GOOD FORT. The partridges in the neighboring country are reported quite plenty though the cholera has been at work among them. Our friends Bob Williams and Jimmie Boylan were out a few hours yesterday evening and they bagged twenty-three birds for and one. Bob got 12 and Jimmie 11, but the former got the last shot on the latter. Both of the young gentlemen are remarkably fine shots. Our senior is a deer hunter so we rather think we will keep up our old profession and go out with these young men some day bird hunting but we are a field they are too quick for us.

The editor of the SENTINEL, while loading his gun twenty years ago had a flask of powder burst in his eyes and face. We learn these facts from the senior and mention them by way of comfort to Masters Doved and Boyan, that they may see other boys before them, have shot people. We are at a loss what to say, whether to admonish the boys to be more careful or to advise Mr. Henry Bryan and his little son to keep out of the "range."

Chignon is dead. The great deity of the feminine toilet is no more. Paris has given it up for the sake of economy. It was very costly. Every year there was taken into Paris 110,000 pounds of human hair, it is stated, in a raw or unworked state worth \$900,000, and to be made into chignons. Now all that money can be spent in some other nonsense.

27 Years Old. Six Reasons Why YOU SHOULD INSURE IN The Penn Mutual LIFE INSURANCE CO. 921 CHESTNUT STREET. 1st. Because it is one of the oldest Companies in the Country, and past the day of experiments. 2nd. Because every policy-holder is member of the Company, entitled to all advantages and privileges, having a right to vote at all elections for trustees, and thus has an influence in its management. 3rd. Because it has a large percentage of assets' liabilities as any life insurance Co. any in the Country. 4th. Because of economical management, its ratio of expenses to total income is far below the average of Life Companies. (See Official Insurance Reports). 5th. Because it has declared more dividends in number, and of a larger Average Percentage, than any Company in the United States. For example: Policy No. 16, for \$5,000, has been paid to the widow of a Philadelphia Merchant, upon which twenty-three dividends had been declared. Averaging fifty-seven per cent. Had those dividends been used to purchase additions to this Policy, \$6,046 more would have been realized, making the Policy worth \$11,046. 6th. Because it is liberal in its management, prompt in its settlements, safe beyond a contingency, and its rates are as low as any first-class Company in the Country. PRINCIPAL FEATURES.—Small expenses, absolute security, large returns, prompt payment of losses, and liberality to the insured. SAMUEL C. HUBY, President. R. E. STOKES, Vice-President. R. S.
