

WHITE MEN OF WAKE COUNTY REGISTER AT ONCE.

The following is a correct list of the names of the white men registered in Wake county, including the city of Raleigh...

- List of names: Burt's Creek - J. D. Allen, Bush Hill - L. B. Anderson, etc.

ANNOUNCEMENT.

At the request of Hon. Josiah Turner, I have examined to conduct the Sentinel during this campaign. Mr. Turner will do his part of the campaign fighting on the stump...

The Sentinel has always been true to the people of North Carolina. Since the bold hand of Josiah Turner was first laid on the helm, it has been a terror to the enemies of honest government...

I have certain principles and convictions which shall govern me in the conduct of this paper. I lay them down as follows:

Principles, not men; patriotism, not partisanship. In political parties, unity is essential; in non-essentials, liberty is all things charity.

Differences of opinion, no crime; fairness and friendliness in controversy; honest aim as truth. Every man to affiliate with that party which best maintains his principles, unmolested by those who differ with him.

Genuine reconciliation with the North. No revivification of dead issues. Forgiveness for the Past; Peace for the Present; Hope for the Future.

Federal Union of the States under the Constitution. No more secession. No more sectionalism.

Protection for all honest labor, and just compensation for the same; no government protection for monopolies.

Friendly relations between producer and consumer. An end to all unhealthy rivalries. No bitter class combinations, class enmities, and class aggressions and oppressions.

Legitimate trade; legitimate profits; legitimate acquisition of riches.

Rigid economy in the administration of government. A more simple, and less expensive judicial system; a more speedy, just and certain execution of the laws.

No taxation to support theories in Politicians. Efficient and less costly modes of punishment. Disfranchisement of persons convicted of infamous crimes.

Removal of the antagonism between capital and labor, by an enlightened statesmanship.

Appreciation of the benefits conferred by railroads, but opposition to all combinations to prevent competition, and thus enhance the cost of transportation.

No hostility to corporations which advance the general welfare, but aggressive action against those which tend to oppress the people, and rob them of their honest gains. All corporations supervised by the State in the interest of the people.

No communism. No agrarianism. No demagogues.

More economy for the South, and more productive industry.

Substantial management by the State, of all manufacturing enterprises, exemption of cotton and woolen factories from taxes, State and Federal.

Abolition of the Federal revenue tax on distilled and fermented spirits, the product of North Carolina grain.

Abolition of the Federal revenue tax on spirits.

Opposition to all interference by law with the private affairs of business men, not required by the public peace or safety.

Payment of the honest public debt. The restoration of the credit of North Carolina.

Anytime by joint effort. Aid to disabled and paucity ex-Confederates.

The speedy completion of unfinished railroads. Increase of facilities for transportation. Encouragement of agriculture. Disfranchisement of the criminal and agricultural classes of the State.

Provision in the Educational System. Permanent establishment of the State University. Reorganization of the literary class of North Carolina.

Our private legislation. General laws, not laws of class. No class legislation. No special franchises. Equal and exact justice to all men.

Our political legislation. General laws, not laws of class. No class legislation. No special franchises. Equal and exact justice to all men.

Home rule. Jealous restriction of the powers entrusted to public servants. No centralization.

Abolition of all useless and unnecessary offices. Public offices public trusts, not private perquisites. Officials the servants, not the masters of the people.

Official accountability rigidly enforced; no private use of public funds by officers. Steady, persevering and harmonious labor to return to the wisdom, the justice, the fraternity, and the political integrity of our forefathers.

JOHNSTONE JONES. The editor of the News has been trying for weeks to get out a candidate in Orange against the editor of the Standard...

THE COTTON STATES CONGRESS. It was an auspicious day for the South when the farmers began organizing. It is a happy augury for the future of our fair sunny land when the farmers meet in council together to consider of the ways and means for advancing the Agricultural interests of the Cotton States.

Why? Because, at the basis of all our wealth, all our prosperity, all our power and glory and happiness as a people, lies the productive industry of the South, the cotton and the corn, and the wheat and the tobacco raising. Like the ground we stand upon, agriculture is the foundation of all other pursuits in this country.

We are unmistakably an agricultural people. Nineteen twentieths of the Southern people are farmers or farm laborers, and whatever benefits them as a class will be a benefit to the country at large; Organized among the farmers is a benefit to them. They learn of each other; they are to each other a mutual profit; their close association is grateful, congenial, and wrapped up in it, untold advantages. It is no less the case with other pursuits in life.

We hail with genuine pleasure the gradual brightening of this day of agricultural improvement. Too long the farmers have forgotten their true interests, neglected to avail themselves of the means of enhancing the usefulness of their profession; and neglected that interchange of views, that concert of action, which will make them independent as a class, and to use the language of an eminent cotton Dealer, "make the sunny south what nature and nature's God always designed it to be—a country that can feed, cloth, educate and support its own people, and furnish a surplus for export that will make it the richest on the face of the globe."

The Cotton States Congress which assembled here to-day has it in its power to accomplish much for the advancement of the true interests of the farmer, by earnest, active consultation and the adoption of wise measures looking to the improvement of the cotton interests of the South.

Our connection with the Sentinel commences after the issue of this number except as a correspondent, until the close of the campaign. The paper will be under the conduct of a well-known and a well-tried Democrat, who will, we venture, give satisfaction to our party.

President Buford, President Hawkins with Seepson's old ring and its big branch at Charlotte, have sought since our party wrested the legislative branch of the government from the Republicans in 1870, to ruin our party. They first sought to buy us. President Buford says he offered us a big price for the Sentinel, and we refused, and then he had to set up a paper to advocate his policy.

Manager Hoare's man Buford's man with the Carolinian, and then with the Dispatch at Charlotte. The Manager made the money fly. When Buford had just sent him one thousand dollars, and then a check on the State National Bank for one thousand more, the check was accompanied with a letter reconstituting against his extravagance. Soon Manager Hoare sold out to Stone and Uzzell.

The stockholders of the Raleigh and Augusta Air-Line furnished these two journeyman printers from Virginia with some \$25,000 to run a cheap paper, called the Raleigh News. They have struck some of the lawyers and some of the leaders of our party. We fight against odds and millions of railroad money as well as the \$16,000,000 stolen from the State. Let our old subscribers pay up and each subscriber send us a new one, and God willing and the people remaining honest, we will whip out the Railroad Presidents, Seepson, McAden & Company.

We will do this without aid to the party. When it is done the party will be the stronger from its purification.

Charles Northcutt is an excellent fellow from the Southern States. He is a member of the Legislature. He is a Republican who has been elected to the Legislature. He is a white man who has been elected to the Legislature. He is a white man who has been elected to the Legislature.

Considering the system of intimidation by republican leaders under which the black men suffered, and their belief that the democratic would in some way oppress them, I think it is an extraordinary testimony to the real political settlement of any Southern State to have seen that it should have for at least one year a democratic State government. In this way alone can the colored people be relieved of the fears which have been impressed upon them. In Arkansas this condition has been reached, and when I was in that State, in March, the same line was substantially broken. The negroes seeing that the democratic victory brought them neither wrong nor outrage, had settled down to work, and many of their leaders in all parts of the State were inclined to act with the democratic party.

INDEPENDENT CANDIDATE. The editor of the News has been trying for weeks to get out a candidate in Orange against the editor of the Standard. Some of the News gang say Joe Turner will defeat the party in Wake. Such men know as much about the people of Wake as they do about the people of Kamuchathia. The people of Wake have had enough of Dr. Hawkins and despise running the radical party, the Standard and Standard, now is to try Dr. Hawkins in running the Democratic party through its stand behind journeyman printers and turnish \$10,000 for their paper.

Be the Orow one of the "Big Injuns" of the West, India the whole white race with its clinging line: "White men came to steal and destroy." That is what carpet-baggers came South for, to rob and pillage.

Advertisement: Raleigh, N. C., July 12, 1876. Editor: I am a printer and live by setting type. I did what I could to elect our present city authorities. I have reasons to feel aggrieved when the Board of Aldermen give the city printing to a newspaper set up and maintained by a railroad corporation and now claimed as the property of capitalists like Dr. Blackwell, Colonel Walter Clark and Col. Holt. What claim have either of these gentlemen upon the Board of Aldermen that the public printing should be awarded to them, especially when there is not one was there at the time of the election of the News as city printer, a single qualified person employed on the Metropolitan organ of North Carolina, or a single printer who is a member of the printer's Union. I want to see no such interference with gentlemen of capital and leisure in the affairs of men who labor daily for their bread. I would willingly join in a public meeting to denounce all such action and conduct. Col. Holt runs cotton factories, and Col. Clark is said to work over a hundred negroes on the Roanoke. Then why should they through the Raleigh News compete and beat out of a job each deserving printer as Edwards and Bouffillon. It is money, Mr. Editor, it is money, and not merit and worth, and I promise you one thing, no man who voted to give the city printing to these gentlemen of overgrown fortunes instead of a laboring printer shall receive my vote.

Advertisement: If you will not publish the above as a communication, put it in as an advertisement and send me the bill. Yours, JOSEPHUS PATRICK.

Advertisement: AN ADDRESS TO THE CONSERVATIVE AND DEMOCRATIC VOTERS OF WAKE COUNTY. At a meeting of your Executive Committee in the city of Raleigh, on the 10th instant, we the Central Committee, were instructed to suggest the following plan of organization for each township in the county during the present campaign: 1st. That where any township has not already been organized by the election of an Executive Committee, or, they meet at the earliest and most convenient day possible to be named by the chairman of executive committee appointed last year, and complete their organization by the election of a chairman of their executive committee and as many committeemen as the people of any township should think proper.

Advertisement: 2d. That they appoint at the same time two active, intelligent and discreet citizens to act as challengers of each poll place in their township, to see that no man, not entitled by law, shall be permitted to vote unchallenged.

Advertisement: 3d. That at the same time they appoint not less than five active, intelligent and good men to supervise the registration, and see that all white men in their township register and vote.

Advertisement: 4th. That they report at once the completion of their organization to the chairman of the Executive Committee of the county with the names of their officers. Your committee further suggest the propriety of every white man's registering of once. The books for the registration of voters are now open in each township, and, as required by law, will be closed the day before the day of election, which occurs on the 8th day of August. No man will be permitted to register after that time.

Advertisement: We have a white man's petition signed in the county of Wake, and if the white people will only do their duty, all will be well. The white people now have control of the affairs of the county by reason of their noble conduct last summer. Our County Commissioners have nearly paid off the debt of the county by the resolution and reform administration of the Radical party. The city of Raleigh has been redeemed and placed in the hands of white men, upon an honest and economical basis. Already, we have cheering news from other parts of our glorious old State, announcing that the white men of North Carolina will forever wipe out the corrupt Radical rule and rule which have paralyzed for so many years the industries of our State.

Advertisement: White men of Wake county, now is the time to register and vote. Your candidates are known and tried men. Let us all do our duty and we will elect them.
