WANNIBOTON, Oct. 80. Shrewd politicans here from New York say the election of Tilden is conceded. Republicane are stated to be anxious to trade votes to secure the Legislature, thus saving the successor to Senator Funton, but the Democrate want all Timid gamblers are betting a hundred dollars to s xty dollars on Tilden. John Morrisey is taking all the bets he can get two to one.

KELLOGG "ALMOST" KILLED.

NEW ORLEANS, Oct. 30.

In a colision between Major E Burke and Gov. Kellogg, Burke drew a whip and Kellogg drew a pistol and fired, grazing Burke. Burke then drew a revolver and fired three or four ineffectual shots Major Burke and Gov. Kellogg are congratulated by their friends upon the laughably and harmless termination of the affair.

WESTERN RAILROADS.

WASHINGTON, Oct. 80. There is no truth in the report that certain Western railroads have combined against the Baltimore & Ohio railroad. Their freight and passengers have equal facilities with the other great trunks.

POREIGN NEWS. Berlin, Oct. 30.

In alluding to Aleace and Lorraine, your co-operation is now for the first time invited to instituting a budget for Alsace and Lorraine. You will, here, have the opportunity of obtaining a more thorough knowledge of the resources, requirements and institutions of those provinces, than was hitherto possible under the old sys-tem of yearly administrative reports. You will show to our compatriots of the Upper Rhine the interest the whole nation take in this most ancient German territory

DEERLESS STEAM WASHER AND

THE LATEST, BEST AND CHEAPEST

That Steam Washurs are better than others is now generally conceded. That the Feerless is the best of fitem V sabers will be as readily admitted by every one who sees it and tries it with others.

Its construction is such as to rush the largest quantity of water through the clothing in the shortest time, and to compell all the water to go where it is desired, and prevent its going anywhere else. It has no bungling valves to make the water flow by this and cease to flow at intervals—but causes it to flow steadily—pouring sinteen streams on the whole surface of the clothing. Then the water has not to descend to the centre or soft ends of the false bottom to get back to its starting voint but goes straight down from where it falls, washing all parts of the clothing—now untouched by its sapid current. It rushes through the clothing many times per minute and cleans them in 15 to 50 minutes it. The cost of the machine may be saved very soon in difference in wear of the clothes.

It may be saved very soon in the difference of labor required.
