JOSIAH TURNER, Editor.

ELECTION, Aug. 6th, 1874.-For Superintendent of Public Instruction, COL STEPHEN D. POOL, Of Craven.

STUPFING THE POLLS.

The fraud committed at the commissioners election where only nine votes were cast, is the all absorbing topic on the street. It was the coldest fraud ever perpetrated on the continent. The guilty party are disculating a report that Mr. John C. Palmer, a democrat, was so excited over the election, that he wrote the

Heve such a story.

If Gov. Moses knew the value of a North Carelina Judge, he would surely send for Cannon, hold or did hold that Gov. Holden could not be arrested for assaulting men with deadly weapons, and putting them in jail without a charge or hearing.

OH. FOR A JUDGE.

Such ruling in South Carolina would save Moses, without calling out the negro militia to protect him from the arrest of the Sheriff, who holds a capies against him for stealing. Oh, for a Judge for Moses, that he may

not be judged. THE JONES FAMILY.

The Holden meeting on the 30th, it is said, will make Jim Jones unlead, for a white man. The white Rada say the negroes have over their share of the candidates for the Legislature. The negroes have over four-fifths of the Republican votes of the county, and they have only three fifths of the candidates for the Legislature. Friday Jones says Jim Jones shall not be unloaded. There is a good chance for Jim Jones to make money by declining the nomination, as Jim Harris did for Deweese

GRAND DUKE AND GRAND LAR-CENY, GRAND JUDGE AND BRIB-ERY, GRAND GOVERNOR AND GRAND LARCENY.

The recent arrest of the Grand Duke Nicholas, of Russia, nephaw of the Czar, for stealing diamonds to present an actress struck the old world with astenishment and the Judiciary of North Carolina stood amazed. It is appalling to think how the grandees on both sides of the water have degenerated.

The Grand Duke, of Russia, arrested or larceny. The Grand Judge of Raleigh, unarrested and unimpeached for bribery. Moses, the Grand Governor of the sovereign State of South Carolina, in- it awallowed them up in a very hurly burdicted for grand larceny, and the negro ly of death. The water they had stored prevent his arrest by the Sheriff, who olds a capias for him. When will that much talked of boon, civil reform, come ! How long can the forms of government stand when the grand heads of government, are arrested for grand larceny ?

For the Sentinel. MR. EDITOR :- I know it is hard to please all, and therefore I will not complain, but content myself by calling attention to the fact, that so far as I have seen there has been no call from the Executive Committee of the county, for town-

and votes in said meeting. This unprece-Mr. F. H. Busbee, chairman.

It does not call upon the several Townships to hold meetings, but says:

"Townships may be represented by delegates or by Conservatives in good standing without delegation, when no regular delegates have been appeinted. Every Democrat who may attend from Raleigh township is a delegate."

I ask if every Democrat from New Light or Eagle Rock, or from any Township to Eagle Rock, or from any Township to Eagle Rock, or from any Township to the control of the control of

ship in the county, is not to have the same privilege and authority, as a democrat from the Raleigh Township. There can be no fair expression of public opinion, and cheice, except by and through

have been so indifferent, as not to call a takens of the death and destruction it had Township meeting to cast the vote of a caused plunging along with it, and with Township, is not the way to get at the will and wish of the people.

GRAPHIC DESCRIPTION OF THE RESISTLES

RUSH OF WATER -AN AWFUL SPROTACLE From Letter in New York Tribune

The great ghestly horrer of that daws I shrink from contemplating. The shrinks of women and children, the dumb, helpless consternation of strong men, the Tout of the rushing waters, the crashfof timbers, writhing, gurgling, and frowning of the victims as they were selzed up, whirled onward, crushed, and wallowed up in the flood beggar description. Here was no slowly rising stream, driving its victums inch by inch from floor to floor till they waited on the roof to be delivered from the encreaching tide; nor was it configration driving the terror-stricken inhabitante from house to house and from SPRING 1874. street to street until it had laid a city in ashes. These are calamities which, uppalling though they be, give at least a sign of warning and a chance for escape But here was a village that woke with over-whelming destruction on its head that left them hardly time to pray before

The great stones in the dam and in the foundations of buildings were tossed about by it like pebbles. It seized deeprooted trees and whirled them out of the ground as a man might flirt a half planted shrub from its place. It plunged against massive walls, and as they tettered and fell, it caught great blocks of masonry and flung them far and wide in the track held, the Executive Committee called for of its fury. It burrowed under the heavy a mass meeting to be held in this city, and | boilers that with derricks and jack-screws savited all persons opposed to the city, and nowerful machinery had been slowly State and Federal administrations to seats and laboriously set in their places. It town and laboriously set in their places: it tossthem up like feathers, and using them as dented move met with no favor in the Raleigh Township meeting, because it gave arms with a great sweep of destruction and the Raleigh Township more authority and death as it went. It lifted buildings from power than it was entitled to, and more their foundations, and crushing them together, scattered their fragments, iron and a call for a county convention, signed by morter, and brick and stone, all through the fair valley it traversed. The boarding houses of the operatives and the resi-dences of the capitalists, it plucked up and whirled together, in a drifting, undistinguishable mass. It gathered re-enforcements for its work as it swept along; it took bridges in its arms and dashed

them down upon other bridges, crushing and destroying them, it rolled before it and on its great curling front large blocks of stone, masses of timber and iron, which it seemed to handle as weapons of destruction, dashing them down upon whatever stood in its path. A more awful spectacle than that of this devouring wave thirty feet high with streamers of spray above it, and all the the roar of an earthquake accompanying

Of all the inventions of the present day, probably none have created more astonishment than the London Watch.

The idea of making a Watch for the small sun of One Dollar, seems an impossibility, but it has at length been accomplished, and a perfect time indicator produced. Besides this it comprises a Compass and Sun Dial, without extra cost. It is just the thing for the pocket of every traveller, trader, farmer, boy, and everybody desiring a reliable time-keeper. It is elegantly got up in a case of gold metal, which is an exact imitation of gold, assal watch size, glass crystal, a seel and metallic works, and ware nied to denote correct time and keep in order—if fairly used—far two years. Nothing like it.

Th's perfect training in order hands will be sent in a seat case, post paid, to an address for the Dollar, or three for Two Loubler, the sent in a neatcase, post paid, to an indicase for Ohe Dollar, or three for Two Dollar, by the Sole Agents for West and South.
