1874.

JOSHUA TURNER, Editor.

ELECTION, Aug. 6th, 1874.—For Superintendent of Public Instruction, COL. STEPHEN D. POOL, Of Craven.

A GOOD CARD.

Galaxy so long as he lived was regarded as the brains of the Republican party. The genius of Friday Jones that not at that day been fully developed, will appear from the following card, which has been circulated extensively throughout the city.

There is no man of the party, white or black, who can write a better card than Friday Jones and be ashamed.

A CARD.

FELLOW CITIZENS.—James H. Harris is asking at your hands a good deal. I am sorry to say that, as much as we have done for him, we cannot satisfy him. We have, to the extent of our power, given him every office he has asked. We could have elected him to Congress, and he would have been a credit to our State.

It should be remembered that the office that Col. Bunting now holds, and which is sought by Mr. Harris, is one of great delicacy and is one of the most important duties of a large number of white ladies would certainly refuse to undergo a private examination before Mr. Harris, should he be nominated for the said Clerkship and elected, no matter what might be the consequences of such a refusal.

Mr. Harris has twice made pecuniary speculations out of nominations to office, on one occasion getting \$1,000, some say \$3,000. We have always denied that he was a better man and more deserving than any other colored man in the Republican party.

Mr. Harris must take a look out. He is returned to the Senate, and he may be permitted to occupy a front seat. The sentiment and ideas of propriety of no lady can be wounded by Mr. Harris, while wearing the Senatorial toga.

Mr. Harris is now receiving \$600 per annum from the State Treasurer as Superintendent of the Colored Department of the Institution for the Deaf & Dumb and Blind, besides during a portion of the time he also was paid \$5 per diem as State Senator.

Two years ago James H. Harris said in the County Convention that he met to nominate candidates, that Moses Patterson, a most respectable colored citizen, ought to relinquish the idea of putting his name forward as a candidate for Governor of the county, as it was too much for a colored man to go into the parlor of a white man to hold an inquest; as it would, perhaps be necessary to do, and further added that it would be injurious if not fatal to the party in Wake county.

FRIDAY JONES. Raleigh, N. C., May 1st, 1874.

Thursday night for a mass meeting in the city of Raleigh on the 23rd May.

We have held our Township meeting and appointed delegates to the county convention. This Township will not turn out in a mass convention though I hope to be there myself. I write as the secretary of our late township convention and in behalf of the people not resident of Raleigh, to enter a protest against any other than the old style of county conventions to be composed of delegates appointed from the different townships of the county.

I have been induced to write the above for the sake of harmony and the good of the party.

I am very Respectfully yours, W. E. PELL.

Such a state of things is a sad commentary upon the interference of the Federal government with the political rights of the Southern States.
