Coroner Hartfield's nquest was uncertain as to whether he had been killed by a sudden stroke of the

driving-wheel or by a too hasty collision with a pane' of the fence. The machine after this accident, struck out with freedand, passing the residence of Captain

Les, soon made its way across in the direction of Boisseau's meadow, but was arrested in its progress by a large log, which tilted the balance-weight back of the centre of motion, and the wild wagon was standing gently at rest when overtaken by the coroner and his party, who were following along to take care of the killed and wounded Since the tragic death of the inventor no man has dared to mount the fiery, untamed steed, but our informant assures that it will be on exhibition at the fair grounds, and we invite the attention of inventors and machinists to its culiar mechanism. THE RADICAL NOMINATION IN SOUTH CAROLINA - The Philadelphia Chronicle Bate and county Rights for sale. Address M. KELLY, Patentee, june Ealeigh, N. C. says :

The nomination for the governorship a South Carolina was knocked down, on Saturday, to Chamberlain, a Yankee who was attorney-general during Governor Scott's thieving administration, and who appears to represent the curpet-bag interst. There was a delightful scene in the convention toward the close of the sale the leaders of each faction calling their opponents thieves, and threatening to put them in the penitentiary, as doubtless they might, for there is no doubt that the accusations were all true. Whether the native negroes or the imported whites are the greater thieves we cannot see, but as the latter triumphed in this edifying contest, it would seem that they have in some way got more money than the oth-ers.
