The cleanliness of Raleigh is not be-

remember that the small-pox is now

Daily Sentinel

VOL. XXI. RALEIGH, N. C., THURSDAY, NOVEMBER 18, 1875. No. 90.

We had the pleasure—and this is no
stereotyped newspaper formality—the real
pleasure to-day, of a long visit from our
excellent brother in ink bonds, P. F. Duffy, of the Greensboro
Patriot. A Missourian by birth and an
enthusiastic North Carolinian by adoption,
no native-born son of our grand
old commonwealth surpasses him in
devotion to her and her interests. His
paper is one of the soundest widest
awake, trust democratic journals in the
south, and we are glad to learn is
safe in saying that the interests of their
re-pective charges will not suffer in
their hands.

A REMARKABLE PROFESSIONAL SU-
CESS.—Among the notable professional
men of this country who have achieved
extraordinary success is Dr. R. V.
Pierce, of Buffalo, N. Y. The promi-
nence which he has attained has been
reached through strictly legitimate means
and, so far, therefore, he deserves the
enviable reputation which he enjoys.
This large measure of success is the re-
sult of a thorough and careful preparation
for his calling, and extensive reading
during a long and unusually large
practice, which have enabled him to
gain high commendation, even from his
professional brethren. Devoting his at-
tention to certain specialties of the science
he has so carefully investigated, he
has been rewarded in a remarkable degree.
In these specialties, he has become a re-
cognized leader. Not a few of the rem-
edies prescribed by him have, it is said,
been adopted and prescribed by physi-
cians in their private practice. His
pamphlets and larger works have been
received as useful contributions to medi-
cal knowledge. He has recently added
another, and perhaps more important
work, because of more general applica-
tion, to the list of his published writings.
This book, entitled "The People's Com-
mon Sense Medical Adviser," is designed
to enter into general circulation. Dr.
Pierce has received acknowledgments
and honors from many sources, and es-
pecially scientific degrees from two of
the first medical institutions in the land.

THE CAREER OF ANDREW JOHNSON.
This statesman and patriot has passed away,
but his deeds will live longer than him.

What a commentary is his fame on the
advantages of an American citizen! Un-
lettered and untaught, relying upon himself,
he advanced step by step from the lowest
station in life, to the highest office in the gift of the American people.

All this was accomplished by unswerv-
ing integrity, dauntless courage, and
persevering research. By the exer-
cise of these principles, it is in the power
of any poor and friendless boy to attain
the same grand result. The same

success is attainable in the commercial
world as in the political, as is proven
in the case of Dr. Tutt's Standard pre-
paration.

He, conscious of their value,
laboring patiently, and to day no medi-
cine has taken so firm a hold on the
public estimation as his Liver Pills.

They stand on the doppest round of the
healing ladder.

John C. Winder elected superintendent
of the Raleigh & Gaston railroad. Both

of the gentlemen are eminently well
fitted for their positions, and we are

safe in saying that the interests of their
re-pective charges will not suffer in
their hands."

ZEB. VANCE WHISKY.

[From the Statesville Landmark.]

Jerry Black, in Charlotte, originated

the "Zeb. Vance" brand of whisky. The

Friend of Temperance wants Vance to

"denounce this scandalous use of his

name," and intimates that if he does not

the temperance people and the sober

christians in the state won't vote for him

for governor. It is matter of public

history, and our sensible and clever

Friend ought to have known it, that

Vance threatened Black with a shotgun

when first apprised of the outrage, and

the propriety of putting him under a

bond to keep the peace was gravely con-
sidered by his friends. Vance was
