APPROPRIATION EXHAUSTED.

WORK SUSPENDED ON THE GOVERNMENT BUILDING. At a few minutes before 1 o'clock this afternoon Mr. Superintendent Harris announced to the workmen on the government building in this city that work on the structure would be suspended until July 1, in consequence of the exhaustion of the only tangible appropriation. This announcement took every body by surprise, as the books lead, up to the present, been reported as showing anything but an exhaustion of funds.

THE SPIRIT OF THE AGE.—We are pleased to note the improvement in the journal under the management of its present publisher, W. J. Edwards. The presentation of the paper is doubtless within the past few months, containing an excellent advertising medium. Our merchants who desire to reach a large number of intelligent readers in Wake and adjoining counties, and along the line of the railroad, will find the columns of the Age useful. Mr. Edwards intends at an early day to enlarge and otherwise improve its appearance. He expects that it will double again by the opening of the spring season, and judging from the large increase published each week we see no reason to doubt that his expectations will be realized. Success to it!

SUPERIOR COURT.—Court met at 10 o'clock pursuant to adjournment, all in just order present:

Causes from the 6th district were called and disposed of as follows: The argument of the case of A. M. Lewis, Jr., vs. commissioners of Wake county, begun yesterday, concluded today. R. C. Badger, J. B. Batchelor and A. M. Lewis for plaintiff and Busbee & Busbee and George H. Snow for defendant. J. P. Patton et al. vs. D. A. Jenkins, public treasurer, from Wake; argued by J. B. Batchelor and Badger & Doveaux for the plaintiff and Attorney General Hargrove and Smith & Strong for the defendant. (Two cases, with same parties, involving similar questions.) Court adjourned until to-morrow morning at 10 o'clock.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—The association holds its regular monthly meeting at its hall in the Brierly building this evening at 7 o'clock. The interests of the association and its work will be considered. Every member is urged to be present. The organized efforts put forth by the association for the relief of the deserving poor of this city has accomplished much, but the pressing demands of the needy have exceeded the abilities of the association to meet them as promptly as desired. The work of administering to the necessities of the poor deserves, and should receive, the encouraging men of our people. Many have responded liberally to the calls for assistance made by the committee of the association. The means adopted for the relief of the poor, viz: the appointment of supervisors over districts into which the city is divided, giving each supervisor the control of his immediate district, have enabled the association to carry out a system the plan of operation, thereby preventing unjust discrimination. Still more remains to be done, however, and renewed efforts will be made to increase the abilities of the supervisors to dispense their charities.
