MY LAST APPEAL

Several months ago I requested the ministers of our State to identify the orphan work to their congregations and to forward the cheerful contributions of the people.

Some still intend to co-operate with me like Felix, they shall have "convenient season." But the greater part have an inclination "to visit the fatherless in their affliction."

On one side I am oppressed by a large number of orphans now suffering and asking help; on the other, I am afflicted by the freezing coldness with which the work is treated by many who claim to be (and in some cases are) our best men.

What shall I do? When the people of a great State, and their leaders, attempt to throw the responsibility of their benevolent work upon a single individual his duty is not to accept it, but to step aside and let it rebound upon the people.

I have therefore determined to retire from the orphan work at the expiration of my present official term, and sooner if a suitable successor can be secured.

The orphans have rights which all good people are bound to defend, and the people shall stand free to face with their duty to the needy boys and daughters of the dead.

I ask them to inform me by letter when and where the claims of poor and promising orphans may be laid before their people.

Political Notes. "Citizen" writes to the New York Tribune from that city, warmly presenting the name of Hon. Reverdy Johnson for President.

The New Albany Ledger-Standard announces that the Hon. M. C. Kerr is not a candidate for the Presidency or Vice-Presidency.

The yacht race did not come off at Cape May yesterday, owing to the unfavorable weather which prevailed.

Secretary Robeson must be a nice man to know. A Washington dispatch states that the Tallapoosa will make a pleasure cruise this summer for the accommodation of a large party of prominent persons.

For circulars and other information address either of the Principals, Raleigh, N. C.
