The literary societies of the college will hold their celebrations on Tuesday and Wednesday morning. These societies will be addressed by Colonel R. Barkeley, Line and others. of Farmville. On Thursday, after the speeches of the graduating class and the delivery of diplomas, the Alumni of the college will be addressed by Professor

Charles Venable, of the University of Virginia. AID FOR THE ORPHANS.-At a meeting

of the Committees representing the different charitable organizations of the city on yesterday, at the office of the Southern Express Company, to make arrangements for the dinner to be given in this city on the 24th of June in aid of the Oxterd Orphan Asylum, a Committee was appointed to solicit from citiz as contributions to the same. We have no doubt, they will, rec.ive substantial encouragement.

----A LINE OF TELEGRAPH-FAVETTEVILLI TO RALEIGH .- Below we clip from the Favelteville Gazette a few sensible remarks upon a much desired means of communi cation-s line of telegraph from Raleigh to Fayetteville. | Our citizens would be glad to see it built, and it can be done if our neighbors will but take the initiatory steps in the matter. Parties in this city would gladly undertake and soon com plete it, and we will take pleasure in fur nishing them with their names and reponsibility if the proper effort is made. The naval store man wants it; the cotton man wants it; the merchant wants it; the politician wants it; the whole community of Fayetteville, all the people of this sec-tion, will join us in the assortion that we are sadly m need of telegraphic com-munication with all the outside world. Our business interests would be promoted, our importance as a large town would be increased, and our facilities in every respect for proving ourselves an energetic, enterprising people, would be en-larged. Lust but not least, give us the telegraph' and we will furnish the people of Fayetteville and the surrounding country with what they deserve; a nest DATLY GAZETTE, full of news, good reading, markets, &c.

We have taken some pains to ascertain the probable cest and the feasibility of this work, and we are convinced that it in very practicable. A sum inside of \$3,000 will be sufficient to set us to going, and we are assured that the Western Railroad Co. will keep the poles up and the line in re-pair, if it is constructed along the road. We believe that a company could be es-tablished, and subscriptions readily got, for the construction of a talegraphic line to Raisigh or some point on the N. C. R. R. By all means, let us taske the effort,

I have the pleasure to inform you that the Jefferson Society, on the 17th of this month, elected Mat. W. Ransom, Jr., of North Carolina, as Final Orator at the coming celebration. Mr. Ransom is the talented and accomplished son of Hon. M. W. Ransem, of North Carolins, now in the Senate of the United States. The selection of Mr. Ransom is an excellent

one and he will, at the coming celebration, do credit to his name, his State, and his Alma Mater.

A Novel Railway Suit or Five How DRED THOURAND DOLLARS.-In 1866 sleepy traveller on the East Tennessee and Georgia Railroad was carried by his point of debarkation, owing to the station no being called. He was a member of the Legislature and introduced a bill, where it is provided that conductors of passes ger trains shall call out at each station, in a lond voice, its name and the length of time the train is to stop. For each failure to do so the road must pay a penalty of one hundred dollars. His declarations are printed and consist of two thousand five hundred counts, the aggregate of penalty amounting to two hundred and fifty thousand dollars. This is the amount claimed for failure to call the names of the stations and two hundred and fifty thousand dollars is claimed for the failure to call the stopping time, making in all half a million dollars. The law is very distinct, and it is not easy to see how the

road can escape the penalty. The law provides that half of the penalty shall go to the complainant.

that he was quite lame, as he limped at

every step. 'Frequently during the first

A l'aris correspondent of the Londen Times thinks that the defeat of the French Ministry on Saturday indicates an early dissolution of the National Assembly and the return of the seat of govern ment to Paris. The Count de Chambord appears to favor the defeat of any measure which promises to place the Government on a settled basis. M. Goulard's effort to from a new Cabinet has failed. A fice illustration of pluck and "en-

ergy is given this morning in the latter accounts of the Massachusetts flood. Hayden, Gere & Co., whose brass works ware destroyed by the flood, commenced rebuilding them yesterday. They expect to have the factory finished and in operation within three months. It would be well for us if a little of this indomitable spirit were manifested nearer,

Mr. B. F. Butler's bill for the distribut tion of the Geneva award has been amend ed by the committee so as to include the claims of mutual insurance companies. The smeadment also prescribes the method of apportionment among the members of the company. No indomnity is to be allowed a member of the company for any war premium he may have paid. The first day of the great German shooting festival of the New York German Rifle Association was initiated Monday morning by a grand procession of the various rifle companies through the streets of Hoboken on their march to Union Hill Scheutzen Park.
