The convention at Lincolnton last week nominated Maj. W. A., Graham, for the Senate. Catawba and Lincoln counties compose this Senatorial District, The county of Catawba had but one delegate resent. The people of Catawba do not believe in Conventions. If we remembe rightly there has not been such a thing in Catawba for a number of years. The last time such thing occurred the caudi date was beaten. Mr. Graham was a candidate for the same place in 1870, and his friends at that time thought that he was nominated fairly, but was manceuvered out of it, and the nomination thus cast upon another. This act preduced a schisu in the party, and the author of it aban dened the campaign at the commencement of it, and left the party to get out of the difficulty the best way that it could.

The Culver Brothers, or the "Kentucky Stoye Men" as they are know here, have made our town head-quarters for the past two months, and have been engaged in selling stoves in this and the surrounding countles, and the fact that they have sold 300 since they have been here is evidence that their stoves have found favor in the eyes of our people. THE SCARE WASHINGTON. The little flasco at Petersburg has cause

ent abroad than it ald at home, thanks to the efforts of Platt, Stowell, and their carpet bag crew to magnify the very ridiculous mole hill into a mountain of respectable proportions. The telegraph yesterday morning informed us of the later of the application of Plate and Stowell to the President for Faderal troops, which, owing to the protest of J. Ambler Smith, Mr. Sener, and our Con servative representatives, came to naught but it appears that so exaggerated were the reports from Petersburg which reach ed the President, that it was really be lieved the Government officers and property were in danger from violence on the part of the outraged people, and there fore orders were imped that in case of actual necessity troops should be called up from Fortress Monroe to protect the custom-house and its tenants. How ridiculous! But thee, what are such men not capable of doing to encompass their vile purposes ! It appears from a telegram which reached us yesterday evening, that the Federal authorities were as badly 'sold" in this thing, if not wome, than was the Chief of the Greek nation by "Tom Collius;" and the joke would be quite a good were it only as harmless. But the matter was rather serious, and might, if followed up, have led to very unfortunate esults. Yet we trust the assurances Judge Harris and other faithful represe tative have had the effect to allay all the fears that may have been excited in the breasts of the authorities by the malicious and bascless misrepresentations of our en mies, who have thus rendered them selves doubly odious to the people of Virginia, and furnished an additional proof to the world of their utter unfilness for the positions to which they have been accidently elevated by the votes of igno rant and deluded negroes against the so emn protest of every white citizen of respectability and standing in the unfortunate districts they pretend to represent. Rich, Enquirer.

We learn that the congregation of the First Presbyterian Church have conclud ed to purchase of parts of two lots running from the church in a line eastwardly to Fourth street, the entire part of the square fronting on Orange street from Third to Fourth streets being now the property of that church. The cost of the property just purchased, we understand was \$14,000. It is intended to make a parsonage of the building formerly occupled by Mr. John A. Lippitt.
