

THE SENTINEL

STATE EXPENSES, CONSERVATIVE VS. RADICAL—LET THE PEOPLE READ.
Proper care and economy in handling the people's money is a great virtue in any political party. Extravagance, waste and peculation should crush it in the eyes of all good citizens. North Carolina is poor, and the party that practices economy in her administration seeks her greatest good. The following carefully prepared table shows who are the political friends of our Commonwealth:

This sums up 58 regular Republicans, and 59 regular Democrats—as ascertained beyond all question.

The death of Dr. Graham takes off one from the Democratic column, leaving 58 Democrats now living and entitled to vote in the Convention.

Jackson county sends O. W. Spake, who ran as an independent Democrat, and the Republicans say is pledged to vote to adjourn without doing anything; our information is that Dr. Spake will come to Raleigh to serve the people and not the Republican party.

Johns elects Dr. W. C. as independent Democrat.

It is a remarkable gain to stand second.

It yields from 40 to 50 bushels per acre.

Its heads will average ten inches in length.

We will send you specimens heads to Farmers on receipt of ten cents, by mail,

which will be a life evidence of the enormous growth of the wheat. Agents to whom we have sent specimen-heads are making enormous profits, showing the heads to their neighbors, and taking orders.

The stalk is sufficiently strong to support the head and prevent its lodging. The grain for stock food is equal, if not superior, to Indian corn. It ripens while the stalk is yet green. We have tested its superiority as far North as Ontario and Quebec, and as far South as New Mexico, proving its perfect adaptation to every variety of soil and climate of America and British Farmers.

Total cost of Convention, \$30,000.00.

The voting population is about 200,000, so that the cost of Convention will be fifteen cents to the voter.

The property however pays the tax, and estimating the taxable value of the property of the State at \$150,000,000, we find the cost of Convention but 20 cents on the thousand dollars.

In alluding to the four years of Conservative rule we say "to some extent" because they have not had the entire control of the State. If so much is saved when only the Legislative branch is concerned what would be the result if all were in their hands? Much of this expense also could be saved were it not shared on us by our ill-advised Constitution.

It is hard to give figures a party line.

They are infallible, but stand out a stern truth, a rigid fact, and the people of North Carolina are wise—they will heed the lesson they teach.

THE RESULT.
