ALL ABOUT.

Sheridan goes to New Orleans at the personal request of the President.

Forty-seven Georgia gin houses have been burned since September 1.

Seven building lots in Atlanta brought an average of \$375 a foot front.

The Gonzales (Texas) Index announces the arrival of Texas in the family of the foreman.

The Sandwich Islands are twelve in number, and altogether about the size of Connecticut and Rhode Island.

Prescott, Arizona, enjoyed a rain storm of eighty-seven hours about the middle of November, during which the fall is estimated at even six inches.

McCleachy, the Danbury News man ad interim, had a fight with his proprietor (T. Donovan) the other day and is said to have left the office forever.

The colored citizens of Oberlin, Ohio, have adopted resolutions protesting against the passage of the civil rights bill as reported by the Judiciary Committee of the House.

The following numbers drew the principal prizes at the Masonic Relief Lottery in Norfolk: No. 11,445 drew \$7,500; No. 24,195 drew \$6,250; No. 47,003 drew \$5,800.

Gen. Morgan L. Smith died suddenly at Williams, Washington City, while Mrs. Smith was at the theatre with some friends.

Thomas Caldwell, President of the South Nashville Street railway, undertook to ride with a new driver the other night, telling him in response to the demand for fare, "I own most of this road."

An agent of the Massachusetts Board of Health is traveling on the railroads of this State testing the air on the cars, more particularly in the smoking cars.

He carries a pair of bellows and a small vial, partly filled with a fluid, into which the air is forced with the bellows, and subsequently it is analyzed and the impurities separated.

A Raleigh correspondent to Rowell's Newspaper Reporter (N. Y.) says: A cheap hoisting machine has just been made a success by W. B. Cooke, Esq., an old type, and now Assistant Principal of the Deaf, Dumb and Blind Institute.

The advantage of the Cooke patent over the Hoe is not only in the cleanliness of its work, but the celerity of its operation.

There is not a particle of dust remaining on the work when it passes through the machine, and one hand can bronze as fast as three presses can turn out the work.

The greatest advantage, however, over the Hoe, is that the Cooke can be sold for \$300, while the price of the Hoe is \$1,300.

Some of the advertisements of the rig of Charles H. are extremely plain. The greater advertiser of the time, the man who most deserves a statue as the founder of advertising, was one John Houghton, F. R. S., who started a weekly paper in 1693, in which he advertised various wares, the nature of which can best be understood from the following specimens:

Now I want a good usher's place in a Grammar school.

I want a young man that can write and read, now and till a garden, use a gun at a deer, and understand country sports, and to wait at table, and such like.

If any young man that plays well on the violin and writes a good hand desires a clerkship, I can help him to £20 a year.

I want a complete young man, that will wear livery, to wait on a very valuable gentleman, but he must know how to play on a violin or flute.

I want a genteel gentleman that can play on the violin to wait on a person of honor.

If I can meet with a sober man that has a counter tenor voice, I can help him to a place worth £20 the year or more.

One of the most extraordinary advertisements is a notice by his Sacred Majesty Charles II., of date 1664, that he purposes "to continue the healing of his people for the Evill during the month of May, and then to give over until Michaelmas next." This throws all other quack advertisements into the shade.

PERSONAL.

What has become of the Charlotte Observer?

Wilmington has a grand mask ball tomorrow night.

They are eating green peas fresh from the garden, in Savannah.

Prof. Frost, astronomer and ventriloquist, is in Wilmington.

There were three hundred men from the ranks at the reunion of the Hampton Cavalry brigade at Augusta.

Piscataway (Va.) merchants now refuse to trade with farmers for butter unless it has been thoroughly cleaned.

The Democratic Central Committee met in Vicksburg last night and postponed the Convention called to meet on the 8th of January till the 7th of April.

Roger Williams' watch was exhibited at a recent meeting of the Rhode Island Historical Society. It is still running, and is apparently in as good condition as when he wore it in this country in 1631.

This is the sort of notice that an Oregon lecturer gets from his village newspaper: "Col. J. M. Meek has shouldered his jaw bone, and will tell the people more than they ever dreamt of about mining."

Recently the local paper at Grass Valley said: "The prettiest girl in Grass Valley doesn't carry herself straight enough when promenading." For a week after that all the Grass Valley girls walked about like so many ramblers, and every girl said: "That local paper! Me, don't I walk straight?"

The memory of our oldest citizen was not back to the time when this city was blessed with such weather in the month of December as we have enjoyed in the few days past.

The range of the thermometer on Monday was 60, 66, 72, 76, an average of 69 degrees; 12 minutes, and on yesterday it was 144, 76, 74, 74, an average of 72 degrees.

Under the influence of such sunny weather, bicyclists, bicyclists and bicyclists are having in the open air, even the sky riders, and pines are sitting like new in the air with their fingers.

NEW JACK. The following account, quaint and clever in form, of the origin of this famous brand of smoking tobacco appears in the Harvard Liberator.

The reader who will enjoy this rough sketch, must take down his handkerchief, rub it kindly with his handkerchief, insert a fresh wad, fill the creamy bowl with the fiery flakes of fine Virginia, and read, and puff and smile, as he must.

"There is a kind of tobacco, very good called 'New Jack,' that is sold here to be so-called was on the 18th of King James II. did greatly dislike to smoking of tobacco, holding it to be a vulgar sign,
