Telegraphic News. MORE OF THE GRANITE MILLS DISASTER

The Granits Mills have been for some time running full time, and turned out five thousand pieces of print cloth per week, and it is supposed that a considerable amount of stock is ruined, either by fire or water and smoke. A large amount of machinery is also rendered useless. Loss of life forty; mostly young women SECOND DISPATCH.

It was shout seven o'clock when the slarm was struck, but the firmen wer unable to get the correct location, and it was ten minutes later before they succeeded in discovering it, during which time the flames spread with such rapidity that they were pouring out of the fourth and only story mindows of the lower of the

columns of smoke burst through the spool room door. A crowd of little children surrounded the overless and with him rushed for the stair case, but they were brood back by the flance; then all made for the elevator, but it would not work at this juncture Leaping from the windows commenced, and a number of men in this room began uncoiling long rope to let the terror stricken operatives to the ground. Several were landed in safety by this rope, when it was burned off 25 feet from the ground. The smoke became so dense that those who remained crowded the windows for air, some leap ing headforemost, their brains went flying many feet, others suffocated, fell back and perished in the flames.

IMPORTANT TO THE SOUTH. PROVIDENCE, Sept. 20th.

A large meeting of manufacturers was held at the Board of Frade rooms to-day for the purpose of conference upon the subject of the opressed state of the market for cotton and woolen goods.

Remarks were made by several gentle men and it seemed to be generally agreed that unless the production of goods was diminished and the enhancement of prices obtained it would be necessary to stop the milts altogether to prevent the impoverishment of their owners.

A committee was appointed to confer with manufacturers generally on this outdeem expedient.

The following resolution was unaniously adopted :

"Resolved, That as the sense of this meeting, immediste curtailment of the production of our cotton and woolen mills is absolutely necessary for the conservation of the interests of our State and country. St. 74

FROM LOUISIANA.

NEW ORLEANS, Sept. 20. When Gov. Kellogg reached the executive office this a. m., Gen. Brooks approached the Governor and informed him that he was prepared to turn over to him the State house and all records and pub. had come into his possession at the time of the surrender of the insurgents to his command. Everything, the General said, would be found precisely in the same condition as it had come into his hands. The Governor secepted the transfer and Gen, Brooke thereupon immediately re-
