UNION LEAGUE HOTEL, -There were 10 arrivals at this favorite republican

schedule goes into operation next Sunday, on the North Carolina railroad. tion, or decline to pursue the criminal The westward bound mail train leaves clues even though they should lead to resort this morning. They will sojourn Goldsboro at 8:20 in the morning rives at this place at 11:30, and reaches Greensboro at 4:10 in the afternoon, making close connection with the Charlotte train. The eastward bound mail leaves Charlotte at 5:45 in the morning, arrives at Greensboro at 10, passing this place at 3:49 and reaches Goldsboro at 6:40. The freight train is expected to ccommodate the night travel and will carry comfortable passenger coaches. It will leave Goldsboro at 2 p. m., arrive at Raleigh 7:30, Durham 10:40, Hillsboro 12:22, Company Shops 2:45, Greensboro 6 a. m. Going east the freight leaves Greensboro at 7 p. m., arrives at Company Shops at 9:23, Hillsboro 12:16 a. m., Durham 1:48, Raleigh 5, reaching Goldsboro at 11:15. Hillsboro is to be the meeting point for mail trains and University Station for the freights. There will be but one passenger train a day on the western division, making close connection with the Charlotte, Columbia & Augusta and Air-Line railroads. The freight or accommodation train is to make connection with the trains on the Raleigh & Gaston railroad. There are many and serious disadvantages to Raleigh in the change, and the Charlotte papers complain bitterly of its effect upon their city. We know that Captain Andrews, superintendent of this division, will do all in his power to furnish our citizens needed accommodations, and we trust he will ascertain what improvement can be made in a schedule which will certainly impose many inconveniences upon us. POSTAL .- The proposed change in the schedule of the North Carolina railroad will play the deuce with our present postal advantages. Under this new arrangement only one daily northern mail will be sent and received instead of two whom will be entitled, on payment of an as at present. It will be sent only by annual fee, to all the privileges and in the Raleigh & Gaston railroad ; now the larger portion is sent and received via Greensboro, Under the proposed schedule the mail from Charlotte will pass Greensboro several hours before the arrival of the train from Richmond. The drills or doing any of the hard work of western and northern mails will be the company. The fee is only \$10, and received about 4 in the afternoon. Mona committee of the company will begin a day the following regulations will go canvass of the city to-morrow. We trust into effect at the postoffice in this city : The northern mail will close at 9:30 a. m. ; western, 11 a. m ; eastern, 3 p. m.

ion The Virginia senatorial contest drags its slow length along. The caucus ad journed at a late hour last night, after 38 ballots, without reaching a definit result. Goode, Daniel, Johnston, Tuck er, Smith, Stuart, Robertson, Cochrane Christian, Coghill and Sheffey are the remaining eligible candidates.

Senator Merrimon, of North Carolina Monday introduced in the U.S. sen ate a bill to repeal section 4,716 of the revised statutes, which forbids the payment of certain pensions. The bill re fere to claims or demands against the United States which occurred or existed prior to April 13, 1861, in favor of any person who was engaged in the late re-bellion. It appropriates \$400,000. Lamar, of Mississippi, presided at the caucus of the democratic members of the house of representatives Monday Browning, of Ohio, and Robbins, of N ., were the secretaries. Waddell, of N. U., offered a resolution raising an executive committee of 3 senators, ( representatives and 3 citizens of the District of Columbia. Cox, of N. Y. offered a resolution raising a committee of 11 to suggest to the caucus, at a future meeting, such action as will best subserve the interests of the country. Both resolutions were adopted. All agreed that a reduction of taxation must take place and the government should be economically and honestly adminis-

The good old styles, we are pleased to note, still prevail in the noble common-wealths of Arkansas and Kentucky where, when a man shoots and kills his neighbor on Sunday, he is arrested and fined \$1 and costs for violating the law fined \$1 and costs for violating the law against discharging fire-arms on the Sabbath. Yesterday's dispatches report a lively shooting scrape in each, and the prompt furnishing of ample and respecta-ble material for a coroner's investigation in both instances. In Arkansas, John Smith, the ubiquitous and in this case morally obliquitous John, shot O. N. Thompson, who had himself recently added four others to the population of the spirit-world. And in Kentucky, George Murphy and Wm. MoAleer, of Owensboro, engaged in a little pistolic Owensboro, engaged in a little pistolic recreation, which ended in Murphy's getting a bullet through his head and McAleer one through his heart. Two grim ghosts paddled over Jordan in the same cance, and two families enter the Christmas holidays in black and sombre duds, habiliments of woe.

FIRE ALARM .- This morning at 11:30 the alarm of fire rang out, and the fire brigade was promptly mustered. After running the hose-reels and engines nearly to the depot of the North Carolina railroad, an expression of huge disgust overspread the faces of many gallant firemen when it was announced that the alarm had been occasioned by the burning of an old broom-straw field near the insane saylum. It seems to be diffi-cult to start a first-class fire in Raleigh.

The resolution allowing McMillan, of Louisiana, to withdraw his credentials was adopted by a strict party vote, except Dawes, who voted nay. Incidental to the debate on this resolution, a spicy discussion arose on the recent troubles in that state.

The senate then went into executive HOUSE .- Several bills for the resump

tion of specie payments were introduced in the house yesterday. Blaine offered a bill amending the

constitution to prevent states making laws respecting the establishment of re-ligion or prohibiting the free exercise thereof. Also one in reference to schools and one extending the term of the presidential office to 6 years and in-eligibility afterwards. The two first are based upon recommendations in

Grant's message. Darrall, of Louisiana, to amend act of March 3, 1871, incorporating the Texas & Pacific railroad, Morey, of Louisiana, to remove the political disabilities of all citizens of the

United States.

Davis, of North Carolina, to repeal the law forbidding the payment of claims of southern citizens for quarterinsters stores, &c., and appropriating \$500,000.

Fort, of Illinois, offered a resolution that disabled Union soldiers should be first considered in the appointments to the subordinate offices of the house. A motion seconding the previous question failed by a vote of yeas 96, nays 104. Cox, of New York, offered an amendment that, as the states were reunited all citizens were entitled to consideration in the matter, and moved the reference of the whole subject to the com-mittee on accounts, which motion, after debate and several points of order, was adopted.

In Hillsboro, Dec. 7, by Rev. C. J. Curtis, Mr. R. B. Peebles and Miss Margaret B. Cameron.

In Halifax county, Dec. 10, Mr. James Young and Miss Ann Harris.
