1st. Because it is one of the oldest Companies in the Country, and past the day of experiments.
2nd. Because every policy-holder is a

nember of the Company, entitled to all its advantages and privileges, having a right to vote at all elections for trustees, and thus has an influence in its management. 3rd. Berne it has as large a percentage of asset i liabilities as any life Insurance Con , any in the Country.

4th. Because by economical ment, its ratio of expenses to tot s far below the average of Life Companies. (See Official Insurance Reports.)

5th. Because it has declared imore dividends in number, and of a Larger Average Percentage, than any Company

in the United States. For example: Policy No. 16, for \$5,000. has been paid to the widow of a Philadel-phia Merchant, upon which twenty-three dividends had been declared. Averaging fifty-seven per cent. Had these dividends. een used to purchase additions to this Policy, \$6,046 more would have been realized, -making the Policy worth \$11,-

6th. Because it is liberal in its management, prompt in its settlements, agic beyond a contingency, and its rates are as ow as any first-class Company 'n the Country.
