million two hundred the issuing of one million two hundred thousand dollars of bonds of the State to the Chatham Railroad Company in lieu of a like amount of mortgage bonds of said railroad, also provided that the company might at any time before maturity take up the bonds deposited with the Public Treasurer by substituting in lieu thereof coupon

bonds of the State or other indebtedness of the State.

Under this provision of their charter you say that the R. and A. A. L. R. R. sought to take out of the Treasury its bonds and put in "repudiated war bonds" (meaning the bonds authorized to be exchanged by B. B. 422) that the Treasurer refused, and that the Supreme Court sustained him.

In this you are mistaken, and if you will refer to 69 N. C. Reports, pages 499 and 502, you will see that the only two suits ever had between the said railroad and the Treasurer, it is decided:

ded:

1st. That the Treasurer is not bound to take any bond issued after the date of said ordidance of March 14, 1868, which will embrace all the special tax bonds.

2d. That the Treasurer is, bound to receive in lieu of the bonds or other valid indebtedness of the State issued and outstanding prior to the passage of said

This rict. Attorney. If he should be elected—which God forbid! would be be cutitled to his seat? Is not a seat in a State Constitutional Convention an office, within the meaning of the statuer law which forbids Federal officers from holding offices under the State? Under the state? Under the state of th bonds issued during the war for Inter-nal Improvement purposes, under acts passed prior to the war, for detailed statement of which see Treasurer's restatement of which see Treasurer's re-port for year ending Sept. 30th, 1874, page 34) These bonds certainly could in no sense be said to be assed for the purpose of carrying on the war, since they were authorized before the war was anticipated

I will here also state the further methat at the time of the introduction of H. B 422 the R. and A. A. L. R. R. had already redeemed from out the Treasury about seven hundred thousand dollars of its bonds, leaving remaining five hundred thousand.

Let us now trace the history of H. B. 422 as it passed into a law. It was included the control of the 28th day of January.

Let us now trace the history of H. B. 422 as it passed into a law. It was introduced on the 28th day of January, nearly two months before adjournment, and was referred to the Committee on Internal Improvements. I had it referred to this committee because I desired it to be scrutinized (as indeed all acts should be,) and I knew the competency of the committee for this work. The able Representative from Cumberland, Major McRae, was its Chairman, Col. Tate, of Burke, also chairman of Committee on Finance. Mr. Oaksmith, who had given much time to finance

When the bill was considered before the committee I was sent for and sta-ted all the facts within my knowledge connected with it, as well as the objects of the bill The only question then arising, as I understood under the decisions of the Supreme Court before referred to, as well as in right, was, whether the bonds issued during the war for Internal Improvement purposes under acts passed before the war were of the valid indebtedness of the State. mitteee, of which Messrs. McRae and Tate and myself were members, had before that time decided in the affirmative. Owing to the time the Internal Improvement bonds issued during the war were sold, they had nearly all fallen into the hands of citizens of the State. Some of the holders of these came before the Committee on State Debt and Liabilities, and asked that their claims be considered in the adjustment of the debt of the State, and as that Committee were of the opinion that when our own citizens furnished the means to build our own railroads they were as

exactly the same from its debtor, the R. and A. A. L. R. R. L., as it is proposed to pay its creditor the holders of the honds issued to said railroad company. In accordance with this view, after the State Debt bill passed, the committee reported en the 12th of March (see Journal of House, page 657) that there was no necessity for or objection to the passage of House Rill 422.

I did not call the hill up, in fact gave it no attention, as I was necessarily absent some days during that week in attendance upon Chatham court, until some time after my return I heard it announced as it was regularly reached upon the calendar, was read and failed to pass for want of a quorum; then at the request of the gentleman from Alleghny, Mr. Field, I arose in my place, stated all the facts in connection with the bill, its purport and intent, and it passed by the requisite vote. It was then engrossed in its proper order, sent to the Senate, and from the character of that body for intelligence and integrity, it passed that body according to parliamentary order, was enrolled and ratified.

T regret it has taken such length to state the facts connected with and the history of this bill to show that there was no haste, fraud or unfairness whatsoever connected with its passage by a Democratic Legislature; and further, that when this exchange is made that by the care taken by those whose duty it was to guard her interests the State will not be the Ioser to the extent of one cent.

To sustain their action in recognizing

To sustain their action in recognizing To sustain their action in recognizing the validity of the Internal Improvement bonds issued during the war, under acts passed before by providing for them in the bill to adjust the State debt, the Legislature had the opinion of Attorney General Rogers in 1866, and the action of Treasurer Battle in funding torney General Rogers in 1866, and the action of Treasurer Battle in funding the interest upon them under act of 1866. And in fact the only averment against the validity of these bonds that I have ever heard was the doubt expressed by Treasurer Jenkins, as set forth in the preamble of House Bill 422. I trust that it will be peedless for me to say it was not my intention or that of the General Assembly in passing II. B 122 to allow any one to "Tou she is made and that such can not be the case under the operation of that bill; but that a the operation of that bill; but that a class of our State Debt as honest as any, and held almost entirely by our own people, might be given a market okers on Wall street, New York. Again respectfully requesting a publication of this statement,

I am very respectfully, Yours, &c., JNO. M. MORING.
