

ATTENTION, TAX PAYERS.

The Chatham railroad, by an infamous fraud, set on foot in 1868 by the Cuffy Mayo convention, has embezzled bonds to the amount of near \$1,000,000 with the state. We secured an injunction in the name of Joseph Harris to stop it.

JOHNSTON, NASH AND WAKE.

These three counties come together about Earsboro. We have mentioned elsewhere our speech, and it now remains to say a word of the country and people we met.

The Earsboro people have suffered from 50 per cent interest, adulterated fertilizers, Baltimore bacon and king cotton. They have concluded that cotton is a tyrannical king and it requires too much to keep him up.

Not a copy of the Raleigh News was taken at Earsboro. Woodson did cheaply one copy of it upon one citizen only, and he soon discontinued it.

MRS. HAPPER HEARD FROM.

When Woodson cheaply joined the Raleigh News, and a man subscribed, he would cry aloud, "And another soul made happy."

We do not care to publish all the letter, but will do so if necessary. Mrs. Happer says Stockholder Blackall is in her debt for house rent, for 1869-'70, about \$5000, and her claim is in the hands of Judge Fowle for collection.

We say now, we would not harm or injure the good-natured stockholder. He keeps an excellent house—everything neat and elegant.

lady shall be paid forthwith, and four souls be made happy by paying just debts to parties in great need.

We say to you, Doctor, it is the railroad corporations and their men who are, and have been, behind you, Stone, Woodson, Hearne, Uzzell and Cameron, that we are after.

THE CONSTITUTIONAL AMENDMENTS ADOPTED.

THE EXCHANGER OF BONDS WITH THE CHATHAM ROAD CONDEMNED.

Earsboro is in Johnston county, a mile from the Wake line, and two miles from the Nash line. Upon invitation we made a visit to Earsboro last Saturday, where we made a long speech upon the constitutional amendments, rings, rogues and the Chatham road.

DENYING THE STOCK.

Peter denied his master and that was bad. Stockholder Blackall denied his stock and that was good. Mr. James Mullen, an honest and anti-railway lawyer of Halifax, without his knowledge, sanction or consent, learned that his name was recorded in the register's office, at Raleigh, as holding one thousand dollars of stock in the Raleigh News.

MIXED PICKINGS AND STEALINGS.

Adeline Patti will be thirty-three years old February 19.

It has been decided to begin the channel tunnel at St. Margaret's, near Dover, next April, by opening a trial cutting.

Song Hoy, a pretty little Chinese woman, is at present the honoree of San Francisco, owing to the placard she displayed in arresting a burglar.

The Herzegovian insurrectionists are opposed to the peaceful solution of their grievances through a reform to be administered by their enemies, the Turks.

Trinity church, in Boston, sets a high estimation on its roster, the Rev. Phillips Brooks, and is said to have insured his life to the amount of about \$100,000.

Gail Hamilton says that a girl should pick out a husband as she picks out an apple. And Bristol thinks a man should pick out a girl as he picks out his apple—a little above proof.

A majority of the democratic members in the House voted against the ostentatious appropriation bill because they did not believe that an expenditure of that character was justified by the constitution.

Great crowds of emigrants are pouring into California and pouring out again. The San Francisco newspapers, vain, selfish and provincial, persist in writing rosy descriptions of California life that cannot be realized.

A blind beggar in Paris was absent from his usual position in a doorway during the last cold weather. In his stead was placed with this inscription: "In consequence of the severe cold I solicit alms at home," accompanied by his address.

Mr. Douglas, of Virginia, has introduced a bill, which was referred to the committee on war claims, appropriating \$5,000 for the damages done by the troops of Brigadier General H. H. Lockwood to St. George's church, Accomac county, Virginia.

Fifteen thousand indignant taxpayers of Chicago, who had been robbed in the most scandalous manner by an assessor, were prepared and fully resolved to go before the grand jury and have him indicted, when was their dumb amazement to find him among the list of grand jurors.

A machine has been lately patented by a California inventor, by the use of which the trouble for driving sewing machines will be entirely dispensed with. Clock-work is the motive power, and an arrangement of springs and levers is so arranged and nicely made that a needle may be made to operate at any desired rate of speed.

It is reported that Mr. E. F. Stevens, the United States agent at London, in addition to his salary and expenses of \$25,000 a year, derives an income from the government by commissions which he charges on purchases made by the several departments. The purchases generally consist of books for the congressional library, Smithsonian Institution, department of justice, &c., on which he is said to charge a commission of five per cent.

Considering the build of men whom Grant has introduced into the diplomatic service, the Springfield Republican thinks the new salaries enough. The salary, it says, "were none too much to afford opportunity for a decent hospitality and social figure at the European courts, but after the performance of General Schenck the country will feel that the less money we give these fellows the less conspicuously will they display their unworthiness."

Alexander H. Stephens writes to a friend in Washington that he will not be able to take his seat in the House before spring. Other advices are that Mr. Stephens is rapidly declining, and that his recovery is not looked for. Mr. Stephens has said that he will not resign, so that his seat will remain vacant until his recovery or death.

Gen. W. B. Hazen states that the country lying between 100° west longitude and the Sierra Nevada mountains, all the way from Mexico to the British possessions (and far into these possessions), is, in an agricultural sense, practically valueless, except in a few exceptional cases, where water can be used for irrigation, and that even with this process not more than one acre in many hundreds upon the average, can be made available on account of the scarcity of water.

According to the Allgemeine Zeitung, Samuel Thomas Goosmaring was the inventor of the electric telegraph. He made known his invention in 1809, and it was adopted by Baron Schilling Von Canstatt, who made experiments in Munich in 1811; made improvements in 1820, and exhibited the apparatus at a scientific congress in Bonn, 1833.

The city judge of Montgomery, Ala., late federal district attorney, and a decided republican as any man in the United States, asserts over his signature, and as a fact within his knowledge, that in no law nor in force in Alabama is there any discrimination made between white and black as to mode of trial or punishment. He says Mr. Morton's charge that negro convicts are "sold to the highest bidder" is true in the sense that such offenders are hired out, yet Mr. Morton forgot to state that the same measure is meted out to white convicts.

We never wrote the poetry, and we do not say it is the spirit of Peter or Blackall, but because it is true, and we do not like to appear in borrowed plumage.

THE MOST REMARKABLE REMEDY EVER DISCOVERED.—Benson's CAPSICUM PLASTER.—At no time in the history of true medicine has an article appeared which has met with greater approval and success than Benson's Capsicum Plaster.

Physicians and the general public who acknowledge the great benefits derived from the use of the ordinary capsicum plaster, however, maintain that their action is not sufficiently prompt, requiring time, patience and continuous wear to effect a cure.

Although a recent discovery—Capsicum has been thoroughly tested by physicians, and in each instance has been pronounced the most remarkable, safe, certain and thoroughly efficacious remedy ever discovered.

Incorporating Capsicum in an improved Porous Plaster has been accomplished after repeated solicitations from the medical fraternity and is now prescribed by them with unprecedented success; especially in Rheumatism, Fluorid, Stomachic Colds, Kidney Complaints, and all diseases for which a Porous Plaster has been used.

It is a genuine pharmaceutical preparation of the highest order of merit; its ingredients are entirely vegetable and free from Mineral or Metal Poisons.

GRATUITOUS ADVICE.

This species of advice is not always acceptable, but doubtless in many instances much benefit would be derived were it promptly acted upon. No section of the country is exempt from disease, and many regions have its "ills that flesh is heir to."
