

JOSEPH TURNER, Editor. ELECTION, Aug. 6th, 1874. For Superintendent of Public Instruction, COL. STEPHEN D. POOL, Of Craven.

Raleigh has thirty-four more white than registered black voters, and the blacks elect a mayor and negro commissioners by four and six hundred majority. In the last election J. Holden was elected by some 300 vote. Petersburg has a large majority of negroes, yet in the city election last Thursday, Major W. F. Gregory, a native of Granville, N. C., was elected by a majority of 445. Why can't our white men vote white? The Petersburg News

ervative victory in this city! Petersburg is 'redeemed,' regenerated and disentangled from Radical rule and domination; and we ring out the glad tidings to the good people of the city and the State with emotions which can have no adequate expression in language. At this late hour of the night, we have neither the time nor space to analyze the figures or dwell upon the glorious results that are to follow this victory. Suffice it to say that we have carried the Council and our entire ticket by handsome majorities after one of the most desperately fought battles ever fought in this State, and that the 'Old Cockade'—so long under negro and Radical rule—stands forth to-day above all of her sister cities in the splendor of her triumph and the value of her achievements.

The Executive Committee and the Ward Committees worked nobly, and we are confident that every good citizen did his whole duty. Petersburg is a million dollars richer to-day than she was yesterday, and the spirits of her people are unbounded.

Oh that our white men would act white.

SOMETHING ON HIS BRAIN.

When the lottery bill was up Gen. Leach said he thought Beck had something on the brain when the Kentuckian stood up and said: 'The custom houses have become dens of corruption, and are kept up on account of their political power to control primary elections, pack conventions, stuff ballot boxes and perpetrate frauds such as ought to be impossible in any free country. The Collector of New York has a salary of \$6,000, the Naval Officer \$5,000, and the Surveyor has 4,000, and yet during this administration the Surveyor has received for his share of penalties \$159,000, the Naval Officer \$163,000, the Collector \$174,000, and the Informer \$491,000, making a total of \$987,000 that has been paid to informers and officials, and why? It is because there was so much duress withheld from the Government! No. 10—the Phelps-Dodge case \$371,000 was paid when there was only \$1,600 due to the Government. The system is kept up so that the money stolen from the merchants can be used for the worst purposes by the worst men.'

CIVIL RIGHTS.

This is a milestone for social rights. It has long since been conceded that by three several amendments to the constitution, the negro has been admitted to call civil rights, and now stand equal toe and with the white man before the law. The fight is now equal. Senator Pratt, of Indiana, this spoke last Wednesday in the Senate.

You may still select your own society and invite whom you will to your table. No negro, against your will, may cross your threshold. You may travel in your own private conveyance, occupy your own room at the hotel and have your meals there, and the vision of the colored man will not disturb your serenity. But if you will travel in a public conveyance you must be content to share your convenience with the Indian, negro, Turk, Italian, Swede, Norwegian, or any other foreigner who avails himself of the same facility, because it is public, and should therefore be open to all. And so, if you choose to set down at a public table in a public inn open to all comers who behave themselves, you must be content to sit beside or opposite somebody whose skin or language, manners or religion, may shock your sensibilities.

This reminds us of the division and distinction made in mustering long years ago, when the captain would cry out, fall in men; all having guns and shoes in front; the cornstalk, and bare-footed men stand next.

Pratt says fall in men, fall in, all who are rich and own carriages, can ride together; all who are poor, and own no carriages can ride with the negro. Fall in men, fall in.

Of the three Raleigh papers requested to publish the proceedings of the late Caswell Conservative meeting, not one has done so. We call upon Caswell Conservatives to remember this when Agents of these papers come here soliciting subscribers.—Milton Chronicle.

We never sent an agent or solicited a subscriber in Caswell; the people of this county subscribe to the Sentinel of their own accord, and they would feel ashamed if any man of them could be induced to act upon the suggestion of their local paper.

THE WORLD'S TEMPERANCE CONVENTION. BOSTON, MASS., May 26th 1874.

Hastings, of Wisconsin, presiding. A large delegation from all parts of the World is present. Dr. Orontykyta, a 'red Indian' represents Canada. Among those prominent present, are Hon. S. B. The session will probably continue for a week. A grand mass meeting will be held in the temple Wednesday night. The Order now numbers nearly one million members. The report of the Right Worthy Grand Chief Temple, covers nearly one hundred pages, and was an able and interesting document. Interviewed Wendell Phillips yesterday. He said, Peace if possible—justice at any rate.

THE CAMPAIGN OPENED WITH BLOODSHED.

At noon, on Saturday last, after the adjournment of Court for dinner, the Conservatives held a meeting for the purpose of appointing delegates to their Congressional, Judicial and Legislative Conventions. Mr. M. E. Carter arose and announced the withdrawal of Mr. Guder and himself as Senatorial aspirants, and then proceeded to say that there was one matter which he regretted to mention, but in justice to his character he was compelled to do so; that there was a man in the house, Mr. R. M. Furman, of the Citizens, who had been circulating reports reflective upon his integrity, and that they were being slandersous.

Here, Mr. Furman arose, and said, "It is false, and I will reply to you." Mr. Carter resumed, denounced Furman as an infamous scoundrel, a coward and a liar, when Mr. Furman struck at him with his stick, the blows falling upon his arm. At this juncture Mr. T. D. Garter (brother of Melvin) advanced upon Furman and dealt him a severe blow upon the forehead with a stout hickory stick, the blood flowing in copious streams from the wound.

Mutual friends of the parties interferred and put an end to what promised to be a very serious affair, as Mr. M. E. Carter had drawn a pistol and evinced a determination to use it. When order was restored Mr. Carter continued to denounce Furman, the latter replying that he would prove it, as he had it in black and white in his (Carter's) hand writing.

We have heard various opinions in regard to the origin of this quarrel, which appears to be a number of letters written by M. E. Carter, as attorney for his brother, to Col. John Eve, of Barbourville, Ky., in relation to the Cranberry litigation. As a localizer, it is our province to state occurrences and we forbear comment, but as a human man we feel constrained to close this article with a benediction. "Deady beloved, avenge not yourselves, but rather give place unto wrath." His honor, the Mayor, settled the matter between them, so far as the peace of the corporation was concerned, by imposing a fine of \$5 each on Messrs. M. E. Carter and R. M. Furman, and \$10 on Thomas. We suppose the extra \$5 was in favor of the heaviest cudgel.—Asheville Pioneer.

TWO THOUSAND PIECES OF CITY PROPERTY CONFISCATED.—The Charleston Courier of the 22d has the following: "It is a startling fact that during the present week more than two thousand pieces of real estate in the city of Charleston have been forfeited to the State for the non-payment of State and county taxes. The owners of the property were unable to pay the taxes."

"Why not require all shippers on railroads and steamboats, and by all express companies, to properly freight?"—Petersburg News and Frederickburg Herald.

There is not a wholesale merchant in the United States, who wouldn't prepay the freight if by so doing he could save for 30 cents what would otherwise cost his customer \$1.30. And there is not a retail dealer who would buy from a man who would fail to prepay in such a case. Letter postage is required now to be paid in advance. There is no good reason why all postage should not be so paid. The folly of the present system of looking to ten thousand men for a sum which could just as easily be collected from one man is unpeppable. It would not be more foolish to collect the tariff dues from the consumers scattered all over the country instead of from the importer in New York.—Dispatch.
