There is a swarm of Baltimore drum ers in the city. Read the advertisement of Messrs

Col, Stephen D. Pool will assume the daties of Superintendent of Public Instruction as soon as the Legislature shall examine the returns and declare him elected.

The Senate Chamber end the Hall of the House of Representatives are being enovated to a considerable extent preparatory to the assembling of the Legislature, Monday.

Some of the Legislative members have arrived in the city, and by Sunday no doubt a majority of those composing the two Houses will be with us, to say nothing of a score of applicants for the patrousge to be given out.

The Rescue firemen are good on a start to conflagration, but they can beat all sliding off when the engine is to be hauled back to her stand. It was well attested last evening, when the Senior, ye Local, the City Clerk and an ex City Commissioner through compassion, had to take hold of the rope,

The Berger Family will open at Tucker Hall to-day week for two nights, the 20th and 21st instant, with a matinee on Saturday afternoon. The troupe has been reorgan'zed an i greatly improved. Old favorites, they will attract "splendid houses." Tickets can be obtained at Carmet's Drug Store.

NEW YORK MARKETS.-Cotton in New York yesterday was steady, with sales of 1,436 bales, at 14 5-8a15. Futures closed steady. Rosin and turpentine unchanged. Money active. Exchange higher, Gold quiet and firm, 101-4a10 3 8. Cov'ts active. State bonds quiet and steady,

PERSONAL. -We had a pleasant call this morning from Mr. P. H. Winston, Jr., Editor of the Albemarie Times. Mr. Winston is a candidate for the Reading Clerkship of the Senate.

Col. R. F. Armfield, the Scoator from Iredell and Wilkes, has arrived in the city, and has taken rooms at Mrs. Pullen's Boarding House on McDowell street, He is one of the ablest of new Senators.

MAYOR'S COURT,-His Honor Mayor Holden, had a slim court this morning. Two nice young "roosters" were marched up from the cal-boose, and answered to the charge of being intoxicated and disorderly on the streets. They were meek as lambs, but were made to contrib ute a V. each to the city treasury, not however though without some hesitation upon their part, which was quickened by the Mayor's saying, "Five dollars fine or two days in the guard house." Enough said. They came down with the stamps, and departed for a "sods," singing as they emerged, "Now all young men a warning take, and keep out of the way of the big black snake."

BURNING OF A COTTON GIN AND SAW Mill.-About 8 o'clock last night our citizens were startled by the cries of fire and the ringing of the alarm bell.

The firemen were quickly out with their several apparatus, but could not reach the scene of corflegration, it being the new gip house and saw mill recently erected by Mr. Wiley V. Clifton, located on Walnut creek, running through the lands of Moses Bleds e, Esq., South of the city, some mile or so distant.

The larid flames lighted up the sursounding country for miles. The building and machinery were valued at \$3,000, and was insured for \$2,000. The cotton was insured for \$500, both in the Old Dominion Insurance Company, of Richmond, Va., and Albemarle Insurance Company, of Charlottesville, Va., represented by Lawrence & Winston, of this city, and the Southern Mutual, of Richmond, Va., by Berkley & Brown, also of this city-tue insurance in each company being \$883 33

We regret the calamity that has been visited upon Mr. Clifton, who purchased some forty acres of land of Mr. Bledsoe, and built a gin house and saw mill at a considerable outlay. He had just gotten fairly under headway. He has the sym pathy of the entire community in his present loss. About a year ago Mr. Bledsoe had a gin house burned upon the same spot, and one about two years sgo making three gin houses destroyed by the hand of the incendiary upon this property.

Each township out of every county and each ward of every city in the two States, is entitled to two delegates and two alternates, or as large a number as each township or ward may choose to send.

THE MANNER OF SELECTING DELEGATES AND ALTERNATES :

The selection may be made at such time and place as the farmers of each township and the merchants of each ward may designate; and we suggest that it be done at once to secure a large delegation. The Chairman, or other officer of the meeting, should give each delegate and alternate written evidence of his selection, and forward a list of the names of the persons a lected to the Clerk of the Council at Petursburg, Va.

Seston Post] - The odds were at the last very imposing and powerful against which General Banks sustained, singlehinded, his gallant fight, and finally wrested his richly merited triumph. An independent candidate, who had openly repudiated and defied the Administration when it rained its moult on the head of Summer, he was the one of all others se beted for punishment by a defeat which it was supposed had been rendered cer tain. To place it beyond conjecture the Administration had crowded the navy ward with idle hirelings, whose useless pay cost the people five thousand dollars a day, dismissed from employment every workman who declined to yield his vote for an unworthy opponent, and ordered into the district speakers like Dawes and Blaine, with itinerant refuse from other States, whose role had been to excite alternately public fear and prejudice by crying up another rebellion at the South and sowing broadcast low and dirty falschoods respecting the Democratic party. For all this trouble and cost, and after so much solicitude and active hatred, the result is the triumphant election of General Banks by the people. Let the administration take the lesson to heart among the many others of a similar character which are thrust into its face. General Banks is obnoxious to the chiefs at Washington, and has no favors to expect or fears to entertain. He will be likely to make effective use of his powerful advantages in the new House, and prove of signal service, not to his district only, but to the whole courtry.

The season for coughs and colds is rapidly approaching, and every one should be prepared to check the first symptoms, as a cough contracted between now and Christmas last frequently all winter. There is no better remedy than Johns.n's Anodyne Liniment. For all diseases of the throat and lungs it should be used internally and externally.

Lung fever, common cold, estarrhal fever, and nasal discharge of a brownish color in horses, may be checked at once by liberal use of Sheridan's Caealry Condition Powders.

COL. MOSBY'S FEDERAL INFLUENCE,-It seems that the result of the late elections has not abated one jot or tittle of Colonel Mosby's commanding influence with the Administration, for on Friday last, when he heard that Miss Amelia Jackson had been discharged from her office in Washington because of the discovery that she was the daughter of James W. Jackson, who killed Ellsworth in this city, he and had her immediately reinstated .-

NEW GARDEN FAIR.-New Garden Agricultural Society held its annual Fair on last Saturday. The day was very pleasant and a large crowd was present The confusion accessary upon the entering of articles on the day of exhibition, destroyed much of the pleasure of the occasion, and prevented many of the articles showing to but little advantage; nevertheless all were pleased and as a whole it was a very creditable affair.

The stock was fine; the ladies depar ment good-displaying much taste and skill; the display of grain, fruits and vegetables was better than we saw either at Richmond or Raleigh. Our farmers may well be proud of their products.

At the close of the exhibition, Prof. W. C. Doub, of Greensboro Female College, delivered the address, which was listened to with great pleasure by the crowd. Rev. Dr. Smith also made a few very appropriate remarks.

The best of order was maintained upon the ground, and we are pleased to say no thimble-riggers or side shows disgraced the scene.

All day yesterday artices were entered very treely, and the figures show an increase on fart year up to the Same time.

All the afternoon entries were made at the rate of 75 to 100 per hour, and the showing in every department was very beautiful display; the agricultural department is filling up fast; the mechanical department, is better, so far, than ever before; the food and condiment department, though rather meagre as compared with the rest, was gaining ground when our reporter left .- Pay.
