ARE YOU GOING TO PAINT?

The best is the Averill Chemical Paint, Because

1st. It has been thoroughly tested by chemists, and over 250 000 owners of residences throughout the United States for the last seven years, and pronounced by them to be the most durable paint known.

2nd For beauty and retention of color it stands far ahead of any other. Buildings have been painted with it in part, and partly with the best of other paints, both in the interior and on the sea coast, and in no case has it been excelled for beauty or permanency of color.

3rd. It is economical, and its cost is no more than the best lead and oil, and being far more durable (it wearing about twice as long as the best of any other,) and beautiful, warrants the assertion that for a period of twenty years it will save the consumer fully 50 per cent.

4th It is in liquid form and all ready for use. Purest White, or any desired shade, can be obtained without subjecting the buyer to the annoyance of purchasing oil, pigments, coloring matter, dryer, &c. It is easily spread flows freely from the brush, clings firmly to every substance it may be applied upon For wood, brick, iron, or for any painting purpose where durability, beauty and preservative properties are requisite, it stands unrivalled. Though composed of the most indestructible materials known to science, an analysis of the Averill Chemical Paint shows it to be (unlike lead and most of the other paints) free from poison. It will not blacken or discolor by the action of the sulphurous gases so prevalent on our marshy rivers and coasts.

5th. Requires no skilled painter. Any one can apply it.

SUPREME COURT.—Court met at the usual hour yesterday, all the Justices present except Chief Justice Pearson. The following causes were argued:

Josiah Turner, Jr., ex. vs. W. W. Holden, et al. from Warren. No counsel for plaintiff; Moore & Gatling, Argo, Ball and Keogh for defendant.

Gideon Perry et al. vs. H. M. Tupper, from Wake. Fowle and Lewis for plaintiff; Smith & Strong and E. G. Haywood for defendant.

Pullen & Moorehead et al. vs. Heron Mining Company, from Wake. Moore & Gatling for plaintiff; Fowle and Mason for defendant.

ESCAPED CONVICTS.—Two negro convicts escaped from the penitentiary, several weeks ago, since which time they have been lurking around the city, defying as yet the police, who have been after them, on several occasions, and who are still on the alert for them. On yesterday, policemen Forrest, Dunston, Durham, Crossan and Lane, went out on a raid after them. They jumped the bucks in the woods, near Maj. Devereux,' but they proved too fleet of foot for the stars, and notwithstanding Mr. Forrest shot at one of them twice, made good their escape. One of the convicts is the party who stole Mr. Nick Denton's cotton some time since. They are represented as desperate characters, and steps are being taken to secure them. They were demanding citizens clothing from persons on the suburbs, yesterday, anxious to get rid of their convict garb.

WHY ARE HOTEL CLERKS' HEADS BALD?—A Boston newspaper, as if aggravating conundrums enough had not been started already, want to know, "why two-thirds of the hotel clerks are bald?" If this be the fact, of which we are not sure, it may be because the forces of nature have been diverted from the scalp to the cultivation of superior intellect. Possibly these gentlemen sell their hair to raise money for the purchase of short pens. Or the consignment of innocent and way-worn travellers to the sixteenth story may subsequently breed remorse, (though we doubt it,) and remorse may in turn, produce the billiard ball baldness. But it isn't a problem with which in this hot weather we care to grapple.

KILLED BY LIGHTNING.—We learn that a Mrs. Morton, of Anson county, residing about five miles from Wadesboro, was struck by lightning and instantly killed during the severe thunder storm which prevailed last Sunday afternoon. We could not learn any of the particulars of the sad accident.—*Wil. Journal.*

A peculiar circumstance was told us yesterday. A tree standing within about sixty feet of the line of Railway one mile east of Laurinburg, was struck by lightning last Sunday afternoon and the electric fluid ran along under the ground, its course having been easily traced on the surface, and struck a rail on the track, which it displaced.—*Wilmington Journal.*

At the commencement of Hobart College, Geneva, N. Y., Mr. John Cameron Buxton, of Asheville, N. C., delivered the Latin Salutatory, and was awarded the Prize Gold medal for the best Essay.

This young gentleman is the son of the Rev. Jarvis Buxton, D. D., one of the finest scholars and most distinguished divines in North Carolina.—*Hillsboro Recorder.*

The receipts in aid of the Oxford Orphan Asylum for the month of June, show a very gratifying increase over those for the month of May. The contributions, in cash from the Masonic Lodges, Fairs, exhibitions and private individuals show a total of $903 49, while the gifts in kind were quite liberal, though not so much so as usual.

We were shown last Thursday, by Mr. James McCollum, a nugget of gold found by a negro man, on the side of a cultivated hill, on his place, four miles east of here, while hoeing cotton a day or two before. This specimen weighed twelve penny-weight, and was most beautiful gold. He also had a smaller piece, weighing four penny-weight, found sometime ago, on the side of the same hill. Gold has frequently been found on this hill by persons at work on it immediately after heavy rains. Two years ago, Mr. Tumberlin found a nugget which weighed eleven ounces.—*Monroe Enquirer.*

As the warm weather comes on the number of candidates increases, says the Cherokee Herald. We are afraid if this thing keeps on there will not be enough disinterested men in the county to hold the election. Every day some ambitious aspirant comes in and says, "I didn't want to run but so many urged me to allow my name to be used, that I could not refuse."

Candidates young candidates old,
Candidates timid, candidates bold,
Candidates fat, candidates lean,
The like of candidates never was seen.

It is more than probable that the present term of the Supreme Court of North Carolina will close the professional career of Judge Pearson. He is now ill at Raleigh with Bright's disease of the Kidneys, universally conceded by the Faculty to be incurable, and the bar and the State must prepare for the final withdrawal from professional life, of one who though of late years marked with some striking defects, ranks through the Union with the most distinguished legal lights and legal counsel.—*Hillsboro Recorder.*

On Saturday, an Italian who has been working for Mr. W. D. Alexander, of this county, was arrested on a peace warrant and brought before justice A. H. Mantle, of this city the charge being that he had threatened to kill Mr. Alexander, personal or incendiary injury. In default of $200 bond, he was committed.

Yesterday another Italian, who had been an employee of Mr. John Springs Davidson, was brought before the same magistrate on a similar warrant, the charge in this case being that defendant had made a threat that he would burn Mr. Davidson's barn unless that gentleman paid him $27.50, which he alleged was due him. Not being able to give bond for his good behavior, he was put in jail.—*Charlotte Observer.*

LETTER FROM THEO. N. RAMSAY.

ASHEVILLE, N. C., July 5, 1874.

Editor Sentinel:—I reached old Fort Friday at noon from Salisbury. At the latter place in company with ten other passengers, I took the stage and after seven hours ride was landed safely at the Eagle Hotel in Asheville. I have visited Ireland, Scotland, England and France, and have not seen as pretty scenery in either country as that in Western Carolina. Western North Carolina is the place for the people of the State during the summer months and also for themselves.

Tell Col. Tucker to come up and see the Switzerland of America.

I am struggling for a grand temperance campaign through all the counties west of the Blue Ridge. To-night I plant the snowy white banner of Temperance in Asheville. Everybody is for consolidation to-day, but to-morrow they will be for temperance.

Saturday the 4th, was celebrated by the colored people generally. A procession of mounted men headed by a brass band paraded the principal streets. They were dressed in red uniforms. Speeches were made by distinguished citizens during the day, and everything passed off quietly.

Quite a number of visitors has arrived during the past week. Among the list I noticed the names of the following from Raleigh: O. L. Burch and lady, Mrs. E. S. Lougee, Mrs. W. A. Hearne, Messrs. T. R. Purnell and J. L. Flowers.

The weather is delightful and the nights are so cool that I have been compelled to sleep under cover. Quite a difference I assure you, Mr. Editor, between Raleigh and Asheville.

Provisions are cheap here. Eggs, chickens and butter in abundance. Ice only one cent per pound. Come up Mr. Turner and enjoy the butter milk.

I am stopping at the Eagle Hotel. E. T. Clemmons is proprietor and W. A. Weddon, agent. The table is well supplied with the best the market affords. Servants attentive and polite and charges moderate. Mr. Weddon was for many years a citizen of Raleigh. He has the reputation of being one of the best hotel keepers in the State. Mr. Clemmons is the proprietor of sixty fine horses and eleven stage coaches, and will send his passengers to any point they wish to go. The only thing lacking in Asheville is good side walks, and in the language of a great Judge, fences "pig tight, horse high and bull strong."

Yours, THEO. N. RAMSAY.

LIVER AND BLOOD DISEASES.—By R. V. Pierce, M. D.: A healthy liver secretes each day about two and a half pounds of bile, which contains a great amount of waste material taken from the blood. When the liver becomes torpid or congested, it fails to eliminate this vast amount of noxious substance, which, therefore, remains to poison the blood, and be conveyed to every part of the system. What must be the condition of the blood when it is receiving and depositing each day two and a half pounds of poison! Nature tries to work off this poison through other channels and organs—the kidneys, lungs, skin, etc., but these organs become overtaxed in performing this labor in addition to their natural functions, and cannot long withstand the pressure, but become variously diseased.

The brain which is the great electrical center of all vitality, is unduly stimulated by the unhealthy blood which passes to it from the heart and it fails to perform its office healthfully. Hence the system of bile poisoning, which are dullness, headache, incapacity to keep the mind on any subject, impairment of memory, dizzy, sleepy, or nervous feelings, gloomy forebodings, and irritability of temper. The blood itself being diseased, as it forms the sweat upon the surface of the skin, it is so irritating and poisonous that it produces discolored brown spots, pimples, blotches, and other eruptions, sores, boils, carbuncles and scrofulous tumors. The stomach, bowels and other organs cannot escape becoming affected, sooner or later, and we have as the result, costiveness, piles, dropsy, dyspepsia, diarrhœa. Other symptoms are common, as bitter or bad taste in mouth, internal heat, palpitation, tearing cough, unsteady appetite, choking sensation to throat, blowing of stomach, pain in side or about shoulders or back, cold sense of extremities, etc., etc. Only a few of the above symptoms are likely to be present in any case at one time. The liver being the great depurating or blood cleansing organ of the system—set this great "housekeeper on our health" at work, and the foul corruptions, which generate in the blood, and rot out, as it were, the machinery of life, are gradually expelled from the system. For this purpose my Golden Medical Discovery, with very small doses daily of my Pleasant Purgative Pellets are pre-eminently the articles needed. They cure every kind of humor from the worst scrofula to the common pimple, blotch or eruption. Great eating ulcers kindly heal under their mighty curative influence. Virulent blood poisons that lurk in the system are by them ejected of their tenure, and by their persevering and somewhat protracted use, the most tainted systems may be completely regenerated and built up anew. Enlarged glands, tumors and swellings dwindle away and disappear under the influence of these great resolvents.

The system frequently gets out of order and should be at once regulated, else other troubles will ensue; when physic is needed take Pierces' Purgative Pills; they are a safe wholesome, and natural medicine.

The Hillsboro correspondent of the Wilmington "Journal" says that Hon. Wm. A. Graham returned to that place on Sunday morning from Washington city, whither he went in connection with his duties as arbitrator in the Virginia and Maryland Boundary case. He met Hon. Jeremiah Black, who appears on the part of the State of Maryland, and after a preliminary hearing of counsel on both sides they postponed further action until they are authorized by the two States to their commissions. Gov. G. appears of late much improved in health, especially so by his recent trip to Washington.

The Blood owes its red color to minute globules which float in that fluid, and contain in a healthy blood, a large amount of iron, which gives vitality to the blood. The Peruvian Syrup supplies the blood with this vital element, and gives strength and vigor to the whole system.
